Human Factors in the Nuclear Industry: A Systemic Approach to Safety presents the latest research  
 and studies of human factors in the nuclear industry. It models and highlights scientific and  
 technological foundations before providing practical examples of applications within the nuclear  
 facility of human performance at an individual, group, organization, and system level. Editors Dr.  
 Teperi and Dr. Gotcheva supply concrete models, tools and techniques based on research to provide  
 the reader with knowledge of how to facilitate and support human performance in this dynamic and  
 fast moving safety critical field. Models and case studies are provided to add practical benefits for  
 the reader to apply to their own projects, including user friendly state-of-the-art equipment, fluent  
 work processes for information flow, functional control room resource management, and scope for  
 competence and learning in the work place. This book will benefit nuclear researchers, safety  
 experts, human factors professionals and power plant operators, as well as those with an interest in  
 human factors outside of the nuclear field. Provides a comprehensive framework for human factors,  
 considering not only the individual, but also the team, organizational and industrial levels Presents  
 tried and tested tools and techniques based on research from the nuclear industry Includes models,  
 examples and case studies of user-friendly equipment, fluent work processes and functional control  
 room resource management

The Journal of School Leadership is broadening the conversation about schools and leadership and is  
 currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a  
 wide variety of theoretical perspectives and methodological orientations. The editorial team is  
 particularly interested in working with international authors, authors from traditionally marginalized  
 populations, and in work that is relevant to practitioners around the world. Growing numbers of  
 educators and professors look to the six bimonthly issues to: deal with problems directly related to  
 contemporary school leadership practice teach courses on school leadership and policy use as a  
 quality reference in writing articles about school leadership and improvement.

This paper discusses key findings of the Report on the Observance of Standards and Codes for Hong  
 Kong Special Administrative Region (HKSAR). HKSAR has a very high level of compliance with the  
 Basel Core Principles for Effective Banking Supervision. The Hong Kong Monetary Authority (HKMA)  
 complements its high supervisory standards with a sustained commitment to the international  
 regulatory reform agenda where it is an early adopter of many standards. The banking system is  
 characterized by the dominant presence of institutions with foreign ownership, including the  
 systemic banks, which puts a premium on the HKMA's role as a host supervisory authority.

The excessive risk-taking at banks might account for the failure of financial undertakings, as well as  
 to systemic problems in the European Union and around the world. The inappropriate design of  
 remuneration systems in many financial institutions is reported to induce such risk-taking. The EU  
 regulators have intervened through legislative measures which have been differently implemented  
 in Member States. Such legislative measures face critics due to the restriction in banks' freedom of  
 business. However, this book will point out that regulations are necessary and can be justified in  
 order to protect the common good of a sound functioning financial market. Nevertheless, the  
 effectiveness of current legislative provisions is challenged. Therefore, this book will critically  
 analyse the legislation of bankers' remuneration, focussing on relevant EU, UK and German  
 measures.

Addressing the practicalities of clinical supervision, this informative book follows the course of the  
 supervision process, illustrating each stage with an absorbing blend of information, opinion,  
 academic theory, anecdotal material, serious comment and thought-provoking exercises. Emphasis  
 is placed on the purpose and value of clinical supervision, but also on the potential pitfalls those  
 involved may encounter, and how they can be avoided. A number of theories and models are  
 discussed with reference to each stage of supervision, providing a thought-provoking basis for the  
 practical issues raised. Written in a lively and engaging style, this book will enable both supervisors  
 and supervisees to get the best they can from the supervisory experience.

Pastoral Supervision is increasingly sought out by people working in ministry. It offers a safe space to reflect theologically and constructively on pastoral experience. Pastoral Supervision: A Handbook

is the standard text for what is a growing discipline and endorsed by APSE, the Association of Pastoral Supervisors and Educators, which is now established as an accrediting professional body for all involved in supervision in a Christian context. Much has happened in the discipline since the first edition was published. The second edition contains • a new foreword • a new introduction written by the authors • a new chapter on the nuts and bolts of structuring a supervision session • a new chapter on embodied active supervision • literature updates and textual improvements to the extant chapters.
