 Given a real number x with $0 \leq x \leq 1$, form its binary expansion (by taking $p = 2$ in Q22), which we may regard as unique by fixing a way of representing those numbers of the form $q/2^n$.
 REAL ANALYSIS - H. L. ROYDEN (SOLUCIONES) by Inttegrattor ...
 Description. This text is designed for graduate-level courses in real analysis. Real Analysis, Fourth Edition, covers the basic material that every graduate student should know in the classical theory of functions of a real variable, measure and integration theory, and some of the more important and elementary topics in general topology and normed linear space theory.
