GUADALUPE CHOI

Chasing Venus Springer
This book examines the visual-sexual turn in social media discourses in the field of online activism with a particular focus on the extraordinary protest years of 2018–2020. Presenting a socially engaged theory of "tit-for-tat media" and including case-studies on activist movements such as the Euro-American alt-right, the pro-democracy movement in Hong Kong, and revolutionary artists in China, this study reveals how visual cultures, including gendered or sexualized imagery, are utilized to influence public perception. By presenting in-depth explorations of online ethnography, interviews with activists and studies of the political histories and urban protests-environments, the volume uncovers how local artists, netizens and citizens are using media and digital imagery in contemporary activism. Covering a broad spectrum of social media content, from hyper-cute manga and cartoons to satirical pornography and sexualized hate-speech, it

will be of huge interest to students and scholars of media and communication studies, political communication, sexuality and gender studies.

Scientific and Technical Aerospace Reports LSU Press

A "deeply researched and bracing retelling"

(Annette Gordon-Reed, Pulitzer Prize-winning historian) of the American Revolution, showing how the Founders were influenced by overlooked Americans—women, Native Americans, African Americans, and religious dissenters. Using more than a thousand eyewitness records, *Liberty Is Sweet* is a "spirited account" (Gordon S. Wood, Pulitzer Prize-winning author of *The Radicalism of the American Revolution*) that explores countless connections between the Patriots of 1776 and other Americans whose passion for freedom often brought them into conflict with the Founding Fathers. "It is all one story," prizewinning historian Woody Holton writes. Holton describes the origins and crucial battles of the Revolution from Lexington and Concord to the British surrender at Yorktown, always focusing on marginalized

Americans—enslaved Africans and African Americans, Native Americans, women, and dissenters—and on overlooked factors such as weather, North America's unique geography, chance, misperception, attempts to manipulate public opinion, and (most of all) disease. Thousands of enslaved Americans exploited the chaos of war to obtain their own freedom, while others were given away as enlistment bounties to whites. Women provided material support for the troops, sewing clothes for soldiers and in some cases taking part in the fighting. Both sides courted native people and mimicked their tactics. *Liberty Is Sweet* is a "must-read book for understanding the founding of our nation" (Walter Isaacson, author of *Benjamin Franklin*), from its origins on the frontiers and in the Atlantic ports to the creation of the Constitution. Offering surprises at every turn—for example, Holton makes a convincing case that Britain never had a chance of winning the war—this majestic history revivifies a story we thought we already knew.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling

them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

AN INSTANT NEW YORK TIMES BESTSELLER AN NPR CONCIERGE BEST BOOK OF THE YEAR "In her form-shattering and myth-crushing book....Coe examines myths with mirth, and writes history with humor... [You Never Forget Your First] is an accessible look at a president who always finishes in the first ranks of our leaders." —Boston Globe Alexis Coe takes a closer look at our first--

and finds he is not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. After an unlikely victory in the Revolutionary War cast him as the nation's hero, he was desperate to retire, but the founders pressured him into the presidency--twice. When he retired years later, no one talked him out of it. He left the highest office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty must confront his greatest hypocrisy--what to do with the men, women, and children he owns--before he succumbs to death. With irresistible style and warm humor, You Never

Forget Your First combines rigorous research and lively storytelling that will have readers--including those who thought presidential biographies were just for dads--inhaling every page.

The Martian Chronicles

Penguin

Developments in the Analysis and Design of Marine Structures is a collection of papers presented at MARSTRUCT 2021, the 8th International Conference on Marine Structures (by remote transmission, 7-9 June 2021, organised by the Department of Marine Technology of the Norwegian University of Science and Technology, Trondheim, Norway), and is essential reading for academics, engineers and professionals involved in the design of marine and offshore structures. The MARSTRUCT Conference series deals with Ship and Offshore Structures, addressing topics in the fields of: - Methods and Tools for Loads and Load Effects; - Methods and Tools for Strength Assessment; - Experimental Analysis of Structures; - Materials and Fabrication of Structures; - Methods and Tools for Structural Design and Optimisation; and -

Structural Reliability, Safety and Environmental Protection. The MARSTRUCT conferences series of started in Glasgow, UK in 2007, the second event of the series took place in Lisbon, Portugal in March 2009, the third in Hamburg, Germany in March 2011, the fourth in Espoo, Finland in March 2013, the fifth in Southampton, UK in March 2015, the sixth in Lisbon, Portugal in May 2017, and the seventh in Drubovnik, Croatia in May 2019. The 'Proceedings in Marine Technology and Ocean Engineering' series is dedicated to the publication of proceedings of peer-reviewed international conferences dealing with various aspects of 'Marine Technology and Ocean Engineering'. The Series includes the proceedings of the following conferences: the International Maritime Association of the Mediterranean (IMAM) conferences, the Marine Structures (MARSTRUCT) conferences, the Renewable Energies Offshore (RENEW) conferences and the Maritime Technology (MARTECH) conferences. The 'Marine Technology and Ocean Engineering'

series is also open to new conferences that cover topics on the sustainable exploration and exploitation of marine resources in various fields, such as maritime transport and ports, usage of the ocean including coastal areas, nautical activities, the exploration and exploitation of mineral resources, the protection of the marine environment and its resources, and risk analysis, safety and reliability. The aim of the series is to stimulate advanced education and training through the wide dissemination of the results of scientific research.

This comprehensive yet concise annual annotated reference source catalogs the important series, periodicals and reference tools published by U.S. government agencies. Over the years, the index section of the Guide to U.S. Government Publications has expanded to more than

40,000 entries. Agencies and titles are indexed, followed by a keyword title index for quick and easy referencing. No other single resource provides historical and current information on U.S. government publications in one place. Wilderness Medicine E-Book Harvard University Press
 First published in 1855, this is an account of a British government-financed expedition to further European commercial interests in West Africa. It details the surveying of sites for future missions which has a profound effect on the history of Southern Nigeria.

FIREARM SAFETY CERTIFICATE - M UNM Press

At the intersection of astronautics, computer science, and social science, this book introduces the challenges and insights associated with computer simulation of human society in outer space, and of the dynamics of terrestrial enthusiasm for space exploration. Never before have so many dynamic representations of space-related social systems existed, some deeply analyzing the logical implications of social-

scientific theories, and others open for experience by the general public as computer-generated virtual worlds. Fascinating software ranges from multi-agent artificial intelligence models of civilization, to space-oriented massively multiplayer online games, to educational programs suitable for schools or even for the world's space exploration agencies. At the present time, when actual forays by humans into space are scarce, computer simulations of space societies are an excellent way to prepare for a renaissance of exploration beyond the bounds of Earth.

Rama III and the Siamese Expedition to Kedah in 1839 Simon and Schuster

This book offers the latest research and new perspectives on Interactive Collaborative Learning and Engineering Pedagogy. We are currently witnessing a significant transformation in education, and in order to face today's real-world challenges, higher education has to find innovative ways to quickly respond to these new needs. Addressing these aspects was the chief aim of the 21st International Conference on Interactive Collaborative Learning

(ICL2018), which was held on Kos Island, Greece from September 25 to 28, 2018. Since being founded in 1998, the conference has been devoted to new approaches in learning, with a special focus on collaborative learning. Today the ICL conferences offer a forum for exchanging information on relevant trends and research results, as well as sharing practical experiences in learning and engineering pedagogy. This book includes papers in the fields of: * Collaborative Learning * Computer Aided Language Learning (CALL) * Educational Virtual Environments * Engineering Pedagogy Education * Game based Learning * K-12 and Pre-College Programs * Mobile Learning Environments: Applications It will benefit a broad readership, including policymakers, educators, researchers in pedagogy and learning theory, school teachers, the learning industry, further education lecturers, etc.

Searching and Seizing Computers and Obtaining Electronic Evidence in Criminal Investigations Simon and Schuster
 A debut that combines historical nonfiction with

travel books, for fans of Bill Bryson and Tony Horwitz, *In Pursuit of Jefferson* is the story of an American on a journey through Europe, following the epic trail of Thomas Jefferson. A controversial founding father. A man ready for a change. And a completely unique trip through Europe. In 1784, Thomas Jefferson was a broken man. Reeling from the loss of his wife and stung from a political scandal during the Revolutionary war, he needed to remake himself. To do that, he traveled. Wandering through Europe, Jefferson saw and learned as much as he could, ultimately bringing his knowledge home to a young America. There, he would rise to power and shape a nation. More than two hundred years later, Derek Baxter, a devotee of American history, stumbles on an obscure travel guide written by Jefferson—*Hints for Americans Traveling Through Europe*—as he's going through his own personal crisis. Who better to offer advice than a founding father himself? Using *Hints* as his roadmap, Baxter follows Jefferson through six countries and countless lessons. But what Baxter

learns isn't always what Jefferson had in mind, and as he comes to understand Jefferson better, he doesn't always like what he finds. *In Pursuit of Jefferson* is at once the story of a life-changing trip through Europe, an unflinching look at a founding father, and a moving personal journey. With rich historical detail, a sense of humor, and boundless heart, Baxter explores how we can be better moving forward only by first looking back. *Expedition and Wilderness Medicine* Edinburgh University Press

With an increase in visits to remote and dangerous locations around the world, the number of serious and fatal injuries and illnesses associated with these expeditions has markedly increased. Medical personnel working in or near such locations are not always explicitly trained in the management of unique environmental injuries, such as high-altitude sickness, the bends, lightning strikes, frostbite, acute dehydration, venomous stings and bites, and tropical diseases. Many health care professionals seek training in the specialty of wilderness medicine to

cope with the health risks faced when far removed from professional care resources, and the American College of Emergency Medicine has recently mandated that a minimum level of proficiency needs to be exhibited by all ER physicians in this discipline. This book covers everything a prospective field physician or medical consultant needs to prepare for when beginning an expedition and explains how to treat a variety of conditions in a concise, clinically oriented format.

Developments in the Analysis and Design of Marine Structures

University of Pennsylvania Press

The challenge of opening Africa and Australia to British imperial influence fell to a coterie of proto-professional explorers who sought knowledge, adventure, and fame but often experienced confusion, fear, and failure. *The Last Blank Spaces* follows the arc of these explorations, from idea to practice, intention to outcome, myth to reality.

In Pursuit of Jefferson

Lulu.com

This title offers an intelligent and easy-to-

digest roadmap for successfully implementing a lean and agile value chain transformation program. Although the benefits of applying lean concepts or improving the flexibility of a value chain are clear and desperately needed in today's competitive environment, none of the current literature provides guidance on how to do this. Lean and Value Chain Management fills that gap by providing a comprehensive roadmap that shows organizations, step-by-step, how to successfully implement a lean and agile value chain transformation program. It brings together the latest advances in the field in an easy-to-digest format, and offers practical, proven tactics and detailed guidance on every aspect of the value chain redesign process - including how to map the existing process, intelligently leverage new technologies, build a strategy for strengthening relationships with suppliers and customers, identify comprehensive related metrics, and much more.

Deck Log Book of the R/V Melville Routledge

As Spain and England vied for dominance of the Atlantic world during the

sixteenth and seventeenth centuries, mounting political and religious tensions between the two empires raised a troubling specter for contemporary British writers attempting to justify early English imperial efforts. Specifically, these writers focused on encounters with black Africans throughout the Atlantic world, attempting to use these points of contact to articulate and defend England's global ambitions. In *Black Africans in the British Imagination*, Cassander L. Smith investigates how the physical presence of black Africans both enabled and disrupted English literary responses to Spanish imperialism. By examining the extent to which this population helped to shape early English narratives, from political pamphlets to travelogues, Smith offers new perspectives on the literary, social, and political impact of black Africans in the early Atlantic world. With detailed analysis of the earliest English-language accounts from the Atlantic world, including writings by Sir Francis Drake, Sir Walter Raleigh, and Richard Ligon, Smith approaches contact

narratives from the perspective of black Africans, recovering figures often relegated to the margins. This interdisciplinary study explores understandings of race and cross-cultural interaction and revises notions of whiteness, blackness, and indigeneity. Smith reveals the extent to which contact with black Africans impeded English efforts to stigmatize the Spanish empire as villainous and to malign Spain's administration of its colonies. In addition, her study illustrates how black presences influenced the narrative choices of European (and later Euro-American) writers, providing a more nuanced understanding of black Africans' role in contemporary literary productions of the region. **You Never Forget Your First** Revisiting Rituals in a Changing Tibetan World The American West used to be a story of gunfights, glory, wagon trails, and linear progress. Historians such as Frederick Jackson Turner and Hollywood movies such as *Stagecoach* (1939) and *Shane* (1953) cast the trans-Mississippi region as a frontier of epic proportions where 'savagery' met

'civilization' and boys became men. During the late 1980s, this old way of seeing the West came under heavy fire. Scholars such as Patricia Nelson Limerick and Richard White forged a fresh story of the region, a new vision of the West, based around the conquest of peoples and landscapes. This book explores the bipolar world of Turner's Old West and Limerick's New West and reveals the values and ambiguities associated with both historical traditions. Sections on Lewis and Clark, the frontier and the cowboy

sit alongside work on Indian genocide and women's trail diaries. Images of the region as seen through the arcade Western, Hollywood film and Disney theme parks confirm the West as a symbolic and contested landscape. Tapping into popular fascination with the Cowboy, Hollywood movies, the Indian Wars, and Custer's Last Stand, the authors show the reader how to deconstruct the imagery and reality surrounding Western history. Key Features* Uses popular subjects (the Cowboy, Hollywood

westerns, the Indian Wars, and Custer's Last Stand) to enliven the text* Includes 13 b+w illustrations* Interdisciplinary approach covers film, literature, art and historical artefacts
Monthly Catalogue, United States Public Documents
 Springer
 Through ten contributions written by specialists, *Revisiting Rituals in a Changing Tibetan World* examines the changes rituals have undergone in Tibet, Nepal and Mongolia in the wake of political and socio-cultural upheavals.
