For Love of Mother Not Random House Books for Young Readers
What Am I Doing Here? is a startling masterwork by one of the forgotten innovators of American comics. In 1945, after more than a decade as a

commercial illustrator—drawing advertisements and cartoons for Life, Time, Esquire, Newsweek, and many other publications—Abner Dean invented a genre all his own: One might call it the Existential Gag Cartoon. He used the elegant draftsmanship and single-panel format of the standard cartoons of the day, but turned them to a deeper, stranger purpose. With an inimitable mixture of wit, earnestness, and enigmatic surrealism, Dean uses this most ephemeral of forms to explore the deepest mysteries of human existence. *What Am I Doing Here?*, Dean's second book and perhaps his best, depicts a world at once alien and familiar, in which everyone is naked but acts like they're clothed—a world of club-wielding commuters and byzantine inventions,

secret fears and perverse satisfactions. Through it all strolls (or crawls, or floats, or stumbles) Dean's unclad Everyman, searching for love, happiness, and the answers to life's biggest questions. This NYRC edition is a jacketed hardcover with extra-thick paper, and features brand-new, restored scans of the original artwork throughout.

With balance and thoughtfulness, Dean Sherman offers a soundly biblical alternative that works.

A Son Remembers Dean Martin Vintage

In a memoir by turns moving, tragic, and hilarious, Jerry Lewis recounts with

crystal clarity every step of his fifty-year friendship with Dean Martin. They were the unlikeliest of pairs—a handsome crooner and a skinny monkey, an Italian from Steubenville, Ohio, and a Jew from Newark, N.J.. Before they teamed up, Dean Martin seemed destined for a mediocre career as a nightclub singer, and Jerry Lewis was dressing up as Carmen Miranda and miming records on stage. But the moment they got together, something clicked—something miraculous—and audiences saw it at once. Before long, they were as big as Elvis or the Beatles would be after them, creating hysteria wherever they went and grabbing an unprecedented hold over every entertainment outlet of the era: radio, television, movies, stage shows, and nightclubs. Martin and Lewis

were a national craze, an American institution. The millions flowed in, seemingly without end—and then, on July 24, 1956, ten years after it all started, it ended suddenly. After that traumatic day, the two wouldn't speak again for twenty years. And while both went on to forge triumphant individual careers—Martin as a movie and television star, recording artist, and nightclub luminary (and charter member of the Rat Pack); Lewis as the groundbreaking writer, producer, director, and star of a series of hugely successful movie comedies—their parting left a hole in the national psyche, as well as in each man's heart. In *Dean & Me*, Lewis makes a convincing case for Martin as one of the great—and most underrated—comic talents of our era.

But what comes across most powerfully in this definitive memoir is the depth of love Lewis felt for his partner, and which his partner felt for him: truly a love to last for all time.

I Have People Simon and Schuster
Laura Dean, the most popular girl in high school, was Frederica Riley's dream girl: charming, confident, and SO cute. There's just one problem: Laura Dean is maybe not the greatest girlfriend. Reeling from her latest break up, Freddy's best friend, Doodle, introduces her to the Seek-Her, a mysterious medium, who leaves Freddy some cryptic parting words: break up with her. But Laura Dean keeps coming back, and as their relationship spirals further out of her control, Freddy has to wonder if it's really Laura Dean that's the problem.

Maybe it's Freddy, who is rapidly losing her friends, including Doodle, who needs her now more than ever. Fortunately for Freddy, there are new friends, and the insight of advice columnists like Anna Vice to help her through being a teenager in love. Mariko Tamaki and Rosemary Valero-O'Connell bring to life a sweet and spirited tale of young love that asks us to consider what happens when we ditch the toxic relationships we crave to embrace the healthy ones we need.

My Life with James Dean: A Love Story Crown

A bold challenge to our obsession with efficiency—and a new understanding of how to benefit from the powerful potential of serendipity. Algorithms, multitasking, the sharing economy, life hacks: our culture can't get enough of efficiency. One of the great promises of the Internet and big data revolutions is the idea that we can improve the processes and routines of our work and personal lives to get more done in less time than we ever have before. There is no doubt that we're performing at higher levels and moving at unprecedented speed, but what if we're headed in the

wrong direction? Melding the long-term history of technology with the latest headlines and findings of computer science and social science, The Efficiency Paradox questions our ingrained assumptions about efficiency, persuasively showing how relying on the algorithms of digital platforms can in fact lead to wasted efforts, missed opportunities, and, above all, an inability to break out of established patterns. Edward Tenner offers a smarter way of thinking about efficiency, revealing what we and our institutions, when equipped with an astute combination of artificial intelligence and trained intuition, can learn from the random and unexpected. **Dean And Me** Houghton Mifflin Harcourt One man's death will change the future. A little girl carries a big message--and finds it thrillingly amplified by the rallying crowd around her--in an empowering story for the youngest of activists. Mari raised her sign for everyone to see. Even though she was small and the crowd was very big, and she didn't think anyone would hear, she yelled out. Mari is getting ready to make a sign with crayon as the streets below her fill up with people. "What are we making, Mama?" she asks. "A message for the world," Mama says. "How will the whole world hear?" Mari wonders. "They'll hear," says Mama, "because love is powerful." Inspired by a girl who

participated in the January 2017 Women's March in New York City, Heather Dean Brewer's simple and uplifting story, delightfully illustrated by LeUyen Pham, is a reminder of what young people can do to promote change and equality at a time when our country is divided by politics, race, gender, and religion.
