All the fundamentals. No fluff. Learn more with less! A truly

revolutionary American Government textbook, Christine

Barbour's AmGov: Long Story Short, responds to the needs of

today's students and instructors through brevity and

accessibility. The succinct ten chapters are separated by tabs that make it easy to skim, flip, revisit, reorient, and return to content quickly. Reading aids like bullets, annotations and arrows walk students through important facts and break up the material in short, engaging bites of information that highlight not only what is important but why it's important. Though brief, this core book is still robust enough to provide everything that students need to be successful in their American Government course. Whether for the on-the-go student who doesn't have time to read and digest a lengthy chapter, or the instructor who wants a book that will stay out of their way and leave room for plenty of supplementary reading and activities, AmGov provides a perfectly simplified foundation for a successful American Government course.

Proud of Their Heritage and Sustained by Their Faith, They Came to Tame a New Land She had promised herself that once they left the fjords of Norway, she would not look back. After three long years of scrimping and saving to buy tickets for their passage to America, Roald and Ingeborg Bjorklund, along with their son, Thorliff, finally arrive at the docks of New York City. It was the promise of free land that fed their dream and lured them from their beloved home high above the fjords of Norway in 1880. Together with Roald's brother Carl and his family, they will build a good life in a new land that promises untold wealth and vast farmsteads for their children. As they join the throngs of countless immigrants passing through Castle Garden, they soon discover that nothing is as they had envisioned it. Appalled by the horrid stories of fellow immigrants bilked of all their money and forced to live in squalid living conditions, the Bjorklunds continue their long journey by train as far as Grand Forks. From there a covered wagon takes them into Dakota Territory, where they settle on the banks of the Red River. But there was no way for them to foresee the price they will have to pay to wrest a living from the indomitable land. The virgin prairie refuses to yield its treasure without a struggle. Will they be strong enough to overcome the hardships of that first winter?

A Galaxy for Everyone (Star Wars) CQ Press

This text sets out to challenge the traditional power basis of the policy decision makers in education. It contests that others who have an equal right to be consulted and have their opinions known have been silenced, declared irrelevant, postponed and otherwise ignored. Policies have thus been formed and

implemented without even a cursory feminist critical glance. The chapters in this text illustrate how to incorporate critical and feminist lenses and thus create policies to meet the lived realities, the needs, aspirations and values of women and girls. A particular focus is the primary and secondary sectors of education.

Can a clever young inventor uncover a ruthless pirate's heart of gold? Thrilling sea adventure takes on a hint of steampunk in the second book by the author of the acclaimed *Hour of the Bees*. When her parents, the great marine scientists Dr. and Dr. Quail, are killed in a tragic accident, eleven-year-old Fidelia Quail is racked by grief -- and guilt. It was a submarine of Fidelia's invention that her parents were in when they died, and it was she who pressed them to stay out longer when the raging Undertow was looming. But Fidelia is forced out of her mourning when she's kidnapped by Merrick the Monstrous, a pirate whose list of treasons stretches longer than a ribbon eel. Her task? Use her marine know-how to retrieve his treasure, lost on the ocean floor. But as Fidelia and the pirates close in on the prize, with the navy hot on their heels, she realizes that Merrick doesn't expect to live long enough to enjoy his loot. Could something other than black-hearted greed be driving him? Will Fidelia be able to master the perils of the ocean without her parents -- and piece together the mystery of Merrick the Monstrous before it's too late?

Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before

him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillippe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

In *A Bigger Picture*, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, *A Bigger Picture* is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up

with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, *A Bigger Picture* explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.

Don't judge a book by its cover... At over six feet, with a body honed in the gym, auto worker Donovan Gregory is used to people assuming he's a dominant top. Unfortunately, they're wrong, and Donovan's desire to explore his submissive side goes unfulfilled. Smaller and older than Donovan, Dr. Seth Manning might not look like a typical Dominant, but when the two men meet at Pride, Donovan realizes Seth might be his perfect counterpart. Seth must convince him that despite the differences on the surface, when it comes to kinky fun and discovery, they'll fit together just fine.
