Delivery When i create Delivery by VL01N, i am getting only A as deliverable material. Actually when customer orders Material A, after Project systems only i comes to know B C or D is Deliverable material. Thats why SD is very tightly integrated with PS. We decided to go for Milestone Billing also. Sap Sd Ps Integration Delivery Configuration Guide PS-SD Integration as below :

A) Billing plan, at each WBS element, network and Activity level. B) DIP profile which is assigned to item category. DIP for resource related quotation works only with ECP (easy cost planning). C) sales pricing - generally, there r 2 types of sales pricing in PS . lumpsum contract and unit rate contract. PS -SD Integration - SAP Q&A301 Moved Permanently.

nginxwww.hort.iastate.edu SAP PS Integration points . SAP PS system is tightly integrated with various other SAP modules : SAP MM - Material Management . Material planning and procurement through projects. Assignment of material components to network activities (manually, BOM explosion) Automatic creation of purchase requisitions for non-stock materials PS integration points | SAP Project System By using the integration of

SAP PS & IM in the SAP system, you can plan, distribute monitor budgets of projects. Investment programmas in the investment management for the basis for the comprehensive planning & budgeting of costs for a company's plans or investments. Investment programs consist of an investment program definition with general specifications and default values for entire programmes & hierarchically arranged IM Program positions. Integration of SAP PS & IM in the SAP System SAP ERP: Project System (PS) 6.0 SP31

Integration. A delivery that you created in the Project System can be processed further in shipping, for example for picking or packaging. ... For a delivery in SD that refers to a sales order, the requirements for the ... Delivery from Projects - SAP Help Portal We would like to show you a description here but the site won't allow us. SAP Blogs | The Best Run Businesses Run SAP SAP Sales and Distribution (SD) is an important module of SAP ERP consisting of business processes required in selling, shipping, billing of a product. The module is tightly integrated with SAP MM & SAP PP. Key sub-modules of SAP SD are Customer and Vendor Master Data,

Sales, Delivery, Billing, Pricing, and Credit Management. What is SAP SD? Introduction to SAP Sales & Distribution ... Additionally, PS can help manage the MRP (Material Requirements Planning) cycle with its MRPGrouping functionality. PS is the 'owner' of the ProMan facility which tracks and helps manage all the Procurement document flows. Sales and Distribution (SD) - PS has a fairly straight-forward integration with SD via Order Numbers. The Every Day Guide to the SAP Project Systems Module For V 5 SAP MM Integration with SD-PM-PS-FI-WM-QM modules ... If the finished product is available, then it can be delivered to the customer by converting SO to outbound delivery, then perform Goods Issue (GI) transaction based on outbound delivery in inventory management. SAP MM Integration with SD-PM-PS-FI-WM-QM modules SAP FI-MM-SD INTEGRATION Link Between SAP SD, MM and FI The link between SD and MM :-

1. When you create sales order in SD, all the details of the items are copied from Material master of MM.
2. MRP and availability check related data is also taken from MM although you control this data in SD also.
3. While you

create inbound/outbound delivery with reference to a sales order, the shipping point determination takes place with the help of the loading group, plant data, shipping conditions etc. SAP FI-MM-SD INTEGRATION - ERP Operations - Community Wiki

SAP-SD-SLS (Sales): As the term suggests, SAP SD sales handle the minute details of every sale that is taking place. From recording the product to customer details, pricing, feedback and the sales process, everything is tracked through this module.

SAP-SD-SHP (Shipping): Sales are closely related to shipping and delivery. A Product needs to be ...
