Excerpt from Blair's Chronological and Historical Tables, From the Creation to the Present Time: With Additions and Corrections From the Most Authentic Writers; Including the Computation of St. Paul, as Connecting the Period From the Exode to the Temple The whole number assigned to this interval, or Inner Period, by St. Paul, is 450 years. The 479 years in 1 Kings vi., when the numbers which are common to both computations in Table III. Are withdrawn - the years of the Exode and the Division, before the Inner Period. Excerpt from Hand-Book of Chronology and History: The World's Progress, a Dictionary of Dates; With Tabular Views of General History, and a Historical Chart The alphabetical part of the volume gives, in most cases, more full and ample references to the same historical 'facts; but still the whole work is but an index to the sources of knowledge - a Diction ary of Dates. It has been planned so as to facilitate access to the largest amount of useful information in the smallest possible compass. There are some discrepancies among the authorities, as to names and dates - especially in the Middle Ages - and in some instances the dictionary varies from the tables; but these instances are not numerous or important. Historical facts about past empires exist in many books and preachers write reams of material from biblical prophesies predicting a one-world empire, but few scholars mention the staggering events that bridge the gap between the old empires and the colossal end-time empire. Many people shy away from talk about a troubled future, but this harsh and ruthless government is coming anyway. A wise person will study all bits and pieces of related information to avoid being surprised when the end-time happenings begin to unfold. The end-time government will be a continuation of the Holy Roman Empire (800), which was a union of church and state ruled by a Roman emperor and a Catholic pope. Through the United Nations this revived religious empire will force all the people of the earth to give total allegiance and support to the False Prophet, the Antichrist, and the one-world

government. Poisoned Wine bridges the gap between the former Holy Roman Empire and the endtime world government. It delves into the history of the Roman Catholic Church and the pope's union with the German king, forming the Holy Roman Empire. This Empire was suspended in 1806 but was revived by the victors of World War II. Globalism and Catholicism now saturate the nations of the earth. World imperialism is just around the corner. According to the biblical point of view, the Roman Catholic Church will be very involved with the end-time Holy Roman Empire. Caroline Davidson, a retired school teacher with a degree from UNT, has three daughters and twelve grandchildren. She and her husband live near Fort Worth, Texas, and enjoy outdoor activities such as walking, horseback riding, boating, and gardening. In the fall she usually goes to New Hampshire, her home state, to view the gorgeous multi-colored fall foliage. In summer she may go deep-sea fishing, picking berries, or collecting sand dollars and shells at the beach. However, eleven years ago things changed. She began to spend her spare time researching and writing a book. It began as a letter to explain the Apostolic doctrine to her eldest daughter who had grown up in church but could not distinguish the Apostolic doctrine from the Trinitarian doctrine. Soon it became evident that this explanation was far too lengthy to be contained in a mere letter. Thus, Poisoned Wine was born.

Excerpt from *The Chronological Historian, or a Record of Public Events, Historical, Political, Biographical, Literary, Domestic and Miscellaneous, Vol. 1 of 2: Principally Illustrative of the Ecclesiastical, Civil, Naval, and Military History of Great Britain and Its Dependencies, From the Invasion of Julius Caesar Facts, which lie scattered in various, and frequently expensive books, are collected in one view, under the reigns of the different Monarchs, and are arranged in succession, forming An Abstract and brief Chronicle of the Times. Works of this description have hitherto been too diffuse or too much epitomized: the Compiler of the present work has endeavoured to steer a middle course; by rejecting trifling and unimportant matter, he has retained all such prominent events, whether Political, Literary, or Domestic, as might fairly claim observance in a work of this nature. Excerpt from *Blair's Chronological and Historical Tables, From the Creation to the Present Time: With Additions and Corrections From the Most Authentic Writers, Including the Computation of St. Paul, as Connected the Period From the Exode to the Temple* The 'present Volume has been te-constructed from the folio Edition by a literary friend, who is disinclined at a late period of life, to appear publicly as the Editor of a critical Work. The thorough revision of the Manuscript, and its transit through the press, having been intrusted to myself, will justify my signature to the Preface, and may be taken to express my perfect confidence of its general accuracy and character. It ought not, however, to be forgotten, that the labour of carrying out the Tables (a task far more complicated than might be inferred from their symmetrical appearance), is to be ascribed entirely to my friend, to whom properly belongs the credit of having revived and enlarged a very valuable Work. *The Civil Service Chronology. The Chronology of History, Art, Literature and Progress, from the Creation of the World to the Conclusion of the Creation of the World to the Conclusion of the Franco-German War* Dog Ear Publishing

Excerpt from *The Every Day Book of History and Chronology: Embracing the Anniversaries of Memorable Persons and Events, in Every Period and State of the World, From the Creation to the Present Time* The object of this work, as will be seen, is to bring together the great events of each day of the year, in all ages, as far as their dates can be ascertained, and to arrange them chronologically. It has been necessary to observe brevity in its compilation, in order to reduce it within a proper compass. Hence notices of the most eminent men are often confined to two or three lines, while individuals of less note have occasionally received more attention, on account of the absence of ready reference to them in books. The dates are in accordance, it is believed, with the best authorities. Great care has been taken to make them so, and nothing has been inserted for which there was not at least some authority. Occasionally authors have been found to disagree in days, months, and even years, and it has been necessary to reconcile, as well as possible, such discrepancies. Much of this confusion arises from the change in the calendar; some authors following the old, others the new style, without informing us which they adhere to. The protestant countries did not all adopt the new style till 1717, about two centuries after the catholic authorities had reformed the calendar. The Russians still use the Julian era, and are now consequently twelve days behind the true time. With these difficulties in the way, no ordinary vigilance ensures an entire freedom from error in a work like this. The dates here, however, are made to conform to the new style as far as practicable. In some cases where different dates have been given, and it has been found impossible to determine the true one, the article has been inserted under different days with cross references. Repetitions have crept in however, which could only be discovered in preparing the index. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. *HAND-BK OF CHRONOLOGY & HIST*

In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered. Inquires like, 'How can a modern society scale back its dependence on gasoline as a motive source?' 'Are there genuine alternative power sources?' 'Are they the answer to a growing crisis?' Recent announcements of hybrids like those from Honda, Toyota, and Ford have really brought attention to this issue. Hybrids that use both gasoline engines and electric motors. Really, though, alternative power sources have been around for as long as the automobile has been. The battle between and among the steam car, the electric and the gas car was fought out in the first couple of decades of the twentieth century. This book explores the ins and outs of that battle. A struggle from which the gasoline car emerged completely victorious. To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades. We will look over all three alternatives, exploring their advantages and disadvantages. We

will also look over the obstacles to the steamers and the electrics. Barriers that still exist to a certain extent. Handicaps that caused their disappearance in the first place.
