A discussion with a friend soon turned into a matter of self-assessment, leading to this discourse on why Bhagat Singh chose to be an atheist. Even in the face of death at a very young age, with uncanny observations and sharp questions, he forces us to re-think our foundations to faith in god.

 The acute inflammatory response is the body's first system of alarm signals that are directed toward containment and elimination of microbial invaders. Uncontrolled inflammation has emerged as a pathophysiologic basis for many widely occurring diseases in the general population that were not initially known to be linked to the inflammatory response, including cardiovascular disease, asthma, arthritis, and cancer. To better manage treatment, diagnosis, and prevention of these wide-ranging diseases, multidisciplinary research efforts are underway in both academic and industry settings. This book provides an introduction to the cell types, chemical mediators, and general mechanisms of the host's first response to invasion. World-class experts from institutions around the world have written chapters for this introductory text. The text is presented as an introductory springboard for graduate students, medical scientists, and researchers from other disciplines wishing to gain an appreciation and working knowledge of current cellular and molecular mechanisms fundamental to inflammation.

A legend with a host of admirers like Amitabh Bachchan and Om Puri, Balraj Sahni led the golden era of Indian cinema. He was known to be true to his principles, a non-conformist often remembered for his portrayals of the underprivileged. This is the untold story of one of the most iconic leading actors of this country. Written by his son Parikshat Sahni, the book-packed with unseen photos-provides personal and intimate glimpses of Balraj Sahni as a man and an actor, as a husband and a friend, as a parent and a patriot. It celebrates the life, times and impact of a simple man who inspired an entire generation of actors and continues to do so even today.

 Well-written and well-researched by leading gender communication scholars Julia T. Wood and Natalie Fixmer-Oraiz, *GENDERED LIVES: COMMUNICATION, GENDER, & CULTURE*, 13th Edition, provides the latest theories, research and pragmatic information to help readers think critically about gender and society. The book demonstrates the multiple and often interactive ways a person's views of masculinity and femininity are shaped within contemporary culture. It offers balanced coverage of different sexes, genders and sexual orientations. Reflecting emerging trends and issues, the new edition includes expansive coverage of men's issues, an integrated emphasis on social media and a stronger focus on gender in the public sphere.  British agitations, are thoughts of going home to his wife. When he returns, he finds out that his wife has died, leaving behind their infant child. As Kuldeep's world collapses around him, he negotiates the divergent pulls exerted by people around him: a holy man who advocates renunciation; his childhood friend Saroj, who has always loved him; and the tempestuous Prakash who hides an unsavoury past. Sahitya Akademi Award-winning author Nanak Singh draws on personal experiences to create this compelling portrait of Punjab in the 1920s. Originally published in Punjabi in 1940, *Adh Kidhiya Phool* is an intense meditation on the choices people make and the consequences these may have. *The Weak Point Dealer* Routledge

The book provides personal account and experiences of the author who visited devasthanam. They should work interest and devotion among the readers and reverence of the deity. The book deals with eternal questions like Is there God? If there is, how does He look? Have you seen Him? Or the seekers of truth who ask, How much of faith one should repose in God to earn His Support for Human endeavors? This book, perhaps has answers for such question.

This book explores the potential of multi-functional carbon nanotubes for biomedical applications. It combines contributions from chemistry, physics, biology, engineering, and medicine. The complete overview of the state-of-the-art addresses different synthesis and biofunctionalisation routes and shows the structural and magnetic properties of nanotubes relevant to biomedical applications. Particular emphasis is put on the interaction of carbon nanotubes with biological environments, i.e. toxicity, biocompatibility, cellular uptake, intracellular distribution, interaction with the immune system and environmental impact. The insertion of NMR-active substances allows diagnostic usage as markers and sensors, e.g. for imaging and contactless local temperature sensing. The potential of nanotubes for therapeutic applications is highlighted by studies on chemotherapeutic drug filling and release, targeting and magnetic hyperthermia studies for anti-cancer treatment at the cellular level.

Treatise on Sanskrit poetics and Vaishnava poetry.

Parsa I. B. Tauris

The book takes as its theme the relationship between literature and the contemporary means of production and distribution collectively termed 'the media' - in particular, film and television. The intention of the book is to explore and evaluate the mutual opportunities and restrictions in this relationship. In the grammar of our culture there seems to be an accepted opinion that print is superior in terms of cultural production to film, radio or television, that to read a book is somehow a 'higher' cultural activity than seeing a play on television or seeing a film. By the same token, a novel is a 'superior' work of art to film or television. The longer perspective reveals that traditionally there always is a greater respect paid to the previous mode of literary production - poetry was superior to drama, poetic drama was superior to the novel, and film attained cult and classic status initially over television. *Fundamentals of Inflammation* Cengage Learning
 An unprecedented historical account of undivided Punjab, from the death of Aurangzeb to the Partition. For centuries, the fertile land of five rivers in the north of the Indian subcontinent was

coveted by numerous empires and invaders. In this, the first major account of undivided Punjab, award-winning historian, biographer and scholar, Rajmohan Gandhi, gives us its history during its most tumultuous phase from the death of Aurangzeb, in the early eighteenth century, to its brutal partition in 1947, coinciding with the departure of the British. Relying on fresh sources as well as previous accounts provided from opposing perspectives, the author fashions a compelling narrative about the great events of the time in the region - the battles and tragedies that routinely disrupted the lives of ordinary Punjabis, the sacking of iconic cities like Lahore, Amritsar, Multan and Jalandhar by a succession of conquerors, the ravages wrought by invaders like Nadir Shah, the rise of the Sikhs culminating in the storied reign of Maharaja Ranjit Singh, Britain's successful wars against the Sikh kingdom, the Great Rebellion of 1857 and its effect on Punjab, imperialist machinations, the influence on the people by leaders of the independence movement like Mahatma Gandhi, Muhammad Ali Jinnah and Lala Lajpat Rai, as also key regional figures such as Fazl-i-Husain, Master Tara Singh, Sikander Hayat Khan and Khizr Hayat Tiwana, the devastation of Partition - and much else besides. Believing that modern India and Pakistan cannot be understood without comprehending the Punjab that was, the author also delves into the idea of Punjabiyaat - Punjabiness - the literature and poetry of creative giants like Bulleh Shah, Waris Shah, Iqbal, Amrita Pritam and Saadat Hasan Manto, the spiritual teachings of the Sikh Gurus and Sufi saints and, above all, the testimonials and narratives of ordinary Punjabis, to create an unforgettable portrait of a place - undivided Punjab - that continues to fascinate us (even though it broke up more than six decades ago) and of its hard-tested and resilient people, Hindu, Muslim and Sikh.

Sufism has not only survived into the twenty-first century but has experienced a significant resurgence throughout the Muslim world. Sufism and the 'Modern' in Islam offers refreshing new perspectives on this phenomenon, demonstrating surprising connections between Sufism and Muslim reformist currents, and the vital presence of Sufi ideas and practices in all spheres of life. Contrary to earlier theories of the modernization of Muslim societies, Sufi influence on the political, economic and intellectual life of contemporary Muslim societies has been considerable. Although less noticed than the resurgence of radical Islam, Sufi orders and related movements involve considerably larger numbers of followers, even among the modern urban middle classes. This innovative study brings together new comparative and interdisciplinary research to show how Sufis have responded to modernization and globalization and how various currents of Islamic reform and Sufism have interacted. Offering fascinating new insights into the pervasive Sufi influence on modern Islamic religiosity and contemporary political and economic life, this book raises important questions about Islam in the age of urbanism and mass communications.
