In this second Shirley Homes detective story, Shirley must catch a cyber thief. But how? You can't see a cyber thief, you can't hear a cyber thief. Only the computer knows, and the computer isn't talking . . .

A level 3 Oxford Bookworms Library graded readers. Written for Learners of English by Harry Gilbert. In our world today a hummingbird is a small, brilliantly coloured bird that lives in the tall trees of tropical forests. In the far distant future, Hummingbird (Hummy for short) is a girl of sixteen who lives somewhere in the Galaxy, on a planet called Just Like Home. She has the name 'Hummingbird' in big letters on all her clothes, but she has never seen a real hummingbird. She has never seen any living animal or bird at all. The Book of Remembering says that there were once many animals on a planet called Earth, but that was before the Burning, a long, long time ago . . .

This book addresses several aspects of environmental sustainability awareness and prioritization, explores ways to use resources and processes more responsibly, and describes the strategies, models and tools required to overcome various challenges. Sustainable and green IT are used to minimize the current ICT recycling problems which are harming our planet. The book discusses the new green information technologies as

alternatives to conventional ICT, which have significantly harmed nature, and examines how to make recent technologies such as cloud computing; social networking; smart technology; blockchains, IoT (internet-of-things); and big data sustainable. Exploring sustainability awareness and importance among individuals and organizations in the developed and developing countries, most of the contributions conclude that sustainability should be considered a duty in order to change mindsets, attitudes and actions so as to preserve our planet. Furthermore, it examines the green information technology strategies and models.

*The Mysterious Death of Charles Bravo - With Audio Level 3 Oxford Bookworms Library* Oxford University Press

This is the true account of Doris Pilkington Garimara's mother Molly, made legendary by the film 'Rabbit-Proof Fence'. In 1931 Molly led her two sisters on an extraordinary 1,600 kilometre walk across remote Western Australia. Aged 8, 11 and 14, they escaped the confinement of a government institution for Aboriginal children removed from their families. Barefoot, without provisions or maps, tracked by Native Police and search planes, the girls followed the rabbit-proof fence, knowing it would lead them home. Their journey - longer than many of the celebrated walks of our explorer heroes - reveals a past more cruel than we could ever imagine. This is a marvellous adventure story and thriller, celebrating courage and the resilience of the human heart. - Phillip Noyce, Director of 'Rabbit-Proof Fence'

But the enquiry into the death in 1876 could not decide who the murderer was, and for more than 130 years people have wondered who did kill Charles Bravo . . .
