The Emperor Constantine Routledge
#1 NEW YORK TIMES BESTSELLER • A
bold work from the author of *The Black
Swan* that challenges many of our long-
held beliefs about risk and reward,
politics and religion, finance and

personal responsibility In his most
provocative and practical book yet, one
of the foremost thinkers of our time
redefines what it means to understand
the world, succeed in a profession,
contribute to a fair and just society,
detect nonsense, and influence others.
Citing examples ranging from
Hammurabi to Seneca, Antaeus the
Giant to Donald Trump, Nassim Nicholas

Taleb shows how the willingness to accept one's own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights:

- For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations.
- Ethical rules aren't universal. You're part of a group

larger than you, but it's still smaller than humanity in general.

- Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others.
- You can be an intellectual yet still be an idiot.

"Educated philistines" have been wrong on everything from Stalinism to Iraq to low-carb diets.

- Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines.
- True religion is commitment, not just faith. How much you believe in something is manifested only by what you're willing to risk for it. The phrase "skin in the game" is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management,

but it's also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, "The symmetry of skin in the game is a simple rule that's necessary for fairness and justice, and the ultimate BS-buster," and "Never trust anyone who doesn't have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them."

Skin in the Game Routledge

Eusebius' Life of Constantine is the most important single record of Constantine, the emperor who turned the Roman Empire from prosecuting the Church to supporting it, with huge and lasting consequences for Europe and Christianity. The only English version previously available is based on a seventeenth-century Greek edition, but two new critical editions produced this century make a new English version necessary. The authors of this edition present the results of the recent scholarly debate, as well as their own researches so as to clarify the significance of Eusebius' work and

introduce the student to the text and its interpretation, thus opening up the contentious issues. At face value much of what Eusebius wrote is false. This book shows how, once his partisan interpretations and rhetoric are properly understood, both Eusebius' text and the documents it contains give vital historical insights.

In *The Reformation of Historical Thought*, Mark Lotito re-examines the development of Western historiography by concentrating on Philipp Melanchthon (1497-1560) and his universal history, *Carion's Chronicle* (1532), which transformed the early modern

understanding of the Holy Roman Empire.

The landmark five-book series--all together in one boxed set The Incerto is an investigation of opacity, luck, uncertainty, probability, human error, risk, and decision making when we don't understand the world, expressed in the

form of a personal essay with autobiographical sections, stories, parables, and philosophical, historical, and scientific discussions, in non-overlapping volumes that can be accessed in any order. The main thread is that while there is inordinate uncertainty about what is going on, there is great certainty as to what one should do about it. This boxed set includes: FOOLED BY RANDOMNESS THE BLACK SWAN THE BED OF PROCRUSTES ANTIFRAGILE SKIN IN THE GAME **Cassell's New Biographical Dictionary** Yale University Press The Spirit of the Laws is, without question, one of the central texts in the history of eighteenth-century thought, yet there has been no complete, scholarly English-language edition since

that of Thomas Nugent, published in 1750. This lucid translation renders Montesquieu's problematic text newly accessible to a fresh generation of students, helping them to understand quite why Montesquieu was such an important figure in the early enlightenment and why *The Spirit of the Laws* was, for example, such an influence upon those who framed the American constitution. Fully annotated, this edition focuses attention upon Montesquieu's use of sources and his text as a whole, rather than upon those opening passages towards which critical energies have traditionally been devoted, and a select bibliography and chronology are provided for those coming to Montesquieu's work for the first time.

SOZOMENUS COLLECTION [2 BOOKS]

Salminius Hermias Sozomenus was a historian of the Christian Church. He was born around 400 in Bethelia, a small town near Gaza, into a wealthy Christian family of Palestine. What he has to tell us of the history of Southern Palestine was derived from oral tradition. He appears familiar with the region around Gaza, and mentions having seen Bishop Zeno of Majuma, the seaport of Gaza.

Sozomen wrote two works on church history, of which only the second one is extant. His first work covered the history of the Church, from the Ascension of Jesus to the defeat of Licinius in 323, in twelve books. His sources for it included Eusebius of Caesarea, the Clementine homilies, Hegesippus, and Sextus Julius Africanus. Sozomen's second work continues approximately where his first work left off. He wrote it in Constantinople, around the years 440 to 443 and dedicated it to Emperor Theodosius II. —BOOKS— A HISTORY OF THE CHURCH IN NINE BOOKS THE ECCLESIASTICAL HISTORY OF SOZOMEN PUBLISHER: AETERNA PRESS *The Christian World* Franklin Classics With The Emperor and the Army in the Later Roman Empire, AD 235–395 Mark

Hebblewhite offers the first study solely dedicated to examining the nature of the relationship between the emperor and his army in the politically and militarily volatile later Roman Empire. Bringing together a wide range of available literary, epigraphic and numismatic evidence he demonstrates that emperors of the period considered the army to be the key institution they had to mollify in order to retain power and consequently employed a range of strategies to keep the troops loyal to their cause. Key to these efforts were imperial attempts to project the emperor as a worthy general (imperator) and a generous provider of military pay and benefits. Also important were the honorific and symbolic gestures each emperor made to the army in order to

convince them that they and the empire could only prosper under his rule.

The two texts presented here are reconstructions of 4th-century chronicles which exist only in ancient translations or in surviving histories. The first text, *Chronici canones* of Eusebius of Caesarea, is one of the most influential texts of the period but it only survives in two translations and in numerous fragments recorded in other histories. The final part has to be almost completely reconstructed. The second chronicle, *The Continuatio Antiochiensis Eusebii*, is a history of Antioch between AD 325 and 350 which has to be reconstructed from obscure sources. The reconstructions are presented in Greek with English translations and are accompanied by lengthy commentaries

which analyse the value of the reconstruction process.

Constantine, surnamed "the Great" was one of the greatest emperors of the

Roman Empire, one of the greatest Illyrians who ever lived. He was the oldest son of Emperor Constantius Chlorus and was born in 272 at Naissus of Moesia in eastern Illyricum. He fought beside his father who was killed at the fatal battle of York. Constantine became a Caesar (306) then an Augustus (308). It was on his way to the crucial battle of Rome's Milvian Bridge that he saw a vision of a luminous cross in the sky and the words "There's Victory in This Sign", from which he dated his conversion to Christianity in 312. Fighting against the one remaining emperor, Licinius, he gained control of Illyricum, Macedonia, and Achaia (314). In 324, he remained the sole emperor of the Roman Empire. Early in his career, he issued his famous Edict to stop the persecution of

Christians initially and then to favour Christianity. In 325, he convened the Christian Council of Nicea attended by a great number of bishops of the Roman Empire. Possibly to symbolize his break with Rome's pagan past, Constantine left Rome in 326. He removed the seat of Empire to Byzantium which he renamed Constantinople after himself, dedicating it in 330s. In his new organization of the empire, Illyricum formed one of the great provinces. Constantine was baptized by the church historian Eusebius shortly before his death in 337. His three sons Constantine, Constantius, and Constans succeeded their father, the latter inheriting Illyricum, Italy, and Africa.
