 Rise Above is a detailed description of one man's journey of conquering adversity. You will read how the writer survived a near-fatal motor vehicle accident, which

resulted in three skull fractures, a bruised brain, an eight-day coma and having to relearn how to walk and talk - made all the more challenging by a lingering speech impediment acquired in childhood. Stuttering is an awful burden for a person to carry throughout life. Children can be cruel. The writer's utmost fear, speaking in public, would one day be an ally and allow him to present programs extensively throughout the United States. This book is not about surviving adversity. It's about thriving beyond adversity. Greg Little, a nationally renowned speaker and motivator, has presented to diverse groups, including health care, business and professional organizations, and educational institutions. His programs emphasize active involvement by participants. Whether teaching professionals to cope with stress, bond as

a productive group or realize their hidden strengths, his seminars and keynote addresses are hard hitting and memorable. During one of Greg's presentations, I was laughing so hard that tears were literally streaming down my face. - Dr. Ed Kesgen; Sylva, NC One of the most energized, creative and innovate presentations I have ever experienced.- Jim Brennan, National Consultant; Wilbraham, MA Dr. Greg Little is superb speaker. This is an excellent investment in continuing education - Nancy DeBolt; Torrington, WY

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit's* most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

What do you do when you need to express the meaning of a word that you don't know in a foreign language? How do you start and close a conversation, and how do you keep it going? What can you do if you are not sure about what to say in an unfamiliar situation? Communication strategies is a book about the ways and means that users of a second or foreign language can employ when they have to face problems due to gaps in their linguistic, communicative or intercultural competence. Strategies also enable them to deal with uncertainty in personal and intercultural contacts and to increase their autonomy in using languages. Communication strategies is both a handbook for teachers, teacher trainers and educators, providing them with a sound methodological background, and a collection of 30 practice activities, games and tasks for language learners and users. Photocopiable worksheets are provided, as well as freely downloadable recordings of native and non-native speakers of English.

Classroom Starters and Plenaries Dog Ear Publishing

Making Connections in Elementary and Middle School Social Studies is based on the idea that students learn more and are more motivated to learn when they are able to connect their own knowledge, observations, ideas, imagination, and emotions with the content at hand. This book demonstrates how personal connections can be incorporated into social studies education while meeting NCSS thematic, pedagogical, and disciplinary standards. It is written in a very direct, reader-friendly style. Each chapter describes a variety of practical strategies and creative activities that novice and experienced teachers can use to make social studies more interesting and to help students make meaningful personal and academic connections. Each chapter contains a wealth of classroom strategies, pedagogical techniques, activities, and lesson plan ideas that can be used to enhance learning and make lessons more interesting, active, and student-centered. The book covers the three types of standards that elementary and middle school teachers work with as they teach social studies. o Thinking Ahead questions invite the reader to reflect on his/her own experiences, as they relate to the material covered in the next chapter. These can be used as discussion points for a class or small group, or simply as pre-reading prompts to enhance

comprehension. o Teachers in Action boxes contain real life narratives from practicing teachers. These cases are designed to expand upon key issues presented in each chapter. Every case is accompanied by the author's personal reflection on the case. These reflections are intended to give the reader an opinion against which he/she can measure his/her own reactions. After each case, the reader is prompted to think about the narrative presented and think about the way that his/her reactions compare with those presented by the author. o Go There boxes provide links to Web sites that offer additional resources for teachers, lesson plans, and other activities to enhance a social studies classroom. This text is accompanied by a dynamic Instructor's Resources CD. The CD includes classroom video footage that can be shown in class to illustrate the concepts presented in the book and stimulate class discussion.

In *Teach Like Nobody's Watching: The essential guide to effective and efficient teaching*, Mark Enser sets out a time-efficient approach to teaching that will reduce teachers' workload and enhance their pupils' levels of engagement and attainment. At a time when schools are crying out for more autonomy and trust, teacher and bestselling author Mark Enser asks educators the critical question How would you teach if nobody were watching? and empowers them with the tools and confidence to do just that. Mark argues that a quality education is rooted in simplicity. In this book he convincingly strips away the layers of contradictory pedagogical advice that teachers have received over the years and lends weight to the three key pillars that underpin effective, efficient teaching: the lesson, the curriculum and the school's support structure. *Teach Like Nobody's Watching* explores these three core elements in detail, and presents teachers with a range of practical, time-efficient approaches to help them reclaim their professional agency and ensure that their pupils get the excellent education they deserve. Part I considers the individual lesson and explores how lessons can be built around four simple elements: recap, input, application and feedback. Each chapter considers one aspect of the lesson in turn and discusses its importance with a

particular focus on how educational research can be applied to it in the classroom, how it might look in different subjects, and the potential pitfalls to avoid. Part II recognises that lessons don't happen in isolation but as part of a wider curriculum. This section tackles: the creation of a programme of study that takes pupils on a journey through your subject; the super-curriculum of what happens outside the classroom; the principles of assessment design; and how time in departments can be used to reduce workload and support a culture of excellence. Finally, Part III looks at the role of the wider school in supporting teachers to teach like nobody's watching and how leaders can help to set them free from some of the more burdensome pressures. In this section, Mark draws on the experience of school leaders in a range of different contexts to illustrate what they have done to support effective and efficient teaching in their schools. Suitable for all teachers in both primary and secondary schools.

The pressure on contact time with students and the results required from it are constantly increasing - which means that tutors have to be more and more creative in how they approach their work. This book provides some solutions. 70

Activities for Tutor Groups explores the many and varied ways in which tutors can provoke and encourage meaningful, constructive and focused discussion among their students. It takes the form of a classified and cross-referenced manual of groupwork activities. For ease of use each activity is presented in a common format: ¶ In a nutshell ¶ Aims ¶ What is needed ¶ Time needed ¶ How it works ¶ Good example in action ¶ Diagram ¶ Advantages of this activity ¶ Potential problem(s) ¶ Main learning outcome ¶ Variation. The practical, 'low-tech' approach taken by Peter Davies means that these activities (which have all been trialled and are known to work) can be used easily by all tutors, at any level, and in any subject. If you are committed to improving the effectiveness of your work with groups you need look no further!
