"You know nothing.

Nothing about Tanzania or its people. You would never have agreed to dog me if you didn't want to see the Black Continent, and only I can show it to you. You have only one option anyhow: follow me, Commander Sharp." A Lost World. A Marvelous Expedition. A Dangerous Ambassador. Across the waters from industrialized Cavendia lies the Forbidden Continent of Tanzania, where Servants, the majikal creations of an ancient sorcerer, still walk the earth. Once mankind was enslaved there, but after the sorcerer's imprisonment, one nation sailed away. For centuries, none has dared return, until now. Fear has grown that technology may have emerged on Tanzania. Cavendia's government decides to make first contact with the ancient land. Their chosen ambassador is Chadwick Yates, of origins unknown. An expert woodsman and firearms master, Yates is not a man to be crossed. His

mission is to report on the technology and resources of the indigenous, but the government now suspects he is hiding the full truth.

Thurston Sharp, a Royal Navy Commander from a long military pedigree, is selected to go along and find out what Yates is hiding. When the pair are dropped on Tanzania, Sharp realizes nearly everything Yates has told the government is a lie. But in a land populated by dark hounds, cannibals, and gargoyles of living stone, Sharp has no choice but to fight to survive with Yates and to go where the ambassador leads, even to battle... About the Series "Yates shouldered his shotgun and poured cartridge after cartridge of triple-aught shot into the minotaur. The monster howled and turned to face him, ruby eyes alight like coals." Monsters and elephant guns face off as Ambassador Chadwick Yates and Navy Commander Thurston Sharp explore the Forbidden Continent of Tanzania. The pair must adapt to the curious cultures of Gremlins, Faeries, Anurans, and others to make allies, and fight off the evil creatures that serve an ancient sorcerer. The Adventures

of Chadwick Yates is for readers who love action in exotic locales. The series blends the Lost World literary genre of Indiana Jones and King Solomon's Mines with the magic and monsters of epic fantasy. Featuring real 19th century gadgets and a gorgeously-realized world, the series was inspired by such works as Allan Quatermain, Sherlock Holmes, Journey to the Center of the Earth, Heart of Darkness, The Most Dangerous Game, and The Lost World.

Romantic Hellenism and Women Writers challenges the High-Romantic narrative of English classicism. Scholarship on this subject typically construes the Greek influence as masculine in orientation and bound to institutions of learning and authority that excluded women. This limited version of Hellenism does not account for the popular contexts of Greek revivalism, most notably among women writers and readers, in fashionable magazines, gift books and annuals. The culture of Hellenism thrived in these venues, not as the familiar monumental heritage but as an ephemeral Greek ideal, as alluring and evanescent as the Sappho-knot hairstyle or the high-waisted dress à la Grecque. This emphasis on ephemerality in women's reinventions of Greece betrayed a

distrust of liberal rhetoric that upheld the principles of democracy while ignoring the social inequities of the classical world. Although women promoted a Greek aesthetic, many also rejected Greece's misogynistic legacy of slaves, concubines and abandoned wives.

In this series, acclaimed comics scholar Dr. Julian Darius argues that the DC

Universe is old enough to have produced a canon of classic stories. Here, he analyzes this canon as it pertains to the Justice League and DC's universe-wide crossovers. Since 1940, DC Comics has been bringing its heroes together, first as the Justice Society, then (beginning in 1960) as the Justice League, and finally (beginning in 1985) in universe-wide crossovers. Shared super-hero universes achieved widespread attention in the wake of Marvel's movies, but DC's been paving the way since 1940. A decade in the making, CLASSICS ON INFINITE EARTHS takes readers on a tour of this history, using discussion of classic stories as a unique way of illuminating the history and evolution of the DC Universe. In the process, Dr. Julian Darius offers what may be the very first long-term study of how to manage such a shared universe. From Sequart Organization. More info at <http://sequart.org>
