The Humanistic Tradition Volume 1: Prehistory to the Early Modern World Yale University Press

Interdisciplinary in approach and topical in focus, the sixth edition of The Humanistic Tradition continues to bring to life humankind's creative legacy. With more than 800 illustrations and some 150 literary sources in accessible translations, this widely acclaimed humanities survey

takes a global perspective that is at once selective and engaging, and helps students better understand the relationship between world cultures. Available in multiple formats, The Humanistic Tradition examines the political, economic, and social contexts out of which history's most memorable achievements emerged.

**The Humanistic Tradition Volume I: Prehistory to the Early Modern World**  
BRILL

Medieval manuscripts resisted obsolescence. Made by highly specialised

craftspeople (scribes, illuminators, book binders) with labour-intensive processes using exclusive and sometimes exotic materials (parchment made from dozens or hundreds of skins, inks and paints made from prized minerals, animals and plants), books were expensive and built to last. They usually outlived their owners. Rather than discard them when they were superseded, book owners found ways to update, amend and upcycle books or book parts. These activities accelerated in the fifteenth century. Most manuscripts made before 1390 were bespoke and made for a

particular client, but those made after 1390 (especially books of hours) were increasingly made for an open market, in which the producer was not in direct contact with the buyer. Increased efficiency led to more generic products, which owners were motivated to personalise. It also led to more blank parchment in the book, for example, the backs of inserted miniatures and the blank ends of textual components. Book buyers of the late fourteenth and throughout the fifteenth century still held onto the old connotations of manuscripts—that they were custom-made luxury items—even when the production had become impersonal. Owners consequently purchased books made for an open market and then personalised them, filling in the blank spaces, and even adding more components later. This would give them an affordable product, but one that still smacked of luxury and met their individual needs. They kept older books in circulation by amending them, attached items to generic books to make them more relevant and valuable, and added new prayers with escalating indulgences as the

culture of salvation shifted. Rudy considers ways in which book owners adjusted the contents of their books from the simplest (add a marginal note, sew in a curtain) to the most complex (take the book apart, embellish the components with painted decoration, add more quires of parchment). By making sometimes extreme adjustments, book owners kept their books fashionable and emotionally relevant. This study explores the intersection of codicology and human desire. Rudy shows how increased modularisation of book making led to more standardisation but also to more opportunities for personalisation. She asks: What properties did parchment manuscripts have that printed books lacked? What are the interrelationships among technology, efficiency, skill loss and standardisation?

*Landmarks in Humanities* McGraw-Hill Education

In *Studies in Iconology*, the themes and concepts of Renaissance art are analysed and related to both classical and medieval tendencies.

*Leveraging a Transformational Approach* McGraw-Hill Education

Beginning with the birth of Christianity and of Buddhism, the second book of *The Humanistic Tradition* offers a wide-ranging look at the period from 0-1300 C.E. The book addresses the interaction between religion and culture in emerging Islamic societies while also drawing on art, music, literature, and architecture to draw a vivid portrait of life in Medieval Europe. It concludes with a discussion of the art and culture of medieval Asia - India, China, and Japan.

Due Lezioni McGraw-Hill Education  
Ensure your success! Purchase the value package?textbook and Student?Solutions manual for the price of the textbook alone! That's a \$32.95 savings! (Set ISBN: 0471654930) Textbook: Achieving a fine balance between the concepts and procedures of calculus, this applied Calculus text provides students with the solid background they need in the subject with a thorough understanding of its applications in a wide range of fields ? from biology to economics. Key features of this innovative text include: The text is problem driven and features exceptional exercises based on real-world applications. The authors provide alternative avenues

through which students can understand the material. Each topic is presented four ways: geometrically, numerically, analytically, and verbally. Students are encouraged to interpret answers and explain their reasoning throughout the book, which the author considers a unique concept compared to other books. Many of the real-world problems are open-ended, meaning that there may be more than one approach and more than one solution, depending on the student's analysis. Solving a problem often relies on the use of common sense and critical thinking skills. Students are encouraged to develop estimating and approximating skills. The book presents the main ideas of calculus in a clear, simple manner to improve students' understanding and encourage them to read the examples. Technology is used as a tool to help students visualize the concepts and learn to think mathematically. Graphics calculators, graphing software, or computer algebra systems perfectly complement this book but the emphasis is on the calculus concepts rather than the technology. (Textbook ISBN: 0471207926) Student Solutions Manual: Provides complete

solutions to every odd exercise in the text. These solutions will help you develop the strong foundation you need to succeed in your Calculus class and allow you to finish the course with the foundation that you need to apply the calculus you learned to subsequent courses. (Solutions Manual ISBN: 0471213624) *Staging Doubt* CRC Press  
Understanding that a global humanities course is taught in varying ways, Gloria Fiero redefines the discipline for greater flexibility with the 7th Edition of *The Humanistic Tradition*. Enhanced by McGraw-Hill Education's LearnSmart® and SmartBook®, Fiero delivers a learning experience tailored to the needs of each institution, instructor, and student. With the ability to incorporate new extended readings, streaming music, and artwork, *The Humanistic Tradition* renews the understanding of the relationship between world cultures and humankind's creative legacy. McGraw-Hill Connect Humanities is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, so that your class time is more engaging and effective.

It provides tools that make assessment easier, learning more engaging, and studying more efficient.

From Inquiry to Academic Writing helps students understand academic culture and its ways of reading, thinking, and writing.

With a practical and now widely proven step-by-step approach, the text demystifies cross-curricular thinking and writing. An extensive thematic reader brings students into interdisciplinary debates that not only bear on their college careers but also reflect larger cultural issues that they will encounter outside the academy. The fourth edition provides extensive coverage of academic habits and skills (reflection, summarization, synthesis, and visual analysis) and features more than 40% new readings grouped by interdisciplinary themes.

Combine the text with LaunchPad for From Inquiry to Academic Writing for even more engaging content and new ways to get the

most out of your course. This LaunchPad includes Interactive exercises and tutorials for reading, writing, and research LearningCurve adaptive, game-like practice that helps students focus on the topics where they need the most help, such as fallacies, claims, evidence, and other key elements of argument Text-specific reading comprehension quizzes Practice sequences to help students apply the strategies of observing, asking questions, and examining alternatives.

### **Medieval Europe and the World**

**Beyond** McGraw-Hill Humanities, Social Sciences & World Languages

This text is part of a six-volume work which offers an overview of art, music, literature, history and philosophy. Book 3 explores the European Renaissance, the reformation and the global encounter. It looks at the 14th-century transitions, classical humanism, Renaissance artists, reforms and cross-cultural encounters in Africa and the Americas. The text focuses on the Western tradition, but also includes strong coverage of other cultures, setting the arts of the West in the larger arena of world cultures including India, the East, Africa and Native America. Throughout the

chronological narrative there is a focus on universal themes, integrating ideas and issues that relate to the human condition. The coverage of literature, art, music and architecture is integrated into discussions of cultural and political influences, aiming to create a logical presentation of broad subject matter.

The European Renaissance, the Reformation, and Global Encounter

McGraw-Hill Education

The Saga of the Greenlanders and Eirik the Red's Saga contain the first ever descriptions of North America, a bountiful land of grapes and vines, discovered by Vikings five centuries before Christopher Columbus. Written down in the early thirteenth century, they recount the Icelandic settlement of Greenland by Eirik the Red, the chance discovery by seafaring adventurers of a mysterious new land, and Eirik's son Leif the Lucky's perilous voyages to explore it. Wrecked by storms, stricken by disease and plagued by navigational mishaps, some survived the North Atlantic to pass down this compelling tale of the first Europeans to talk with, trade with, and war with the Native Americans.

*Romanticism, Realism, and the Nineteenth-century World* McGraw-Hill Education

This volume considers the influential revival of ancient philosophical skepticism in the 16th and early 17th centuries and investigates, from a comparative perspective, its reception in early modern English, Spanish and French drama, dedicating detailed readings to plays by Shakespeare, Calderón, Lope de Vega, Rotrou, Desfontaines, and Cervantes. While all the plays employ similar dramatic devices for "putting skepticism on stage", the study explores how these dramas, however, give different "answers" to the challenges posed by skepticism in relation to their respective historico-cultural and "ideological" contexts.

Leadership is a daunting subject for most developing leaders, but eventually all

followers will be called upon to lead. Where do we start? What model or theory do we utilize? The choices become overwhelming for anyone attempting online searches. Everywhere you look are leadership books, programs, degrees, workshops, seminars, boot camps, and even mobile apps! Many organizations at Air University are utilizing the full range of leadership approach. Initially introduced by James MacGregor Burns in 1978 and Bernard Bass in 1985, these transformational and transactional leadership styles have sustained nearly four decades. Through (1) idealized transformational leader behaviors, one may raise the levels of his or her ethical and moral values while committing to "doing the right thing" for himself or herself and his or her followers: (2) by using inspirational motivation, leaders learn to articulate a vision to energize followers to accomplish more than they ever thought possible; (3) by intellectually stimulating followers, leaders will challenge followers to create and innovate as they reframe problems with renewed visions; and by providing individualized consideration, leaders may learn to

incorporate each member's distinct gifts and talents as individual contributors to the organizational team. These transformational behaviors can offer connections to reaching (4) authentic transformational leadership by incorporating not only ethics and values but also, according to John Sosik, virtues and character strengths to refine one's leadership acumen, ameliorating leader-follower dynamics

*The Companion to Music in the Age of the Catholic Monarchs*, edited by Tess Knighton, offers a major new study that deepens and enriches our understanding of the forms and functions of music that flourished in late medieval Spanish society.

*Developing Your Full Range of Leadership* McGraw-Hill Humanities, Social Sciences & World Languages

This book is a printed edition of the Special Issue "Transcultural Literary Studies: Politics, Theory, and Literary Analysis" that was published in *Humanities Looseleaf for The Humanistic Tradition, Book 2: Medieval Europe And The World Beyond* Cengage Learning

When it was first released in 1962, *The Shape of Time* presented a radically new approach to the study of art history. Drawing upon new insights in fields such as anthropology and linguistics, George Kubler replaced the notion of style as the basis for histories of art with the concept of historical sequence and continuous

change across time. Kubler's classic work is now made available in a freshly designed edition. "The Shape of Time is as relevant now as it was in 1962. This book, a sober, deeply introspective, and quietly thrilling meditation on the flow of time and space and the place of objects within a larger continuum, adumbrates so many of the critical and theoretical concerns of the late twentieth and early twenty-first century. It is both appropriate and necessary that it re-appear in our consciousness at this time."—Edward J. Sullivan, New York University This book will be of interest to all students of art history and to those concerned with the nature and theory of history in general. In a study of formal and symbolic durations the author presents a radically new approach to the problem of historical change. Using new ideas in anthropology and linguistics, he pursues such questions as the nature of time, the nature of change, and the meaning of invention. The result is a view of historical sequence aligned on continuous change more than upon the static notion of style—the usual basis for conventional histories of art. A carefully reasoned and brilliantly

suggestive essay in defense of the view that the history of art can be the study of formal relationships, as against the view that it should concentrate on ideas of symbols or biography.—Harper's. It is a most important achievement, and I am sure that it will be studied for many years in many fields. I hope the book upsets people and makes them reformulate.—James Ackerman. In this brief and important essay, George Kubler questions the soundness of the stylistic basis of art historical studies. . . . The Shape of Time ably states a significant position on one of the most complex questions of modern art historical scholarship.—Virginia Quarterly Review.
