*Impact Analysis* Disha Publications

Essay from the year 2011 in the subject Tourism, grade: Merit, Bournemouth University, language: English, abstract: There are different impacts that the development of tourism has on a destination, for instance, natural or environmental, economical, political or socio-cultural. The environment is one of the most important issues for the development and promotion of a tourist destination, and also the most fragile (Franco and Garcia, 1999). Due to the huge influx of tourists known as "mass tourism," the impacts of the development can be positive and negative. Positive economic impacts are the improvement of infrastructure and the attraction of more investment in the area; negative the increase of prices and of income inequality. Positive socio-cultural impacts enhance the increase of cultural exchange and restoration of buildings; negative socio-cultural like immigration and assumption of the stereotypes of tourist; and finally, negative environmental impacts like noise, pollution, destruction of the natural environment, huge buildings in natural areas, overuse of water, problems with the treatment of wastes, water pollution by liquid waste, destruction of historical monuments, air pollution from the use of vehicles and heating, changes in the landscape to promote activities entertainment and sports such as golf; etc. But not only mass tourism affects on the environment, alternative tourism can also make an unsustainable use of resources (Garcia and Sancho, 1999). This essay will examine critically the natural impacts that the development of tourism has upon the destination Lanzarote. This Spanish island is famous for its unique volcanic landscape and its biosphere reserve. The island of Lanzarote is within the 10 most popular islands of Europe (Trivago, 2009) and personally one of my favourite travel destinations due to family reasons. (1606 words)

The seventeen chapters brought together in this volume represent a selection of papers presented at the International Conference on Bilingualism held in March 2015 at the University of Malta's Valletta campus. The multifaceted nature of the conference is evident in the diverse viewpoints from a range of authors who analyse aspects of the linguistic situations in Brazil, Bulgaria, France, Germany, Greece, Israel, Italy, Macau, Malta, Poland, Romania, Sri Lanka, and the United Kingdom. The volume comprises chapters on Code-Switching, Linguistic Landscape, Bilingualism, Culture and Identity, Language Policy, Bilingual Education, and Trilingualism. This book is a valuable resource not only for students and scholars, but also for language teachers interested in the variegated nature of bilingualism in various

countries in Europe, Asia, and South America.

*THE MEGA YEARBOOK 2019 - Current Affairs & General Knowledge for Competitive Exams - 4th Edition* Cambridge University Press

This book is the first monograph to systematically introduce readers to technology and vocational education and training in ASEAN countries. It details the current state of development and key development trends regarding technology and vocational education and training in the ten ASEAN countries. For each ASEAN country, the book addresses the history, status quo, characteristics, reform and development trends in technology and vocational education and training. The content mainly focuses on technology and vocational education and training systems, vocational qualification frameworks, technology and vocational education and training related personnel, etc. All the latest data presented here is drawn from the newest official website and research reports, accurately reflecting the development status of ASEAN countries and helping us make better forecasts regarding its future. This book offers a valuable reference guide for academic research in technology and vocational education and training. It can also be used as a textbook for postgraduate courses in technology and vocational education and training, as well as training material for various vocational education teachers and managers.

*Studia ethnologica Croatica* Disha Publications

Management and Technology in Knowledge, Service, Tourism and Hospitality contains papers covering a wide range of topics in the fields of knowledge and service management, web intelligence, tourism and hospitality. This overview of current state of affairs and anticipated developments will be of interest to researchers, entrepreneurs and students.

**Current Status and Future Development** Springer Science & Business Media

The Fuzzy Systems and Data Mining (FSDM) conference is an annual event encompassing four main themes: fuzzy theory, algorithms and systems, which includes topics like stability, foundations and control; fuzzy application, which covers different kinds of processing as well as hardware and architectures for big data and time series and has wide applicability; the interdisciplinary field of fuzzy logic and data mining, encompassing applications in electrical, industrial, chemical and engineering fields as well as management and environmental issues; and data mining, outlining new approaches to big data, massive data, scalable, parallel and distributed algorithms. The annual conference provides a platform for knowledge exchange between international experts, researchers, academics and delegates from industry. This book includes the papers accepted and presented at the 5th International Conference on Fuzzy Systems and Data Mining (FSDM 2019), held in Kitakyushu, Japan on 18-21 October 2019. This year, FSDM received 442 submissions. All papers were carefully reviewed by program committee members, taking account of the quality, novelty, soundness, breadth and depth of the research topics falling within the scope of FSDM. The committee finally decided to accept 137

papers, which represents an acceptance rate of about 30%. The papers presented here are arranged in two sections: Fuzzy Sets and Data Mining, and Communications and Networks. Providing an overview of the most recent scientific and technological advances in the fields of fuzzy systems and data mining, the book will be of interest to all those working in these fields.

*The Case of Nepal* Springer

This book provides a varied collection of recent research relating to small businesses in tourism. In doing so it reflects the eclecticism of interest and method associated with this under-researched and under-theorised area of investigation. Topics range from the potential contribution of small firms to achieving social or economic goals to understanding more about business performance and growth. As is common in tourism research, disciplinary boundaries are routinely transgressed in the interests of gaining greater illumination. Insights from a variety of countries are offered, sometimes as a result of trans-national collaboration initiated specifically for this book.

Assessment of student learning outcomes (ASLO) is one of the key activities in teaching and learning. It serves as the source of information in determining the quality of education at the classroom and national levels. Results from any assessment have an influence on decision making, on policy development related to improving individual student achievement, and to ensure the equity and quality of an education system. ASLO provides teachers and school heads with information for making decisions regarding a students' progress. The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries--- Bangladesh, Nepal, and Sri Lanka---with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.
