In recent years, Chrysler has made waves with a series of dramatic new show cars, exciting production vehicles like the Prowler and Viper, and its mega-merger with German juggernaut Daimler-Benz. It is generally accepted that Chrysler is the most forward-thinking of the Big Three American automakers, yet the company also has a wonderfully compelling past. Just in time to mark Chrysler's 75th anniversary, this beautifully illustrated history takes readers on a journey that spans the company's genesis in the 1920s to present. Marvelous archival black-and-white

photography is accompanied by nostalgic period color imagery, print ads, and new color photography of classics. The story includes model from Dodge, Plymouth, Imperial, and DeSoto, while sidebars highlight key figures and stunning feats of engineering and styling.

When purchasing your vehicle, you should probably expect to be lied to by everyone from the sales department to the financial department. Apples, Oranges, and Lemons is a one-of-a-kind, tell-all book about the automobile trade that reveals inside secrets they don't want you to know. There is no other book like it. It is written by the only person who could, or would. Phillip James Grismer knows the automobile industry from the inside out. He first apprenticed in a number of import auto shops, eventually rising through the ranks and opening his own facility. Grismer draws on his thirty-seven years of experience to expose how the industry really works. He provides answers on how to deal with a "lemon" while offering advice on how to make the best buy before purchasing your vehicle. Discover how the valuation and appraisal process works and how the history of your vehicle affects you and your money. Grismer's conversational style makes the information accessible while offering personal insight on the process of vehicle manufacturing and servicing. Even the most casual reader will be enlightened and entertained by the inner workings of the automobile manufacturing, sales, and service industry. But most importantly, this handy reference guide empowers the consumer to make well-informed decisions about vehicles.

Contrary to the explanations offered by the theory of non-reflexive, path-dependent institutionalism, the U.S. and the German automotive industries undertook strikingly similar patterns of industry modification under tough international competition during the 1990s, departing from their traditional national patterns. By investigating the processes of the U.S. and German adjustments, the author critically reconsiders the prevalent paradigms of political economy and comes to the conclusion that the evidence does not confirm the neoliberal paradigm. In order to better account for the recomposition of new market relations, which the author terms "converging but non-liberal" and "diverging but not predetermined" markets, he proposes an alternative model of "politics among reflexive agents," emphasizing different kinds of problem-solving practices among those reflexive agents. He argues that different forms and regimes of market are established in the process of recomposition, in which agents reflect upon not only market rationality but also upon their own institutions, creating new norms.

This book includes 30 how-to procedures. The projects range from appearance modifications, such as the application of a flame decal kit or customized gauge faces, to wheel and tire selection, suspension modifications, and a turbo or supercharger installation. Other projects introduce the reader to the unique PT Cruiser lifestyle that's sweeping the nation.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.
