Elegant data and ideas deserve elegant expression, argues Helen Sword in this lively guide to academic writing. For scholars frustrated with disciplinary conventions, and for specialists who want to write for a larger audience but are unsure where to begin, here are imaginative, practical, witty pointers that show how to make articles and books a pleasure to read—and to write. Dispelling the myth that you cannot get published without writing wordy, impersonal prose, Sword shows how much journal editors and readers welcome work that avoids excessive jargon and abstraction. Sword's analysis of more than a thousand peer-reviewed articles across a wide range of fields documents a startling gap between how academics typically describe good writing and the turgid prose they regularly produce. Stylish Academic Writing showcases a range of scholars from the sciences, humanities, and social sciences who write with vividness and panache. Individual chapters take up specific elements of style, such as titles and headings, chapter openings, and structure, and close with examples of transferable techniques that any writer can master.

*Academic Writing, Real World Topics* Addison-Wesley

Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. Each chapter features crafts for effective communication, authentic writing examples, practical applications, and reflective questions. Fang complements these features with self-assessment tools for writers and tips for empowering writers. Assuming no technical knowledge, this text is ideal for both non-native and native English speakers, and suitable for courses in academic writing, rhetoric and composition, and language/literacy education.

Introduction to Academic Writing McGraw-Hill Education

Academic Writing is a unique introduction to the subject. As the author puts it in her preface, "this book develops from a strong claim: namely, that style is meaningful." In developing that theme, the author draws meaningfully on theory, especially genre theory, while remaining grounded in the particular. Giltrow presents and discusses examples of actual academic writing of the sort that students must learn to deal with daily, and to write themselves. As newcomers to the scholarly community, students can find that community's ways of reading and writing mysterious, unpredictable and intimidating. Academic Writing demystifies the scholarly genres, shedding light on their discursive conventions and on academic readers' expectations and values. Throughout, Academic Writing respects the student writer; it engages the reader's interest without ever condescending, and it avoids the arbitrary and the dogmatic. The book also offers abundant exercises to help the student develop techniques for working productively at each stage of the scholarly writing process; mastering and summarizing difficult scholarly sources; planning; and revising to create good working conditions for the reader. The third edition of Giltrow's extremely successful book incorporates extensive revisions that integrate the theoretical perspectives of genre theory into the whole of the book in a more organic fashion; the changes are designed to make the book both more attuned to scholarly practice and more accessible to the undergraduate student. Giltrow's Academic Reading is designed as an accompanying reader for Academic Writing.

The book provides students with an introduction to the diversity, complexity and connectedness of writing in higher education today. Part I, a short Guide to Academic Writing, teaches rhetorical strategies and approaches to academic writing within and across the major divisions of the academy. For each writing strategy or essay element treated in the Guide, the authors provide examples from the reader, or from one of many resources included in each chapter's Suggested Additional Resources.
