Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity, history, and the contemporary world. All chapters include lesson ideas, a sample lesson plan with activity sheets, primary source documents, and helpful charts, graphs, photographs, and maps. High school students' responses are woven in throughout. Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer. The traditional curriculum tends to highlight the Western heritage, and to race through epochs and regions, leaving little time for an in-depth exploration of concepts and historical themes, for the evaluation of primary and secondary sources, and for students to draw their own historical conclusions. Offering an alternative to such pre-packaged textbook outlines and materials, this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it. As Long as we Both Shall Eat is a culinary history of wedding feasts. Examining the various food customs associated with weddings in America and around the world, Claire Stewart not only provides a rich account of the foods most loved and frequently served at wedding celebrations, she also offers a glimpse into the customs and celebrations themselves, as they are experienced in the West and in various other cultures. She sheds light on the historical and contemporary significance of wedding food, and explores patterns of the varieties of conspicuous consumption linked to American wedding feasts in particular. There are stories of celebrity excess, and the book is peppered with accounts of lavish strange-but-true wedding tales. The antics of wealthy socialites and celebrities is a topic rich for exploration, and the telling of their exploits can be used to track the fads and changes in conventional and contemporary wedding feasts and celebrations. From cocktail hours to wedding cakes, showers to brunches, the food we enjoy to celebrate the joining of life partners helps bring us together, no matter our differences. Readers are treated to a tasty trip down the aisle in this entertaining and lively account of nuptial noshing.

The Book World Bedford/st Martins

The history of tropical medicine is as dramatic as the story of humankind. It has its own myths and legends, including tales of epidemics that destroyed whole civilizations. Today, with silent stealth, tropical diseases still claim more lives than all the current wars combined. Having had the privilege of working throughout Africa, Asia, and Latin America, as well as in the great medical centers of Europe and the United States, the author presents the details essential for understanding pathogenesis, clinical manifestations, therapy, and prevention of the major tropical diseases. The text, now in its eighth edition, has been used for half a century by medical students, practicing physicians, and public health workers around the world. This fascinating book should also be of interest to a broad, nonmedical readership interested in world affairs. All royalties from the sale of this book

go to the training of humanitarian workers.
