*New Functional Skills Maths Revision Question Cards - Level 2  
Edexcel*

This book offers a practical solution to the challenges trainee teachers and practising teachers face when asked to address English and maths across the further education curriculum. Aimed firmly at non-specialist teachers of English and maths, each chapter has activities to raise your own awareness of English or maths concepts, as well as examples of activities that you can use in your teaching to ensure English and maths are appropriately embedded. Key features include:

- Accessible explanations of English and maths concepts to support both you and your learners
- Tasks to get you thinking about the general principles of embedding English and maths
- Specific ideas for embedding English and maths in a range of vocational subject contexts
- Tips and ideas for your lessons
- General advice together with "Dos and don'ts"
- Helpful commentaries about suggested teacher activities
- Recommendations for further reading

If you are training to teach in the education and training sector, this book offers a number of tasks and activities to help you address English and maths in your subject area and is an excellent resource to support the planning and teaching of your subject. "These experts in English and Maths have ensured that their advice is well conceived and carefully explained but also that it is practical. Written with enthusiasm and flair, this book is valuable and very welcome." Professor Kevin Orr, School of Education and Professional Development, University of Huddersfield, UK "From reading aloud to pronunciation on the one hand; and from measurement and data handling on the other, the authors present workable strategies, ideas and exercises that are easy to use. Jargon-free and user-friendly, this book offers valuable insights and ideas." Dr Rebecca Eliahoo, Principal Lecturer (Lifelong Learning), University of Westminster, UK

**EBOOK: Supporting Maths & English in Post-14 Education & Training** Routledge

This full colour and visually engaging workbook is designed to

help you learn and master the necessary Functional Skills in Maths at your required level. With examples and questions written specifically for Construction, you will understand the relevance of Functional Skills and be able to apply them in the workplace.

**Functional Skills Maths Level 2 - Study and Test Practice**  
Bloomsbury Publishing

The 4th edition of Plumbing continues to provide the definitive single volume text on plumbing, heating and gas installation work, ideal for students working towards their Diploma in plumbing or NVQ/SVQ at levels 2 and 3. Highly illustrated and easy to read and understand, it tackles plumbing topic by topic, in double page spreads with text, full colour illustrations, and clear photographs, enabling the reader to grasp the essentials quickly and easily. This approach ensures it also provides a concise reference for the trained plumber. Special features include: concise text many clear, full colour illustrations around 140 photographs topics focussed on the needs of NVQ/SVQ levels 2 and 3 additional topics beyond levels 2 and 3 a self-assessment section a problem-solving section This new edition has been thoroughly updated to take account of changes to the Building Regulations, including changes to the following approved documents: Part F: Ventilation; Part G: Sanitation, hot water safety and water efficiency; Part H: Drainage and waste disposal; Part L: Conservation of fuel and power and Part P: Electrical safety. A significant new section on energy conservation & sustainability has been added, and additional related material introduced where relevant. The extensive coverage with new, full colour illustrations to enhance legibility and understanding, and the emphasis on safety in the work place ensure this remains the definitive single volume for both student and trained plumbers. *With Examples, Test Questions and Detailed Answers* OECD Publishing

This write-in workbook is an invaluable resource to help learners improve their Maths and English skills and help prepare for Level 1 and Level 2 Functional Skills exams. The workbook format enables learners to practice and improve their maths and English skills and the real-life questions, exercises and scenarios are all written with an automotive context to help learners find essential

Maths and English theory understandable, engaging and achievable. This workbook is an invaluable resource to support Maths and English learning in the classroom, at work and for personal study at home.

*Graduated Exercises and Practice Exam Cgp Range Extension*

This write-in workbook is an invaluable resource to help students improve their Maths and English skills and help prepare for Level 1 and Level 2 Functional Skills exams. The real-life questions are all written in a Plumbing context to help students find essential Maths and English theory understandable, engaging and achievable. Written by Gary Taylor, lecturer with a wealth of experience in the Construction Multi-Skills and Plumbing industries, this workbook is an effective resource to support Maths and English learning in the classroom, at work and for personal study at home.

[Worked Examples in Functional Maths Level 2 : Vol. 1](#)  
CreateSpace

This series of books will show you worked examples from typical real-world exam question taken mainly from past questions. However, the style and type of questions are similar for all Functional Skills Maths Examining Bodies, so this series will serve as a useful tool for all Functional Skills maths exams. *100 Ideas for Secondary Teachers: Tutor Time* Learning Matters  
Whichever Exam Board you are working for you will find this book useful for Functional skills Maths level 2. In the actual test although the use of calculators is allowed it is sometimes useful to do simple sums with confidence without using calculators. In addition to basic addition, subtraction, multiplication and division you are expected to be familiar with fractions, decimals, percentages, ratios and proportions in everyday context. Everyday problems often involve being able to estimate as well as being able to work with simple formulas like Speed, Distance and Time and of course conversions from one type of currency to another when you go on holiday! Also, basic Data Interpretation or Statistics is useful to make sense of data that is presented numerically or visually in a workplace or in newspaper articles. There are also chapters on basic shapes and spaces since you also need to be know how to work out perimeters, areas and volumes of basic shapes as well as be familiar with plans and

drawing nets! Although the examples in this book start simply they gradually build up to Level 2. Finally the test questions at the end contain detailed answers.

*Apprenticeship in England, United Kingdom* HarperCollins UK

Functional Skills Maths Level 1 is aimed at helping you pass this exam with ease. In the actual test, although the use of calculators is allowed, it is useful to do simple sums with confidence without using calculators. In addition to basic addition, subtraction, multiplication and division you are expected to be familiar with fractions, decimals, percentages, ratios and proportions in everyday context. Everyday problems often involve being able to estimate as well as being able to work with function machines and simple formulas. Also it is useful to be able to convert from one type of currency to another when you go on holiday! In addition, basic Data Interpretation or Statistics is useful to make sense of data that is presented numerically or visually in a workplace or in newspaper articles. There are also chapters on basic shapes and spaces since you also need to know how to work out lengths around a shape (perimeters), areas and volumes of basic shapes as well as be familiar with plans and drawing nets! Whichever Exam Board you are working for you will find this book useful for Functional Mathematics up to level 1 and prepare you for Functional Mathematics Level 2. These tests may be taken online and in the actual tests you can either pass or fail.

*Functional Skills Maths Level 2 - Study and Test Practice* SAGE

Containing everything you need to know about independent schooling in Greater London and the surrounding area, this comprehensive guide is aimed at helping parents and children through the process of choosing the right school in London and the south-east.

*Functional Skills Maths* McGraw-Hill Education (UK)

This text is an introduction to learning and teaching in the post compulsory sector. Those training to teach in the sector need to understand learning and learners in PCET. This text goes further than other texts in its exploration of the sector. It encourages readers to critically evaluate the context of PCET in the UK and opens up their learning through introducing some global profiles. The text explores learners in the sector, the diversity of the sector, the challenges and some topical contemporary themes. It covers a breadth of content and can thus be used as a general

course text for all PGCE (PCET) courses as well as other education programmes. Through pedagogical features including critical questions, teacher and learner voices, links to practice and more, the text provides a resource for all those learning about PCET. *Functional Skills Maths Level 2 - Study & Test Practice* Oxford University Press - Children

Essential for busy secondary form tutors, this book will inspire form time ideas that are constructive, exciting, yet take little preparation! Activities include community builders, PSHE related topics, creative thinking activities and a variety of active learning techniques to engage your students in discussions. While this book mostly focuses upon interesting, worthwhile and fun activities to do with a registration group it also includes some tips and advice on how to fulfill pastoral care responsibilities of pupils in a form group.

*Contemporary Debates in Education Studies* John Catt Educational Ltd
