The story of how a national grassroots network fought a resurgence of the KKK and other fascist groups during the Reagan years, laying the groundwork for today's anti-fascist/anti-racist movements. "Smash fascism! Read this book!"—Tom Morello, songwriter and guitarist with Rage Against the Machine "Studying the John Brown Anti-Klan Committee will give readers an understanding of the complexity of deconstructing the weapon of white supremacy from the inside out. Thank you Hilary and James for the precision of this analysis, and the true

north of this star."—adrienne maree brown, author of *Pleasure Activism* and *Emergent Strategy* In June 1977, a group of white anti-racist activists received an alarming letter from an inmate at a New York state prison calling for help to fight the Ku Klux Klan's efforts to recruit prison staff and influence the people incarcerated. Their response was to form the first chapter of what would eventually become a powerful, nationwide grassroots network, the John Brown Anti-Klan Committee, dedicated to countering the rise of the KKK and other far-right white nationalist groups. *No Fascist USA!* tells

the story of that network, whose efforts throughout the 1980s—which included exposing white supremacists in public office, confronting neo-Nazis in street protests, supporting movements for self-determination, and engagement with the underground punk scene—laid the groundwork for many anti-racist efforts to emerge since. Featuring original research, interviews with former members, and a trove of graphic materials, their story offers battle-tested lessons for those on the frontlines of social justice work today. Praise for *No Fascist USA!*: "Hilary Moore and James Tracy have written a magnificent book that not only corrects the record but helps explain the mercurial rise of white supremacist organizations in the 1970s, how the Klan was (temporarily) defeated, and why this period has been largely ignored. *No Fascist USA!* radically shifts our perspective, challenging the prevailing wisdom that racist terrorism rises in response to economic downturns, white downward mobility, or in a vacuum created by progressive alternatives. I love this book."—Robin D.G. Kelley, from the foreword "*No Fascist USA!* is not only timely, but also essential in the present

period of accelerated white supremacist activity and anti-racist organizing to combat it. In telling the story of the John Brown Anti-Klan Committee, the authors, without romanticizing or condemning, draw important lessons from the fifteen-year history of the group."—Roxanne Dunbar-Ortiz, author of *Loaded: A Disarming History of the Second Amendment* "With its savvy blend of youth culture and street confrontation, the John Brown Anti-Klan Committee tried to stop Trumpism before Trump. They confronted the rise of white nationalism in prisons, workplaces, and music scenes when precious few paid attention to it . . . Hilary Moore and James Tracy have gifted us with an urgent read."—Dan Berger, author of *Captive Nation: Black Prison Organizing in the Civil Rights Era* "James Tracy and Hilary Moore deliver a searing, bold new work that examines another painful and complicated chapter in American race relations. In an eye-opening account, They are able to connect the dots of the John Brown Anti-Klan Committee, a band of contemporary predominantly white activists, and its efforts to expose white supremacist organizations. With a fresh

eye and new research, their book uncovers with stunning precision how these groups remain active and exposes some of their unlikely alliances."—Laurens Grant, filmmaker, *The Black Panthers: Vanguard of the Revolution* and *Freedom Riders* "We learned from history. You can too!"—Terry Bisson, author of *Fire on the Mountain* and former member of the John Brown Anti-Klan Committee "This book is a must-read for anyone wanting to understand the roots of what happened in Charlottesville, and the burgeoning white nationalist membership lists in the U.S. today. We cannot possibly take on the challenges we face without learning from the past. This book is a necessary and long overdue contribution to inform the way forward."—Carla F. Wallace, co-founder, *Showing Up for Racial Justice* "I've waited thirty years for this book! Our emergency hearts have always driven uprisings to stop white terrorism, but it always takes more than black-bloc tactics in the streets to stop fascists. *No Fascist USA!* firmly connects today's militant anti-fascist street-fighting movements with important living radical histories to disrupt the cycles that keep the spectre of fascism alive in

the modern era. The struggles faced by the John Brown Anti-Klan Committee continue today in our difficult arc towards collective liberation."—scott crow, author of *Setting Sights: Histories and Reflections on Community Armed Self-Defense*

An inspiring account of teachers in ordinary circumstances doing extraordinary things, showing us how to transform education

What School Could Be offers an inspiring vision of what our teachers and students can accomplish if trusted with the challenge of developing the skills and ways of thinking needed to thrive in a world of dizzying technological change. Innovation expert Ted Dintersmith took an unprecedented trip across America, visiting all fifty states in a single school year. He originally set out to raise awareness about the urgent need to reimagine education to prepare students for a world marked by innovation--but America's teachers one-upped him. All across the country, he met teachers in ordinary settings doing extraordinary things, creating innovative classrooms where children learn deeply and joyously as they gain purpose, agency, essential skillsets and mindsets, and real knowledge. Together, these new ways of teaching and learning offer a vision of

what school could be—and a model for transforming schools throughout the United States and beyond. Better yet, teachers and parents don't have to wait for the revolution to come from above. They can readily implement small changes that can make a big difference. America's clock is ticking. Our archaic model of education trains our kids for a world that no longer exists, and accelerating advances in technology are eliminating millions of jobs. But the trailblazing of many American educators gives us reasons for hope. Capturing bold ideas from teachers and classrooms across America, *What School Could Be* provides a realistic and profoundly optimistic roadmap for creating cultures of innovation and real learning in all our schools.

The Good Name by Samuel T. Logan, Jr. encourages readers to see the dangers of "false witness" among Christians, especially when dealing with disagreements, which can cause damage to individuals, the church, and the good name of Jesus. By exploring what it means to be a true witness in the Bible and the Christian church, Logan emphasizes the power of words—both divine and human—and explains how our Christian responsibility is to honor others in truth and respect, especially when we disagree. This powerful book draws on Scripture and

historical evidence of all the damage that verbal nastiness of Christians has done to the cause of Christ. Christians often disagree with one another and, because they are Christians, they tend to hold their beliefs very strongly. This sometimes leads us to speak harshly to and about one another. But the Bible has more to say about the way we speak than it does about almost anything else, and *The Good Name* examines how we may express our disagreements in a way that honors Jesus. Logan provides biblical wisdom and practical help through specific examples of how to talk to and about those with whom we disagree on “hot button issues,” such as abortion, evolution, same-sex marriage, the place of women in ministry leadership, and so on. While encouraging readers to honor the good name of Jesus and love their neighbors, Logan also explores how Christians have undermined the gospel throughout church history. But words have the power to heal, not just hurt, and this resource outlines how to be winsome and respectful in all conversations, especially disagreements.

The work presented in this volume attests to the innovative and successful educational alternatives designed and implemented by Catholic religious groups to improve educational, career, and life outcomes for urban children, adolescents, and adults placed at risk. These efforts have helped thousands of urban citizens break away from the chains of poverty and

poor academic preparation to succeed in high school and beyond and secure a place of meaning and influence in adult society. In this volume, we examine the contributions of networks of schools, such as *NativityMiguel* and *Cristo Rey* schools in the U.S. and Canada and *Fe y Alegría* based in South America and operating in multiple countries, as well as more local initiatives. There is much to be learned from these initiatives that can improve urban education and this edited volume provides this opportunity to educators, planners, funders, and others who are inclined to invest in effective urban education. The perspectives taken in these chapters include current approaches to critical race theory, faith perspectives that promote justice, and the building of social capital and resilience to succeed academically despite considerable adversity associated with economic poverty. The chapters included here explore educational structures that communicate high expectations for student and teacher performance and provide individualized instruction, caring mentoring, and support beyond graduation in order to help develop men and women

of confidence, skill, leadership, and integrity and ensure high levels of success in a world that tends to exclude them more than welcome them. Praise for *Responding to the Call for Educational Justice*: "One of the most unheralded, unreported and underappreciated initiatives in education are Catholic schools that are transforming the way that young people are taught. If you have never heard the words 'Cristo Rey,' 'Nativity/Miguel' or 'Fe y Alegria,' prepare to be amazed and delighted by this thorough study of the great benefits these creative and exciting schools bring to us." ~ James Martin, SJ Author of "Jesus: A Pilgrimage" and "The Jesuit Guide" "During these very troubling times within the Church and the larger society, we need critical voices that are unapologetically committed to eradicating the ideologies and structures of inequality within urban education, yet also speak of hope and possibility. In this very timely volume, Fenzel and Wyttenbach eloquently compile an insightful set of readings that courageously respond to our deep human yearning for freedom and offer us glimpses into a more just and

loving world." ~ Antonia Darder, PhD

Certain lines define a movie. Marlene Dietrich in Morocco: "Anyone who has faith in me is a sucker." Too, there are lines that fit actor and character. Mae West in I'm No Angel: "I'm very quick in a slow way." Jane Fonda in California Suite: "Fit? You think I look fit? What an awful shit you are. I look gorgeous." From the classics to the grade-B slasher movies, over 11,000 quotes are arranged by over 900 subjects, like accidents, double entendres, eyes (and other body parts!), ice cream, luggage, parasites, and ugliness. Each quote gives the movie title, production company, year of release, speaker of the line, and, when appropriate, a comment putting the quote in context.
