This textbook covers the entire gamut of project scoping, identification, development and appraisal and is primarily designed to meet the requirements of postgraduate students of management and engineering education. Researchers, consultants, policy makers and professionals in project management will find it a good body of knowledge as a reference source. The objective of the book is to provide a multidisciplinary grounding to the readers so that they can develop all the skills and competencies required to view or manage the entire project management process as an integrated whole. The book has been written in an easy-to-understand style and uses live case studies of renewable energy projects to illustrate the concepts, so that the students/readers understand them in the context of the real world. Though based on renewable energy projects, majority of the concepts explained in the book are applicable to other industrial projects equally – detailed guidance and notes on this aspect is given appropriately in the book.

Survey of Conditions of the Indians in the United States SBPD Publications

This book explores the legal culture of the Parsis, or Zoroastrians, an ethnoreligious community unusually invested in the colonial legal system of British India and Burma. Rather than trying to maintain collective autonomy and integrity by avoiding interaction with the state, the Parsis sank deep into the colonial legal system itself. From the late eighteenth century until India's independence in 1947, they became heavy users of colonial law, acting as lawyers, judges, litigants, lobbyists, and legislators. They de-Anglicized the law that governed them and enshrined in law their own distinctive models of the family and community by two routes: frequent intra-group litigation often managed by Parsi legal professionals in the areas of marriage, inheritance, religious trusts, and libel, and the creation of legislation that would become Parsi personal law. Other South Asian communities also turned to law, but none seems to have done so earlier or in more pronounced ways than the Parsis.

A Generation Removed VK Global Publications

On June 25, 2013, the U.S. Supreme Court heard the case "Adoptive Couple vs. Baby Girl," which pitted adoptive parents Matt and Melanie Capobianco against baby VeronicaOCO's biological father, Dusten Brown, a citizen of the Cherokee Nation of Oklahoma. VeronicaOCO's biological mother had relinquished her for adoption to the Capobiancos without BrownOCO's consent. Although Brown regained custody of his daughter using the Indian Child Welfare Act (ICWA) of 1978, the Supreme Court ruled in favor of the Capobiancos, rejecting the purpose of the ICWA and ignoring the long history of removing Indigenous children from their families. aln "A Generation Removed," a powerful blend of history and family stories, award-winning historian Margaret D. Jacobs examines how government authorities in the postOCOWorld War II era removed thousands of American Indian children from their families and placed them in non-Indian foster or adoptive families. By the late 1960s an estimated 25 to 35 percent of Indian children had been separated from their families. aJacobs also reveals the global dimensions of the phenomenon: These practices undermined Indigenous families and their communities in Canada and Australia as well. Jacobs recounts both the trauma and resilience of Indigenous families as they struggled to

reclaim the care of their children, leading to the ICWA in the United States and to national investigations, landmark apologies, and redress in Australia and Canada. a a"
