SOME THINGS SHOULD REMAIN BURIED . . . The gripping first book in a brand new thriller series by the Queen of Crime Drama, Lynda La Plante.

_____ DC Jack Warr and his girlfriend Maggie have just moved to London to start a new life together. Though charming, Jack can't seem to find his place in the world - until he's drawn into an investigation that turns his life upside down. In the aftermath of a fire at an isolated cottage, a badly charred body is discovered, along with the burnt remains of millions of stolen, untraceable bank notes. Jack's search leads him deep into a murky criminal underworld - a world he finds himself surprisingly good at navigating. But as the line of the law becomes blurred, how far will Jack go to find the answers - and what will it cost him? In BURIED, it's time to meet DC Jack Warr as he digs up the deadly secrets of the past . . .

_____ PRAISE FOR BURIED:

'It's quite a challenge to make a detective constable the lead character in a crime novel, but Lynda La Plante does

a cracking job of it in BURIED. DC Jack Warr is clearly destined for higher things, and I look forward to following his progress' - PETER ROBINSON, No. 1 Sunday Times bestselling author of the DCI Banks series 'A compelling, clever plot with a brilliant cast of diverse characters. Utterly riveting' - RACHEL ABBOTT, million-selling author of ONLY THE INNOCENT 'Lynda La Plante practically invented the thriller' Karin Slaughter

In Fay Weldon's 1983 classic, *The Life and Loves of a She Devil*, women fought men for power and won. But in 2018, the fight continues on a new front... Ruth Patchett, the original She Devil, is eighty-four and keen to retire. She has worked hard to make the world as she wants it: women triumphant, men submissive. Now she is tired. Her

business is done. The mantle of power and influence is up for grabs. Who can take up the role? Valerie Valeria, hot-shot millennial and Ruth's PA, is ready and eager to inherit...

Setting the standard for modern cob construction - from design, engineering, and building code compliance, to sculpting beautiful structures Cob - a mix of clay, sand, and straw - is one of the most popular and well-known natural building methods. Yet cob is often difficult to permit and can be used in inappropriate ways due to a lack of sound engineering and design information. Recent research and a newly developed building code promise to make cob building more accessible than ever. Essential Cob Construction sets the new standard for cob construction. Incorporating rigorous, up-to-date engineering and building science and decades of practical lessons learned, coverage includes: Appropriate use of cob in different climates and contexts Thermal performance and moisture management Structural and architectural design considerations, including fire and earthquake resistance data from extensive laboratory testing Hands-on cob construction, including mix design, testing, manual and mechanical mixing, wall building, strong connections with foundations, roofs, and other structural elements, and finishing options Building code development and

the permitting process for cob Planning, budgeting, and quality control The complete Cob Construction Appendix of the International Residential Code. Essential Cob Construction is required reading for engineers, architects, designers, contractors, and owner-builders working with this ancient, aesthetically pleasing, low-carbon building material.
