 As a final year supervisor for twelve years on the degree, masters, and PhD, I have noticed time and time again students approached their thesis confused and unsure what is expected from them; and rightly so. What is involved in the write up of the final year thesis is not something students are introduced to during their studies. The structure, content, and format of a thesis are only understood by seeing good examples. A thesis is the largest assignment a student will ever likely to do and will resemble nothing they have done before. A final year thesis has

to demonstrate academic structure, content, and integrity, something that is not always presented clearly by supervisors. As a supervisor, I designed a handout to help and guide my students. This handout became very popular as students shared it with their friends. After many years of editing and improving my notes, I have decided to publish it as a book. The second edition of the book comes with more examples. Taking away the fear of the writing up and having the confidence that a great thesis is achievable has helped my students focus instead on finding creative, challenging, and inspiring projects.

A rediscovered classic of American nature writing: the poetic account of a solitary year observing the wild beauty of Cape Cod With an introduction by Philip Hoare A fragment of land in open ocean, the outermost beach of Cape Cod lies battered by winds and waves. It was here that the writer-naturalist Henry Beston spent a year in a tiny, two-roomed wooden house built on a solitary dune, writing his rapturous account of the changing seasons amid a vast, bright world of sea, sand and sky. Transforming the natural world into something mysterious, elemental and transcendent, Beston describes soaring clouds of migrating birds and butterflies; the primal sounds of the booming

sea; luminous plankton washed ashore like stardust; the long-buried, blackened skeleton of an ancient shipwreck rising from the dunes during a winter storm; a single eagle in the endless blue. With its rhythmic, incantatory language and its heightened sensory power, *The Outermost House* is an American classic that changed writing about the wild: a hymn to ancient, eternal patterns of life and creation. Henry Beston (1888–1968) was born in Quincy, Massachusetts and educated at Harvard. He wrote many books in his lifetime, including a memoir of his years in the volunteer ambulance corps in the First World War, an account of life in the US Navy and a book of fairy tales. *The Outermost House*, widely considered his masterpiece, was published in 1928. His Cape Cod house was named a National Literary Landmark in 1964, and it was destroyed by a huge winter storm in 1978.

An engagingly-written account of mathematical tools and ideas, this book provides a graduate-level introduction to the mathematics used in research in physics. The first half of the book focuses on the traditional mathematical methods of physics – differential and integral equations, Fourier series and the calculus of variations. The second half contains an introduction to more advanced subjects, including differential geometry, topology and complex variables. The authors' exposition avoids excess rigor whilst explaining subtle but important points often glossed over in more elementary texts. The topics are illustrated at every stage by carefully chosen examples, exercises and problems drawn from realistic physics settings. These make it useful both as a textbook in advanced courses and for self-study. Password-protected solutions to the exercises are available to instructors at www.cambridge.org/9780521854030.

Hailed as one of the greatest novels of all time and a classic of world literature, *War and Peace* is a tale of strivers in a world fraught with conflict, social and political change, and spiritual confusion, Tolstoy's magnificent work continues to entertain, enlighten, and inspire readers around the world. Both an intimate study of individual passions and an epic history of Russia and its people, 'War and Peace' is nothing more or less than a complete portrait of human existence. Among its many unforgettable characters is Prince Andrey Bolkonsky, a proud, dashing man who, despising the artifice of high society, joins the army to achieve glory. Badly wounded at Austerlitz, he begins to discover the emptiness of everything to which he has devoted himself. His death scene is considered one of the greatest passages in Russian literature. Terror swiftly engulfs the country as Napoleon's army marches on Russia, and the lives of three young people are changed forever. The stories of quixotic Pierre, cynical Andrey and impetuous Natasha interweave with a huge cast, from aristocrats and peasants, to soldiers and Napoleon himself. In *War and Peace* (1868-9), Tolstoy entwines grand themes—conflict and love, birth and death, free will and fate.

The purpose of this book English, like all languages, is full of problems for the foreign learner. Some of these points are easy to explain - for instance, the formation of questions, the difference between since and for, the meaning of after all. Other problems are more tricky, and cause difficulty even for advanced students and teachers. How exactly is the present perfect used? When do we use past tenses to be polite? What are the differences between at, on and in with expressions of place? We can say a chair leg - why not * a cat leg? When can we use the expression do so? When is the used with superlatives? Is unless the same as if not? What are the differences between come and go, between each and every, between big, large and great, between fairly, quite, rather and pretty? Is it correct to say There's three more bottles in the fridge? How do you actually say $3 \times 4 = 12$? And so on, and so on. *Practical English Usage* is a guide to problems of this kind. It deals with over 600 points which regularly cause difficulty to foreign students of English. It will be useful, for example, to a learner who is not sure how to use a particular structure, or who has made a mistake and wants to find out why it is wrong. It will also be helpful to a teacher who is looking for a clear explanation of a difficult language point. There is very full coverage of grammar, as well as explanations of a large number of common vocabulary problems. There are also some entries designed to clarify more general questions (e.g. formality, slang, the nature of standard English and dialects) which students and teachers may find themselves concerned with.

Reading as a student demands new skills and new disciplines. Students must read. They must read to inform themselves about the subjects they are studying and to allow them to write assignments, reports and dissertations. Though most students can read fairly well, few can make as much or as efficient use as possible of the time they devote to reading for academic purposes. Many guides to study offer a pot pourri of techniques for improving reading skills. None gives as full a treatment of this essential and underpinning area of academic life as *Reading at University*. The authors believe that students must change both the ways in which they read and the ways in which they think about reading. This book offers effective and efficient strategies for fulfilling students' reading and study potential.

Songs of Innocence and of Experience is an collection of poems by William Blake. It appeared in two phases. A few first copies were printed and illuminated by William Blake himself in 1789; five years later he bound these poems with a set of new poems in a volume titled *Songs of Innocence and of Experience Shewing the Two Contrary States of the Human Soul*. William Blake was also a painter before the songs of innocence and experience and made paintings such as Oberon, Titania, and Puck dancing with fairies. "Innocence" and "Experience" are definitions of consciousness that rethink Milton's existential-mythic states of "Paradise" and "Fall". Often, interpretations of this collection centre around a mythical dualism, where "Innocence" represents the "unfallen world" and "Experience" represents the "fallen world". Blake categorizes our modes of perception that tend to coordinate with a chronology that would become standard in Romanticism: childhood is a state of protected innocence rather than original sin, but not immune to the fallen world and its institutions. This world sometimes impinges on childhood itself, and in any event becomes known through "experience", a state of being marked by the loss of childhood vitality, by fear and inhibition, by social and political corruption, and by the manifold oppression of Church, State, and the ruling classes. The volume's "Contrary States" are sometimes signalled by patently repeated or contrasted titles: in *Innocence*, *Infant Joy*, in *Experience*, *Infant Sorrow*; in *Innocence*, *The Lamb*, in *Experience*, *The Fly* and *The Tyger*. The stark simplicity of poems such as *The Chimney Sweeper* and *The Little Black Boy* display Blake's acute sensibility to the realities of poverty and exploitation that accompanied the "Dark Satanic Mills" of the Industrial Revolution.

In this set of three essays, originally presented as the 2005 Hamlyn Lectures, Conor Gearty considers whether human rights can survive the challenges of the war on terror, the revival of political religion, and the steady erosion of the world's natural resources. He also looks deeper than this to consider the fundamental question: How can we tell what human rights are? In his first essay, Gearty asks how the idea of human rights needs to be made to work in our age of relativism, uncertainty and anxiety. In the second, he assesses how the idea of human rights has coped with its incorporation in legal form in the UK Human Rights Act, arguing that the record is much better and more democratic than many human rights enthusiasts allow. In his final essay, Gearty confronts the challenges that may destroy the language of human rights for the generations that follow us.

Though left uncompleted, "Kubla Khan" is one of the most famous examples of Romantic era poetry. In it, Samuel Coleridge provides a stunning and detailed example of the power of the poet's imagination through his whimsical description of Xanadu, the capital city of Kublai Khan's empire. Samuel Coleridge penned "Kubla Khan" after waking up from an opium-induced dream in which he experienced and imagined the realities of the great Mongol ruler's capital city. Coleridge began writing what he remembered of his dream immediately upon waking from it, and intended to write two to three hundred lines. However, Coleridge was interrupted soon after and, his memory of the dream dimming, was ultimately unable to complete the poem.
