Summary of The 4 Disciplines of Execution by Chris McChesney, Sean Covey, and Jim Huling Includes Analysis Preview: The 4 Disciplines of Execution is a guide for businesses to reliably commit to the goals and plans they set, authored by associates from FranklinCovey, a management consultancy.

Rather than focusing on what a business must accomplish to be successful, the four disciplines establish how to accomplish those things. One reason commitments tend to be abandoned in business is that new projects and goals are less urgent than the day-to-day tasks of each individual employee, which the authors call the "whirlwind." The key to commitment fulfillment is for new tasks to take up only a small portion of each employee's time, but for that employee to be held accountable for completing them. The first discipline is to settle on one or two wildly important goals (WIGs). These are the things that would have the most significant impact on progress toward the business's long-term goals. In the second discipline, the WIG...

Greater Than Goals. More Powerful Than Habits. Discover Your Streaks Most of us have a vision for ourselves and who we want to be: a top-notch professional in our field; a fantastic parent and friend; a physically fit, healthy person; someone who sets and achieves goals in multiple areas of life. But, amid the busy-ness of our days and all the competing demands, we often fall short of our hopes for ourselves. How could we possibly fit in another activity to become the person we've always dreamed we could be? In this practical, step-by-step guide, authors Jeffery Downs and Jami Downs show you how, by introducing the art of streaking (not that kind) to gain mastery in whatever area you choose to improve. To streak is to deliberately select a laughably simple activity--such as writing one sentence a day, doing seven push-ups a week, making one cold call a month--to repeat and record it over time, and to build a community around it as you do. As you create this structure for consistent wins, your actions align with your vision for yourself, and your confidence grows. Drawing on examples from winning athletes and teams, businesses, and communities to demonstrate the laws of streaking, the authors reveal how to choose exactly the right activities that will propel you forward. Streaking reveals a tried and true methodology and the key strategies to progress in your life, for incredible results. You will learn how to: - successfully integrate daily, weekly, or monthly activities that align with your goals; - overcome natural tendencies that keep you stuck; - stack streaks that support your desired results, and then level up; - start again (or revise your streak), if you falter; - and much more. Whether you seek to improve in your professional life, in personal pursuits, or both, Streaking gives you the tools to purposely advance, to transform yourself into the person you've always wanted to be.

From Stephen R. Covey's eldest son come a revolutionary book that will guide business leaders, public figures and their organizations towards unprecedented productivity and satisfaction. Trust, says Stephen M. R. Covey, is the very basis of the 21st century's global economy, but its power is generally overlooked and misunderstood. Covey shows you how to inspire immediate trust in everyone you encounter - colleagues, constituents, the marketplace - allowing you to forego the time-killing and energy-draining check and balance bureaucracies that are so often relied upon in lieu of actual trust.

Predictable Results in Unpredictable Times Thomas Nelson

There is a competitive advantage out there, arguably more powerful than any other. Is it superior strategy? Faster innovation? Smarter employees? No, New York Times best-selling author, Patrick Lencioni, argues that the seminal difference between successful companies and mediocre ones has little to do with what they know and how smart they are and more to do with how healthy they are. In this book, Lencioni brings together his vast experience and many of the themes cultivated in his other best-selling books and delivers a first: a cohesive and comprehensive exploration of the unique advantage organizational health provides. Simply put, an organization is healthy when it is whole, consistent and complete, when its management, operations and culture are unified. Healthy organizations outperform their counterparts, are free of politics and confusion and provide an environment where star performers never want to leave. Lencioni's first non-fiction book provides leaders with a groundbreaking, approachable model for achieving organizational health—complete with stories, tips and anecdotes from his experiences consulting to some of the nation's leading organizations. In this age of informational ubiquity and nano-second change, it is no longer enough to build a competitive advantage based on intelligence alone. The Advantage provides a foundational construct for conducting business in a new way—one that maximizes human potential and aligns the organization around a common set of principles.

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we

each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

A gripping tale that reveals what occupies the minds of the world's best business leaders As CEO, most everything that Rich O'Connor did had something to do with at least one of the four disciplines on his famed "yellow sheet." Some of the firm's executives joked that he was obsessed with it. Interestingly, only a handful of people knew what was on that sheet, and so it remained something of a mystery. Which was okay with Rich, because no one really needed to understand it, other than him. He certainly never suspected that it would become the blueprint of an employee's plan to destroy the firm. In this stunning follow-up to his best-selling book, The Five Temptations of a CEO, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization - an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as Rich O'Connor, fictional CEO of technology consulting company Telegraph Partners, faces a leadership challenge so great that it threatens to topple his company, his career and everything he holds true about what makes a leader truly exceptional. In the story's telling, Lencioni deftly helps his readers understand the disarming simplicity and power of creating a healthy organization and reveals four key disciplines that they can follow to achieve it. In The Four Obsessions of an Extraordinary Executive, Lencioni delivers an utterly gripping tale with a powerful and memorable message for all who strive to be remarkable leaders.

The Four Disciplines of Execution is about a simple, proven formula for reaching the goals you want to reach as a business or individual. In Covey's experience, the thing that most undermines the ability to execute goals is what he calls the Whirlwind: those urgent tasks that must be done simply to keep an organization alive. As Covey shows, the only way to execute new, important goals is to separate those goals from the Whirlwind. The Four Disciplines allow leaders to create a strategy that requires a change in behaviour, since only by ensuring that everyone on the team understands the goal, knows what to do to reach it and knows whether progress is being made, will a leader produce consistent breakthrough results while sustaining the urgent work of the Whirlwind. The Four Disciplines of Execution are: 1. Focus on the Wildly Important; 2. Act on the Lead Measures; 3. Keep a Compelling Scoreboard; 4. Create a Cadence of Accountability. For more than a decade FranklinCovey has been studying what it takes to achieve important goals, and in this book they share success stories from a wide range of companies that have implemented the Four Disciplines to result in greater profits, increased market share and improved customer satisfaction. This way of thinking is essential to any company that wants to not only weather, but thrive in this economy.

The Leader in Me Simon and Schuster

Summary of The 4 Disciplines of Execution Who is this summary for? The 4 Disciplines of Execution by Chris McChesney is an excellent guide to removing the distractions of the day-to-day tasks in your day job and being able to focus on 'Wildly Important Goals' and execute these excellently. McChesney produces a straightforward and actionable step-by-step guide that could transform the way you and your team work. Great for anyone looking for a little bit of guidance in the workplace and particularly useful for anyone in a leadership position. Chris McChesney began his career working with Stephen R. Covey within the Franklin Covey organisation. McChesney has dedicated his work to helping organisations achieve the results they are after by improving their execution. His book, The 4 Disciplines of Execution has been hugely successful and was a Wall Street Journal #1 National Best Seller. McChesney has become well known for his high-energy keynote speeches and presentations. McChesney lives with his wife and has seven children. As the title suggests, McChesney outlines what he considers to be the 4 most important disciplines for executing tasks and hitting goals. This summary will cover each of the 4 disciplines and discuss how they can be enacted. The first discipline we will cover is focusing on the wildly important. Discipline two covers acting on the lead measures followed by discipline three: keeping a compelling scoreboard. Finally, we'll cover discipline four: creating a cadence of accountability. "The real enemy of execution is your day job! We call it the whirlwind. It's the massive amount of energy that's necessary just to keep your operation going on a day-to-day basis; and ironically, it's also the thing that makes it so hard to execute anything new. The whirlwind robs from you the focus required to move your team forward." Chris McChesney, Sean Covey, and Jim Huling, authors of The 4 Disciplines of Execution, are definitely on to something when they pinpoint "the whirlwind" as the main detractor of execution success. And they spend the entirety of their excellent book detailing just how to avoid the trap of the daily grind. Achieving your "wildly important goals" through mindful execution is key. Their combined business experience is impressive. All leaders at Franklin Covey with decades of business know-how, these guys "completed more than fifteen hundred implementations of the 4 Disciplines (4DX) before they were ready to write this book" and they have created a set of tools that can be useful for a single person, small business, or large international company. It doesn't hurt that "4 Disciplines" is a #1 business bestseller recommended by The Wall Street Journal. Or, that the book leads with pages of endorsements by the likes of author Stephen R. Covey, and CEOs of companies like Kroger, Wegmans, and the Campbell Soup Company, and even Nobel Peace Prize Winner, Mohammed Yunus. This is an impressive book, years in the making. What I particularly liked about this book is that it is about taking action on your strategic goals, not developing more theory. There are four clear roadmaps to help you overcome the "whirlwind" of the day-to-day work that keeps leaders, and teams, from executing the programs that drive real change. The Four Disciplines are: Focus on the Wildly Important. Act on the Lead Measures. Keep a

Compelling Scoreboard. Create a Cadence of Accountability. So, how do you begin to create the mindset that will help you take action on the four? Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc. Get a copy of this summary and learn about the book.
