One of the Greatest Persian Books of All Time! Born in Shiraz, Iran, in 1184, Saadi is considered one of the greatest Persian poets of all time. Saadi's two books, the poetic Bostan, or Orchard (in 1257), and the prose Gulistan, the Rose Garden (in 1258), are regarded as supreme accomplishments of Persian literature. The Persian literature and culture are deeply indebted to Saadi's publications. The Bostan or Orchard is a description of Saadi's travels and analysis of human mindset. It contains a beauty of poetry that has had an enormous impact on Persian literature and Persian everyday language. As Hart Edwards (one of Bostan's translators) once said "This book is full of practical spiritual wisdom." Most of the stories in Bostan have pretty obvious moral lessons. It's a mine of proverbs, quotations and practical wisdom. The translation appearing in this book is provided by G. S. DAVIE, M.D. in 1882. This bilingual book can be useful for students and enjoyable for poetry lovers of any age. Not only will poems improve your Persian language, but they'll help your understanding of Persian culture. Students will have ample opportunities to enrich their Persian learning experience and extend a range of language abilities through exploring these poems. The English - Persian Glossary at the end of the book can help Persian students better understand keywords in the poems. Enjoy reading one of the best Persian books in history! Ideal for self-study as well as for classroom usage. For Advanced Persian Learners. What Are You Waiting For? Get this book now and enjoy reading Saadi's greatest stories! Ferhenga Birûski is the go-to dictionary for Kurmanji a dialect of Kurdish spoken originally in parts of Iran, Iraq, Syria, Turkey while also being common among a large diaspora of Kurds in Europe, North America and elsewhere. This comprehensive Kurmanji-English dictionary is prepared in two volumes by Michael L. Chyet, a renowned linguist with extensive knowledge of the major dialects of Kurdish. This dictionary is an essential reference source for linguists and others interested in Kurdish language and people. "The second edition of my Kurmanji-English dictionary, which I would like to call "Ferhenga Birûski" to honor the memory of my beloved friend and colleague Birûsk Tugan, contains considerably more entries, and in many cases offers fuller information on earlier entries. In addition, I have found and corrected several typographical errors. Moreover, it is to be accompanied by a companion English to Kurdish volume. [...] It is my goal to accurately reflect the language as it exists today, providing variant spellings, synonyms, and regional usage, as well as etymologies. The late Iranist D.N. MacKenzie advised me early on to avoid filling my dictionary with "ghost words". He suggested that I base all the entries in my dictionary on texts (both written and orally generated), to ensure that I am reflecting the language as it is used by its speakers. The earlier dictionaries include words of unknown provenance, which may have no existence outside those pages." - Excerpt from the Introduction by Michael L. We welcomed participants to the 1st EurAsian Conference on Advances in Information and Communication Technology (EurAsia ICT 2002) held in Iran. The aim of the conference was to serve as a forum to bring together researchers from academia and commercial developers from industry to discuss the current state of the art in ICT, mainly in Europe and Asia. Inspirations and new ideas were expected to emerge from intensive discussions during formal sessions and social events. Keynote addresses, research presentation, and discussion during the conference helped to further develop the exchange of ideas among the researchers, developers, and practitioners who attended. The conference attracted more than 300 submissions and each paper was reviewed by at least three program committee members. The program committee selected 119 papers from authors of 30 different countries for presentation and publication, a task which was not easy due to the high quality of the submitted papers. Eleven workshops were organized in parallel with the EurAsia ICT conference. The proceedings of these workshops, with more than 100 papers, were published by the Austrian Computer Society. We would like to express our thanks to our colleagues who helped with putting together the technical program: the program committee members and external reviewers for their timely and rigorous reviews of the papers, and the organizing committee for their help in administrative work and support. We owe special thanks to Thomas Schierer for always being available when his helping hand was needed.
