Annotation This book is devoted completely to intermediate sanctions systems and their individual programs.

Key Issues in Corrections Prentice Hall

We offer these texts bundled together at a discount for your students! Barry Krisberg, *American Corrections: Concepts and Controversies* This comprehensive

introduction to corrections presents an incisive view of every aspect of corrections (including jails, probation, sentencing, prisons, and parole), prompting students to think critically about the complex issues involved in responding to the current crisis in the U.S. correctional system.

Incorporating theory, research, and the most recent available data, the book takes a contemporary and issues-oriented approach as it explores the most interesting and progressive developments in correctional policy and practice.

Students will come away with practical

knowledge, as well as a framework for thoughtful analysis of a subject that can seem mysterious or impenetrable. In addition, the book covers subjects many corrections texts treat only minimally, including women in corrections, the death penalty, and special populations. Perhaps most importantly, the book offers a point of view on what is plaguing the American correctional system and a realistic look at the solutions that offer real promise. Travis C. Pratt, *Addicted to Incarceration: Corrections Policy and the Politics of Misinformation in the United States*

Addicted to Incarceration, author Travis Pratt uses an evidence-based approach to explore the consequences of what he terms America's "addiction to incarceration," highlighting the scope of the problem, the nature of the political discussions surrounding criminal justice policy in general and corrections policy in particular, and the social cost of incarceration. Pratt demonstrates that the United States' addiction to incarceration has been fueled by American citizens' opinions about crime and punishment, the effectiveness of incarceration as a means of social control, and perhaps most important, by policies legitimized by faulty information (e.g., fear of crime is objectively linked to victimization, petty offenders mature into violent predators, and persistent offending can be accurately predicted over the life course). Analyzing crime policies as they relate to crime rates and U.S. society's ability to both lower the crime rate and address the role of incarceration in preventing future crime, the book shows students how ineffective our rush to incarcerate has been in the last decade, as well as offering recommendations and insights into the

future of this problem. Please contact your Sales Representative for more information.

INTRODUCTION TO PENOLOGY AND CORRECTIONS 1E

Correctional Rehabilitation Study Act of 1965 Routledge

"Jeanne Stinchcomb's book makes an excellent contribution to the field of corrections serving as a substantial resource for those teaching corrections and as a practical inspiration for those students who will ultimately lead the profession. Stinchcomb carefully crafts a balanced perspective that presents a powerful argument for why corrections is an important and necessary part of our criminal justice system while at the same time cautioning that justice can only be served when corrections is implemented with integrity and held to the highest of professional standards....This book will dare those who care about corrections to move beyond the ease of accepting the status quo to optimistically embracing the greater challenges of implementing a just and effective system of corrections." - Faith E. Lutze, Ph.D., Washington State

University Written by a master teacher with over a decade of experience in federal, state, and local justice agencies, this is the most comprehensive, yet affordable, corrections text on the market. Students will like everything about it - from the reasonable cost to the user-friendly narrative that keeps them engaged. Chapters are written with the passion of a former correctional trainer and administrator, while balancing both sides of every issue. Based on proven concepts of instructional design, the narrative features: measurable learning outcomes that are placed strategically throughout the chapters material is presented in a "building-block" method designed to enhance learning "Close-up on Corrections" boxes reinforce content with real-life stories and examples. Realistic insights are provided into virtually every aspect of the "correctional conglomerate" - from the impact of sentencing policies to the effects of institutional life and the difficulties of re-entry. Unlike most other texts, an entire chapter is devoted to the correctional workforce - which gives students insights into the challenges as well as rewards of such employment. Best

of all for the instructor, the book's flexibility and supplemental material make it a breeze to use in the classroom. Electronic versions are available for online and hybrid courses, and it is customizable in inexpensive paperback form. The instructor's manual, written entirely by the Author of the text itself, includes over 500 high-quality test questions directly correlated with each learning outcome featured in the text, along with annotated websites, teaching tips, and powerpoint slides.

The discipline of adult education has been vastly discussed and optimized over the years. Despite this, certain niches in this area, such as correctional education, remain under-researched and under-developed. Strategic Learning Ideologies in Prison Education Programs is a pivotal reference source that encompasses a range of research perspectives on the education of inmates in correctional facilities. Highlighting a range of international discussions on topics such as rehabilitation programs, vocational training, and curriculum development, this book is ideally designed for educators, professionals, academics, students, and practitioners interested in emerging developments within prison education programs.

Racialized Correctional Governance

examines problems in the relationship between criminology and racialized issues. It questions current models for discussing issues of race in criminal justice systems and asks why a comprehensive theory of race and criminal justice has yet to develop in the discipline. It takes into account the full nature of problems facing racialized peoples in criminal justice systems, the developments and tensions in criminological theory and practice, as well as the scope of racialized criminal justice issues and where they occur. Suggesting that current explanations for the over-representation of racialized peoples in the criminal justice system are inadequate, the book explores the mutual constructions of race and criminal justice. It examines the shortcomings of current discourse, giving an account of how race, criminal justice and criminology are interrelated. Aiming to provide criminology with tools to engage with issues of race and criminal justice, the book develops and applies a set of rules to a series of case studies and proposes ideas for transforming institutional practice. Introduction to Corrections Policy Press
Introduction to Corrections provides

students with a comprehensive foundation of corrections that is practitioner-driven and grounded in modern research and theoretical origins. This text uniquely illustrates how the day-to-day practitioner conducts business in the field of corrections in both institutional and community settings. Experienced correctional practitioner, scholar, and author Robert D. Hanser shows students how the corrections system actually works, from classification, to security, to treatment, to demonstrating how and why correctional practices are implemented. Furthering the reality of the modern correctional experience, the Third Edition includes a new chapter on immigration detention centers. Contemporary Corrections: A Critical Thinking Approach introduces readers to the essential elements of the US corrections system without drowning students in a sea of nonessential information. Unbiased and accessible, the text includes coverage of the history of corrections, alternatives to incarceration, probation/parole, race/ethnicity/gender issues in corrections, re-entry into the community, and more. The authors' unparalleled practical approach, reinforced by contemporary examples, illuminates the role corrections plays in our society. The authors have reinvigorated earlier work with additional content on international comparative data to increase our understanding of how prison officials in other nations have developed different

types of responses to the problems that challenge every US correctional administrator, a new chapter on correctional personnel, and an integration of race and ethnicity issues throughout the book. Unrivaled in scope, this book offers undergraduates a concise but comprehensive introduction to corrections with textual materials and assignments designed to encourage students' critical thinking skills.

Introduction to Corrections Allyn & Bacon Corrections: The Essentials, Third Edition is a comprehensive, yet compact version of the typical corrections text. Authors Mary K. Stohr and Anthony Walsh address the most important topics in corrections in a briefer, full-color format, offered at a lower cost. It includes the usual topics typically found in corrections textbooks, but has a unique perspective with greater coverage on three key topics: the history and development of correctional institutions, ethics and diversity. The book also offers unique special feature boxes, allowing students and instructors the opportunity to focus on key perspectives to broaden the book's coverage. The book's brevity makes it an excellent core textbook that

can easily be supplemented with additional reading materials.

Explores the challenges faced by convicted offenders over the course of rehabilitation and reintegration. Each chapter focuses on a specific phase of the process.

American Corrections IGI Global

This textbook focuses on the criminality and victimization of the elderly population.

It provides a global perspective on the extent of the elderly crime and victimization, with international comparisons for addressing the problem. It explores the extent and types of crimes committed by the elderly, the characteristics of older criminals, and the responses of the criminal justice system (including prisons and institutions) to elderly criminals, including: diversion programs, community-based treatment programs, and special programs including health & mental health care services for older prisoners. The second part of the book covers victimization of the elderly. Research findings show that certain crimes including fraud, theft, and certain types of

financial crimes disproportionately affect older people, and these types of crimes are growing in prevalence. This work explores the characteristics of older victims and the types of crimes that affect them. Finally, the book presents comparative international research on approaches to crime prevention, education, and legislation to address the victimization of the elderly. This work will be of interest to students in criminology and criminal justice, as well as related fields such as sociology, and gerontology.

Introduction to Corrections Sage Publications, Incorporated
 Corrections in the Community, Sixth Edition, examines the current state of community corrections and proposes an evidence-based approach to making programs more effective. As the U.S. prison system approaches meltdown, options like probation, parole, alternative sentencing, and both residential and non-residential programs in the community continue to grow in importance. This text provides a solid foundation and includes the most salient information available on the broad and dynamic subject of community corrections. Authors Latessa

and Smith organize and evaluate the latest data on the assessment of offender risk/need/responsivity and successful methods that continue to improve community supervision and its effects on different types of clients, from the mentally ill to juveniles. This book provides students with a thorough understanding of the theoretical and practical aspects of community corrections and prepares them to evaluate and strengthen these crucial programs. This sixth edition includes a new chapter on specialty drug and other problem-solving courts. Now found in every state, these specialty courts represent a new way to deal with some of the problems that face our citizens, be it substance abuse or reentry to the community from prison. Chapters contain key terms, boxed material, review questions, and recommended readings, and a glossary is provided to clarify important concepts.

Francis T. Cullen, *The American Prison: Imagining a Different Future* For the first time in four decades, prison populations are declining and politicians have reached the consensus that mass imprisonment is

no longer sustainable. At this unique moment in the history of corrections, the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders. This breakthrough book brings together established correctional scholars to imagine what this prison future might entail. Each scholar uses his or her expertise to craft--in an accessible way for students to read--a blueprint for how to create a new penology along a particular theme. For example, one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a "feminist" prison. In the final chapter the editors pull together the "lessons learned" in a cohesive, comprehensive essay. A critical examination of how contemporary criminal justice reforms expand rather than shrink structurally violent systems of policing, surveillance, and carceral control in the United States.

Public opposition to the structural racist, gendered, and economic violence that fuels the criminal legal system is reaching a critical mass. Ignited by popular uprisings, protests, and campaigns against state violence, demands for transformational change have escalated. In response, a now deeply entrenched so-called bipartisan industry has staked its claim to the reform terrain. Representing itself as a sensible bridge across bitterly polarized political divides and party lines, the bipartisan reform industry has sought to control the nature and scope of local, state, and federal reforms. Along the way, it creates an expanding web of neoliberal

public-private partnerships, with the promotion and implementation of efforts managed by billionaires, public officials, policy factories, foundations, universities, and mega nonprofit organizations. Yet many bipartisan reforms constitute deceptive sleights of hand that not only fail to produce justice but actively reproduce structural racial and economic inequality. *Carceral Con* pulls the veil away from the reform public relations machine, providing a riveting overview of the repressive US carceral state and a critical examination of the reform terrain, quagmires, and choices that face us. This book vividly illustrates how contemporary bipartisan reform agendas leave the

structural apparatus of mass incarceration intact while widening the net of carceral control and surveillance. Readers are also provided with information and insights useful for examining the likely impacts of reforms today and in the future. What can we learn from reforms of the past? What strategies hold most promise for dismantling structural inequalities, corporate control, and state violence? What approaches will reduce reliance on carceral control and also bring about community safety? Utilizing an abolitionist lens, *Carceral Con* makes the compelling case for liberatory approaches to envisioning and creating a just society.
