 For some people in post-World War II Germany, the battle is not over. August 1945. As Stefano, an Italian POW, heads toward home across war-ravaged Germany, he encounters a young child beside his dead mother. Unable to

leave him to an unknown fate, Stefano takes the boy with him, finding refuge in a seemingly abandoned house in a secluded woodland. But the house is far from vacant. Stefano wakes at the arrival of its owner, Erich, a former German soldier, who invites the travelers to stay until they can find safe passage home. Stefano cautiously agrees, intrigued by the disarming German, his reclusive

neighbor Rosalind, and her traumatized husband, Georg. Stefano is also drawn to Monique, the girl in a photograph on Rosalind's wall, who went missing during the war. But when he discovers letters written by Monique, a darker truth emerges. This place of refuge could be one of reckoning, and the secrets of the past might prevent the travelers from ever getting home.

The Land Beyond the Sea Lake Union Publishing
In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite

that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or

embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the

best way forward.
The Complete Dog Massage Manual
 Twelve Janet Scott loves books, and learning, and is happy living at the schoolhouse where her grandfather is the dominie. When tragedy strikes, and her grandfather dies suddenly, everything changes, and she is sent to work for farmer, Wull Foster. Life with no one to protect her is tough, and Janet

experiences first-hand the dangers which can befall a young woman. So, when philanthropist, Josiah Saunders, an old friend of her grandfather's takes her in, they both relish the companionship. Josiah's avaricious relatives though, resent his generosity and are furious when he encourages Janet to stay at Crillion Keep, and he is forced to think of a way to thwart their scheming. With Janet's

love, penniless lawyers' clerk, Fingal McLauchlan, unable to spirit her away from her situation she faces a dilemma when Josiah offers her marriage, and security.

Is there life after death? Will we be reunited with our deceased loved ones when we die? Can they communicate with us now?
Hello From Heaven! is the first complete study of an

exciting new field of research called After-Death Communication, or ADC. This is a spiritual experience that occurs when a person is contacted directly and spontaneously by a family member or friend who has died. During their seven years of research, the authors collected more than 3,300 firsthand accounts from people who believe they have been contacted by a deceased

loved one. The 353 ADC accounts in Hello From Heaven! offer:

- Fascinating modern-day evidence of life after death
- Comfort and emotional support for those who are bereaved • Hope for those who yearn to be reunited with a loved one who has died • Courage and strength for those who have a life-threatening illness • Inspiration for caregivers to the elderly and terminally ill • Insight and

reassurance for those who are fearful of death • Inner peace for those whose hearts and minds are awaiting this good news You will treasure these uplifting messages from those who continue to exist in a life beyond physical death. Their profound communications of love offer comfort, hope, and spiritual inspiration to all readers.

Celebrated by reviewers for its logic and clarity, this popular book retains its five-part structure. Part 1 provides an orientation to the research process and begins the discussion of what motivates researchers and their readers. Part 2 focuses on finding a topic, planning the project, and locating appropriate sources. This section is brought up to date with new information on the role of the Internet in

research, including how to find and evaluate sources, avoid their misuse, and test their reliability. Part 3 explains the art of making an argument and supporting it. The authors have extensively revised this section to present the structure of an argument in clearer and more accessible terms than in the first edition. New distinctions are made among reasons, evidence, and

reports of evidence. The concepts of qualifications and rebuttals are recast as acknowledgment and response. Part 4 covers drafting and revising, and offers new information on the visual representation of data. Part 5 concludes the book with an updated discussion of the ethics of research, as well as an expanded bibliography that includes many electronic sources. The new edition retains the

accessibility, insights, and directness that have made *The Craft of Research* an indispensable guide for anyone doing research, from students in high school through advanced graduate study to businesspeople and government employees. The authors demonstrate convincingly that researching and reporting skills can be learned and used by all who undertake

research projects. New to this edition: Extensive coverage of how to do research on the internet, including how to evaluate and test the reliability of sources. New information on the visual representation of data. Expanded bibliography with many electronic sources. Foundational Practices of Online Writing Instruction. CRC Press. Data is fundamental to the modern world. From economic

development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives.

Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in *Invisible Women*†, diving into women's lives at home, the workplace, the public square, the doctor's office, and more. Built on hundreds of studies in the US, the UK, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking

g, unforgettable exposé that will change the way you look at the world. **Reshaping the World** JHU Press The study of what is collectively labeled "New Media"—the cultural and artistic practices made possible by digital technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with

many universities now offering it as a major. The Johns Hopkins Guide to Digital Media is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed

digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field.

 This is—for the first time—the full and unedited story behind the sick life and mysterious death of Jeffrey Epstein that is being called one of the most significant scandals in American history He was the billionaire financier and close confidant of presidents, prime ministers, movie stars and British royalty, the mysterious self-made man who rose from blue-collar Brooklyn to the heights of luxury. But while he was flying around the world on his private jet and hosting lavish parties at his private island in the Caribbean, he also was secretly masterminding an international child sex ring—one that may have involved the richest and most influential men in the world. The conspiracy of corruption was an open secret for decades. And then this summer, it all came crashing down. After his arrest on sex trafficking charges in July, it seemed Epstein’s darkest secrets would finally see the light. But hopes for true justice were shattered on August 10 this year, when he was found dead in his cell at the Metropolitan

Correctional Center, New York. The verdict: suicide. The timing: convenient, to say the least. Now, Epstein: Dead Men Tell No Tales delivers bombshell new revelations, uncovers how the man President Trump once described as a “terrific guy” abused hundreds of underage girls at his mansions in Palm Beach and Manhattan... all while entertaining the world’s

most powerful men—including President Clinton, Prince Andrew, and Donald Trump himself. How much did they know about his perversions? And did they take part? How might they have helped him to continue his abuse, and to escape justice for it? What responsibility might they have for his sudden, shocking death? And is there a shocking spy and blackmail story at the heart of the scandal? The

answers to these questions and more will be explored in Epstein: Dead Men Tell No Tales with groundbreaking new reporting, never-before-seen court files, and interviews with new witnesses and confidants. Combining the very best investigative reporting from investigative journalists Dylan Howard, Melissa Cronin and James Robertson—who have been covering the case for close to a
