When a meteorite

lands in Surrey, the  
locals don't know what  
to make of it. But as  
Martians emerge and  
begin killing  
bystanders, it quickly  
becomes  
clear—England is

under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

The Parrot and the Cannon is a study of the inception and development of Latin American literary journalism and the emergence of an original Latin American literature. Narrative journalism has played a central role in the formation of national identities of the various countries and in the

supra-national idea of Latin America as a consolidated region. Beginning in the 1840s and ending in the 1970s, Calvi connects the evolution of literary journalism with the consolidation of Latin America's literary sphere, the professional practice of journalism, the development of the modern mass media, and the establishment of nation-states in the region.

The author explores the role of journalism in Egypt in effecting and promoting the development of modern Arabic literature from its inception in the mid-nineteenth century to the present day. Remapping the literary

scene in Egypt over recent decades, Kendall focuses on the independent, frequently dissident, journals that were the real hotbed of innovative literary activity and which made a lasting impact by propelling Arabic literature into the post-modern era.

Forty years after Tom Wolfe, Hunter S. Thompson, and Gay Talese launched the New Journalism movement, Robert S. Boynton sits down with

nineteen practitioners of what he calls the New New Journalism to discuss their methods, writings and careers. The New New Journalists are first and foremost brilliant reporters who immerse themselves completely in their subjects. Jon Krakauer accompanies a mountaineering expedition to Everest. Ted Conover works for nearly a year as a prison guard. Susan Orlean follows orchid fanciers to reveal an obsessive subculture few knew existed. Adrian Nicole LeBlanc spends nearly a decade reporting on a family in the South Bronx. And like their muckraking early twentieth-century precursors, they are drawn to the most pressing issues of the day: Alex Kotlowitz,

Leon Dash, and William Finnegan to race and class; Ron Rosenbaum to the problem of evil; Michael Lewis to boom-and-bust economies; Richard Ben Cramer to the nitty gritty of politics. How do they do it? In these interviews, they reveal the techniques and inspirations behind their acclaimed works, from their felt-tip pens, tape recorders, long car rides, and assumed identities; to their intimate understanding of the way a truly great story unfolds. Interviews with: Gay Talese Jane Kramer Calvin Trillin Richard Ben Cramer Ted Conover Alex Kotlowitz Richard Preston William Langewiesche Eric Schlosser Leon Dash William Finnegan Jonathan Harr Jon Krakauer Adrian Nicole

American studies, gender studies, visual studies, media studies, and American studies, in addition to journalism and literary studies, this book is perfect for students and scholars of those disciplines.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While

1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. *Why I Write* is a unique

opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

This book advances a journalistic theory of empathy, challenging long-held notions about how best to do journalism. Because the institution of journalism has typically equated empathy and compassion with bias, it has been slow to give the intelligence of the emotions a legitimate place in the reporting and writing process.

Blank-Libra's work locates the point at which the vast, multidisciplinary research on empathy intersects with the work of the journalist, revealing a reality that has always been so: journalists practice empathy as a way to connect but also as a form of inquiry, as sincere and legitimate in its goals and aspirations as is objectivity.

 Journalism entered the twenty-first century

caught in a paradox. The world had more journalism, across a wider range of media, than at any time since the birth of the western free press in the eighteenth century. Western journalists had found themselves under a cloud of suspicion: from politicians, philosophers, the general public, anti-globalization radicals, religious groups, and even from fellow journalists. Critics argued that the news industry had lost its moral bearings, focusing on high investment returns rather than reporting and analysing the political, economic, and social issues of the day. Journalism has a central and profound impact on our worldview; we find it

everywhere from newspapers and television, to radio and the Internet. In the new edition of this thought-provoking and provocative Very Short Introduction, Ian Hargreaves examines the world of contemporary journalism. By looking not only at what journalism has been in the past, but also what it is becoming in the digital age, he examines the big issues relating to reportage, warfare, celebrity culture, privacy, and technology worldwide. *The Rediscovered Writings of Rose Wilder Lane, Literary Journalist* University of Pittsburgh Press

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's and Other Voices*, *Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative

of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the “new journalism.” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “I thought he was a very nice gentleman,” he says of Herb Clutter. “Soft-spoken. I thought so right up to the moment I cut his throat.” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the

case and the killers’ flight, Capote’s account is so detailed that the reader comes to feel almost like a participant in the events.

The “dazzling” and essential portrayal of 1960s America from the author of *South and West* and *The Year of Magical Thinking* (The New York Times). Capturing the tumultuous landscape of the United States, and in particular California, during a pivotal era of social change, the first work of nonfiction from one of American literature’s most distinctive prose stylists is a modern classic. In twenty razor-sharp essays that redefined the art of

journalism, National Book Award-winning author Joan Didion reports on a society gripped by a deep generational divide, from the “misplaced children” dropping acid in San Francisco’s Haight-Ashbury district to Hollywood legend John Wayne filming his first picture after a bout with cancer. She paints indelible portraits of reclusive billionaire Howard Hughes and folk singer Joan Baez, “a personality before she was entirely a person,” and takes readers on eye-opening journeys to Death Valley, Hawaii, and Las Vegas,

“the most extreme and allegorical of American settlements.” First published in 1968, *Slouching Towards Bethlehem* has been heralded by the New York Times Book Review as “a rare display of some of the best prose written today in this country” and named to Time magazine’s list of the one hundred best and most influential nonfiction books. It is the definitive account of a terrifying and transformative decade in American history whose discordant reverberations continue to sound a half-century later.
