The fourth century BCE is full of dangers and opportunities. Old republics are giving way to empires and cities. 'Naastik' sects are challenging the established varna system. The intellectual life of India is bristling like new shoots after the monsoon. The domination of the Kshatriyas and the Brahmanas is being challenged. State power is up for grabs. And the Macedonians are at the gates! Most people believe that Bharatavarsha is only a dream. But not the Yugantar, a brotherhood of the wisest and most selfless thinkers of ancient India. Interesting turn of events bring ordinary people from different parts of the subcontinent into the fold of the Yugantar -- a rebel blacksmith from Ujjayini, a Siddha doctor from Madurai; a doughty mariner from Muziris; a trader from Pataliputra and a widow nun from Kaushambi. They represent a microcosm of the sub-continent. Each of them is drawn towards the Yugantar by a strange turn of events. Each has a prowess which the Yugantar can mould into a formidable force. They converge in Takshashila, the centre of learning and transformation. This is the story of how their wit and determination contribute to a united Bharatavarsha.

Essential English for Competitive Examinations - 2nd Edition Springer

"Families around the world look, feel, and live differently today. Families can be "make or break" for women and girls when it comes to achieving their rights. They can be places of love, care, and fulfillment but, too often, they are also spaces where women's and girls' rights are violated, their voices are stifled, and where gender inequality prevails. In today's changing world, laws and policies need to be based on the reality of how families live. UN Women's flagship report, "Progress of the world's women 2019-2020: Families in a changing world", assesses the reality of families today in the context of sweeping economic, demographic, political, and social transformation. The report features global, regional, and national data. It also analyses key issues such as family laws, employment, unpaid care work, violence against women, and families and migration. At a critical juncture for women's rights, this landmark report proposes a comprehensive family-friendly policy agenda to advance gender equality in diverse families. A package of policies to deliver this agenda is affordable for most countries, according to a costing analysis included in the report. When families are places of equality and justice, economies and societies thrive and unlock the full potential of the Sustainable Development Goals (SDGs). The report shows that achieving the SDGs depends on promoting gender equality within families." -- UNWomen.org.
