Advanced Accounts Vol-2 BPP Learning Media

Description: Intended primarily as a text for the undergraduate students of commerce, this book gives a comprehensive and in-depth analysis of the concepts and principles underlying financial accounting. It also introduces the student to the tools and techniques essential for tackling real-life problems. The text discusses in detail final accounts, branch accounting, hire-purchase and instalment sales, partnership accounts, stock valuations, as well as other company accounts. The book would be of considerable help to the readers in preparing financial statements and would equip them with the necessary knowledge in understanding the financial performance and the financial position of an organization and communicate these to its stakeholders. Besides students of commerce, those appearing for various professional examinations such as CA and ICWA foundation courses should find this student-friendly and accessible book extremely useful.

Whether it is a balance sheet of a company, a cinema hall, or of a school; auditing evaluates all! This comprehensive book, now in its second edition, is a compendium of a textbook; a handbook of Auditing Standards; a question bank, and a compilation of model answers. This text is organized in four parts. Part 1 (Principles) enunciates the standards and the concepts, which form the bases of auditing. Part 2(Process) provides a stepwise description of the auditing process, adopted by the auditors while performing audit engagements. Part 3 (Performance) deals with the auditing engagement and shows how the verification of financial elements such as receipts, payments, purchases, sales, assets and liabilities is conducted. Part 4 (Practice) demonstrates the practical aspects of audits of specific entities such as private limited companies, charitable trusts, hospitals and so on. This book is primarily intended for the students of Chartered Accountancy (appearing for the CA-PCC examination), Cost Accounting, Company Secretary, and postgraduate students of Finance and Accounting. Apart from that, the book is also useful for the practising Chartered Accountants and Financial officers of companies, as a reference handbook. Key Features : Incorporates 67 practical questions (with structured solutions) to help the students to apply the principles to practical situations. Comprises 147 case studies to help identify the issues involved, place them in the right context and arrive at a correct conclusion. Provides 285 innovative true and false type questions (with their reasoned

answers) to strengthen the grasp of the subject. Contains 1267 answer-in-brief questions, which are cross-referenced. New to this Edition : Explains all the latest Standards on Auditing applicable for financial years 2009–2010 and 2010–2011. Includes model answers for all relevant descriptive examination questions, asked in the CA-PCC/Final examinations till June 2009. Numerous newly drafted questions (true or false, answer-in-brief, descriptive type) on latest auditing standards with answers/cross references.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
