Hey kids, do you want to know how to make all-stars for your baseball league? Or parents, do you feel like the coaches keep passing your child up? Well no more! Or coaches, want drills and ways to motivate your players to get better?

Coach Andy Collins is going to tell you everything he knows from his 35 years of youth and adult coaching and watching what works and what doesn't work. It's chock-full of ideas in 86 pages. He'll cover: \* How your league chooses all-stars \* What all-star selectors are really looking for \* 7 tried and true methods of getting better at baseball \* But more importantly, little known ways to get the people picking the team to notice you \* And how to beat the "politics" that seem to get in the way

Year after year kids sit in the stands crying after the all-star teams are announced and they weren't one of the players that were chosen. At the same time the students I've trained do make these same all-star teams. It was then I realized I had the information that the

kids in the stands and their parents and coaches were looking for. Wherever there are kids around the world that play youth baseball, there are kids that long to make the league's all-star team. Every year it's the same, kids that desperately want to have their name called out (or see it announced on the list) don't make it, and a little bit of them is hurting deep inside; and they don't know why they were not picked. Little did they know that they could have fairly accurately predicted their chances almost from day one of when the season started. And if they knew what you're about the find out, they could improve enough in skill in the eyes of the all-star selectors as to be a better player or even make the all-star team. The good news is that in this book, there is a way to learn how to make the

all-star team for the next upcoming season; and if not then, the following year (if you're willing to listen and follow the advice I give). While I have written this for parents and coaches to learn how this process works and how they can help these youngsters achieve their dreams, this is mostly a book written for the kid who wants to make all-stars, not a book for the parent who wants their kid to make all-stars (there is a difference). And it will be in that voice that this book will be written.

The four principles that can help us to overcome our brains' natural biases to make better, more informed decisions-- in our lives, careers, families and organizations. In *Decisive*, Chip Heath and Dan Heath, the bestselling authors of *Made to Stick* and *Switch*, tackle the thorny problem of how to overcome our natural biases and irrational thinking to make better decisions, about our work, lives, companies and careers. When it comes to decision making, our brains are flawed instruments. But given that we are biologically hard-wired to act foolishly and behave irrationally at times, how can we do better? A number of recent bestsellers have identified how irrational our decision making can be.

But being aware of a bias doesn't correct it, just as knowing that you are nearsighted doesn't help you to see better. In *Decisive*, the Heath brothers, drawing on extensive studies, stories and research, offer specific, practical tools that can help us to think more clearly about our options, and get out of our heads, to improve our decision making, at work and at home.

"It's hard to talk clearly about investing and make sense to ordinary readers at the same time. Katsenelson gives a lucid explanation of today's markets with sound advice about how to make money while avoiding the traps that the market sets for exuberant bulls and frightened bears alike." — Thomas G. Donlan, Barron's "A thoroughly enjoyable read. Provides a clear framework for equity investing in today's 'sideways' and volatile markets useful to everyone. Clear thinking and clear writing are not often paired - well done!" — Dick Weil, CEO, Janus Capital Group "The bible for how to invest in the most tumultuous

financial market environment since the Great Depression. A true guidebook for how to build wealth prudently." — David Rosenberg, Chief Economist & Strategist, Gluskin Sheff + Associates Inc. "A wonderful, grounded read for new and seasoned investors alike, Katsenelson explains in plain English why volatility and sideways markets are a stock picker's best friend." — The Motley Fool, [www.Fool.com](http://www.Fool.com) Praise for Active Value Investing "This book reads like a conversation with Vitaliy: deep, insightful, inquisitive, and civilized." — Nassim Nicholas Taleb, author of The Black Swan "Thoroughly enjoyable . . . for the thoughtful and often entertaining way in which it is delivered. . . Katsenelson takes his reader step by step into the mind of the value investor

by relating, in a fictional addendum to Fiddler on the Roof, the story of Tevye's purchase of Golde, the cow. He also describes his own big-time gambling evening (he was willing to lose a maximum of \$40) and that of a half-drunken, rowdy fellow blackjack player to stress the importance of process. He then moves on to the fundamental principles of active value investing. What differentiates this book from so many others on value investing is that it describes, sometimes through the use of case studies, the thinking of a value investor. Not just his models or his metrics but his assessments. Katsenelson is an empiricist who weighs facts, looks for contraindications, and makes decisions. He makes value investing come alive. This may be a little

book, but it's packed with insights for both novices and experienced investors. And it is a delight to read." —Seeking Alpha

I wrote *How to make Money with Money* for all beginning aspiring self-directed investors and traders who are just getting their head around doing the day trading and swing trading business. Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them. *How to make Money with Money* is for people who want to start their own business and become investors and traders in today's financial markets, but have zero experience and are looking for the best quality information to get them started.

Many of the things I tell brand new investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. The learning curve in this business and it is a business can be long, brutal and very very expensive if you learn the wrong way. *How to make Money with Money* aims to tell you how do study it the right way the first time and greatly reduce that long learning curve by showing you what the

market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation you can make a lot of damn money! Brand new traders all make the same mistakes over and over because they don't know any better, now you do. They do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else. Don't be that trader! If you can just take the time to read this information in this book, let it sink in and then continue on your educational journey you will have done yourself a huge favor and also begun to give yourself the needed edge to succeed in this business. When you

are done reading How to make Money with Money you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed investor and trader with very little money invested other than the cost of How to make Money with Money. *How to Make it in Hollywood* Sristhi Publishers & Distributors Table of Contents Preface Chapter # 1: Important Tips to Think About Before Making Your Game Have a Concrete Idea Determine Your Audience Consider Your Platform Pick a Genre Have a Great Title Work on Gameplay Be Realistic Chapter # 2: Coming up with Game Ideas Read Books Get Ideas From Movies Use Other
