A Field Guide to the Great Wines of Europe Penguin

Featuring sixty-seven exceptional color maps as well as eighty-seven vivid images by photographer Hendrik

Holler and others, this is the most comprehensive and up-to-date atlas of German wine—a detailed reference to vineyards and appellations. The authors explain the geography of all the German wine-growing regions and provide independent analysis and ranking of the most significant vineyards in each region. In addressing the growing American appreciation of German wines, the atlas pays in-depth attention to Rieslings from the Mosel and other premier regions while also acquainting readers with wines from less familiar areas such as the Ahr, Baden, the Taubertal, and Franconia. Beautifully produced, with helpful sidebars

and succinct essays, this book will become the standard reference on the subject. *Champagne Workman Publishing* From the world-renowned sommelier Aldo Sohm, a dynamic, essential wine guide for a new generation NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY FOOD52 Aldo Sohm is one of the most respected and widely lauded sommeliers in the world. He's worked with celebrated chef Eric Ripert as wine director of three-Michelin-starred Le Bernardin for over a decade, yet his philosophy and approach to wine is much more casual. Aldo's debut book, *Wine Simple*, is full of confidence-building infographics and

illustrations, an unbeatable depth of knowledge, effusive encouragement, and, most important, strong opinions on wine so you can learn to form your own. Imbued with Aldo's insatiable passion and eagerness to teach others, *Wine Simple* is accessible, deeply educational, and lively and fun, both in voice and visuals. This essential guide begins with the fundamentals of wine in easy-to-absorb hits of information and pragmatic, everyday tips—key varietals and winemaking regions, how to taste, when to save and when to splurge, and how to set up a wine tasting at home. Aldo then teaches you how to take your wine knowledge to the next level and evolve your

palate, including techniques on building a “flavor library,” a cheat sheet to good (and great) vintages (and why you shouldn't put everything on the line for them), tips on troubleshooting tricky wines (corked? mousy?), and, for the daring, even how to saber a bottle of champagne. This visual, user-friendly approach will inspire readers to have the confidence, curiosity, and enthusiasm to taste smarter, drink boldly, and dive headfirst fearlessly into the exciting world of wine.

Written by fourteen of the world's outstanding authorities on ornithology, illustrated with more than 500 original portraits, 270 line drawings, and 167 maps and diagrams, *The World Atlas of Birds* offers a fresh look at what birds are, how they live, and what lies behind their extraordinary success in coming to terms with virtually every habitat available to our planet, from polar regions to equatorial rainforests, mountaintops to the open sea. *The World Atlas of Birds* selects more than 500 species of birds and examines them in depth, region by region, choosing each one to illustrate a particular facet of bird life — a hunting

technique or physical specialization, courtship behavior or feeding habit. More than fifty boxed topics look at unusual aspects of bird behavior such as techniques of nest building, the relationship between adult and young, and the strange links that can exist between birds and other animals. In addition, the introductory chapter probes such general subjects as evolution, physiology, flight, and the mystery of migration; a glossary and catalog of scientific and common names is preceded by a unique section containing a full descriptive classification explaining the relationships and characteristics of the world's 155 bird

families; and a complete index to the text and illustrations concludes the book.

In *Extreme Wine*, wine economist and best-selling author Mike Veseth circles the globe searching for the best, worst, cheapest, most expensive, and most over-priced wines. Mike seeks out the most outrageous wine people and places

and probes the biggest wine booms and busts. Along the way he applauds celebrity wines, tries to find wine at the movies, and discovers wines that are so scarce that they are almost invisible. Why go to such extremes? Because, Mike argues, the world of wine is growing and changing, and if you want to find out what's really happening you can't be afraid to step over the edge. Written with verve and appreciation for all things wine, *Extreme Wine* will surprise and delight readers.

Winner of the

prestigious André Simon Drink Book Award The first definitive reference book to describe, region-by-region, how the great wines of Europe should taste. This will be the go-to guide for aspiring sommeliers, wine aficionados who want to improve their blind tasting skills, and amateur enthusiasts looking for a straightforward and visceral way to understand and describe wine. In this seminal addition to the wine canon, noted experts Rajat Parr and Jordan Mackay share everything they've learned in their decades of tasting wine. The result is the most in-depth study of the world's greatest wine regions ever published. There are

books that describe the geography of wine regions. And there are books that describe the way basic wines and grapes should taste. But there are no books that describe the intricacies of the way wines from various subregions, soils, and appellations should taste. Now, for the first time ever, you can learn about the differences between wines from the 7 grand crus and 40 premier crus of Chablis, or the terroirs in Barolo, Champagne, and Bordeaux. Paying attention to styles, winemakers, soils, and the most cutting-edge of trends, this book explains how to understand the wines of the world not in the classical way, but in the modern way--appellation by

appellation, soil by soil, technique by technique--making it an essential reference and instant classic.

"A Civil War odyssey in the tradition of Charles Frazier's *Cold Mountain* and Robert Olmstead's *Coal Black Horse*, Mosher's latest, about a Vermont teenager's harrowing journey south to find his missing-in-action brother, is old-fashioned in the best sense of the word....The story of Morgan's rite-of-passage through an American arcadia despoiled by war and slavery is an

engrossing tale with mass appeal." –Publisher's Weekly

Morgan Kinneson is both hunter and hunted. The sharp-shooting 17-year-old from Kingdom County, Vermont, is determined to track down his brother Pilgrim, a doctor who has gone missing from the Union Army. But first Morgan must elude a group of murderous escaped convicts in pursuit of a mysterious stone that has fallen into his possession. It's 1864, and the country is in the grip of the bloodiest war in American history. Meanwhile, the Kinneson family has been quietly conducting passengers on the Underground Railroad from Vermont to the Canadian border. One snowy

afternoon Morgan leaves an elderly fugitive named Jesse Moses in a mountainside cabin for a few hours so that he can track a moose to feed his family. In his absence, Jesse is murdered, and thus begins Morgan's unforgettable trek south through an apocalyptic landscape of war and mayhem. Along the way, Morgan encounters a fantastical array of characters, including a weeping elephant, a pacifist gunsmith, a woman who lives in a tree, a blind cobbler, and a beautiful and intriguing slave girl named Slidell who is the key to unlocking the mystery of the secret stone. At the same time, he wrestles with the choices that will ultimately define

him – how to reconcile the laws of nature with religious faith, how to temper justice with mercy. Magical and wonderfully strange, *Walking to Gatlinburg* is both a thriller of the highest order and a heartbreaking odyssey into the heart of American darkness.

'On Wine-which brings together dozens of "articles, reviews, and introductions," from titles as various as *Vogue*, *Decanter*, *The Sunday Times Wine Club* newsletter *Wine Times*, and the journal you have in your hands, as well as snippets from Johnson's bestselling books-has many moments where the writing transcends the ostensible subject

matter.' *The World of Fine Wine* One of the world's great authorities on wine, Hugh Johnson has been writing on the subject (among others) for almost six decades.

This selection chronicles his personal take on developments that have revolutionised the industry for half a century and more.

Johnson's prose describes as no one else can the endlessly fascinating characters and landscapes of the wine world. He tells of setting sail with sybarites and braving the perfect storm, he debates at length the *Pleasure Principle*, lip-smacks through decadent dinners, teaches and learns in Tokyo and files breathless dispatches from Beijing. He bids a

poignant farewell to the loveliest vintages, decries peremptory judgement and urges the Slow Food philosophy; falls in love (again), this time with Tokaji, tells warm winter tales through a vintage port and sets out a summer picnic at the source of the Seine - all the while dryly annotating the scribbles of his younger self with contemporary marginal hindsights. This thoughtful, illuminating collection will delight not only lovers of wine, food, history and travel but also anyone who enjoys the intoxicating power of words. *New Edition* National Geographic Books
