Wit, Narrative, and  
Cosmic Origins in Ovid's  
Metamorphoses Wellred  
Books

What is race and why  
does it matter? Why does  
the presence of Others  
make us so afraid?

America's foremost  
novelist reflects on  
themes that preoccupy  
her work and dominate  
politics: race, fear,  
borders, mass movement  
of peoples, desire for  
belonging. Ta-Nehisi  
Coates provides a  
foreword to Toni  
Morrison's most personal  
work of nonfiction to date.  
**The Structural Origins  
of the Soviet**

## **Administrative State**

Vintage

Offering a fascinating  
biography of a  
foundational theory,  
Amadae reveals not only  
how the ideological  
battles of the Cold War  
shaped ideas but also how  
those ideas may today be  
undermining the very  
notion of individual liberty  
they were created to  
defend.

*British Factory, Japanese Factory* Red Globe Press  
 Fundamentals of International Migration is prepared as a textbook for undergraduate and postgraduate courses/modules. This book is a collection of articles and book chapters published in various journals and volumes carefully selected to cover a comprehensive range of topics and issues in contemporary human mobility. Students and tutors of the module would find it useful to guide and enhance

classroom discussions. There are 8 parts with 28 chapters. Each part of the book begins with a list of essential and further reading to offer a wide range of views and perspectives to the students of international migration. CONTENTS  
 PART 1: Introduction to Migration Studies Chapter 1. A record 65.3 million people were displaced last year: What does that number actually mean? - Jeffrey H. Cohen and Ibrahim Sirkeci Chapter 2. It is all about being happy in search of security -

Ibrahim Sirkeci Chapter 3. Europe's migration crisis: an American perspective - Philip L. Martin Chapter 4. Fleeing from the Global Compact for Migration: A missed opportunity for Italy - Chiara Scissa PART 2: Concepts and Theories in Migration Studies Chapter 5. A Missing Element in Migration Theories - Douglas S. Massey Chapter 6. Transnational mobility and conflict - Ibrahim Sirkeci Chapter 7. "Old" natives and "new" immigrants: beyond territory and history in

Kymlicka's account of group-rights - Darian Heim PART 3: Data and Methods in Migration Studies Chapter 8. Social Research Methods: Migration in Perspective - AKM Ahsan Ullah, Md. Akram Hossain, Mohammad Azizuddin, and Faraha Nawaz Chapter 9. Biographical methods in migration research - Theodoros Iosifides and Deborah Sporton Chapter 10. Strengths, Risks and Limits of Doing Participatory Research in Migration Studies - Diana

Mata-Codesal, Laure Kloetzer and Concha Maiztegi PART 4: Migration, Security, and Rights Chapter 11. Universalist Rights and Particularist Duties: The Case of Refugees - Per Bauhn Chapter 12. Bordering Practices across Europe: The Rise of "Walls" and "Fences" - Burcu Toğral Koca Chapter 13. Turkey's Refugees, Syrians and Refugees from Turkey: A Country of Insecurity - Ibrahim Sirkeci PART 5: Migration Politics, Law and Organisations Chapter 14.

Turkish Migration Policy at a Glance - Barbara Pusch and Ibrahim Sirkeci Chapter 15. Immigration and Civil Society: New ways of democratic transformation - Óscar García Agustín and Martin Bak Jørgensen Chapter 16. Immigration Policy in the European Union: Still bringing up the walls for fortress Europe? - Petra Bendel Chapter 17. The Case for a Foreign Worker Advisory Commission - Ray Marshall PART 6: Citizenship, Integration, and Diasporas Chapter 18. Migration and

Integration: Austrian and California Experiences with Low-Skilled Migrants - Gudrun Biffel and Philip L. Martin Chapter 19.  
 Integration of Syrians: Politics of integration in Turkey in the face of a closing window of opportunity - Onur Unutulmaz Chapter 20.  
 Citizenship and Naturalization Among Turkish Skilled Migrants - Deniz Yetkin Aker Chapter 21.  
 Westphalia, Migration, and Feudal Privilege - Harald Bauder Chapter 22.  
 Naturalisation Policies Beyond a Western focus -

Tobias Schwarz Chapter 23.  
 Wrestling with 9/11: Immigrant Perceptions and Perceptions of Immigrants - Caroline Brettell PART 7: Turkey's Migration Experience Chapter 24.  
 Syrian Crisis and Migration - Pinar Yazgan, Deniz Eroglu Utku, Ibrahim Sirkeci Chapter 25.  
 Demographic Gaps Between Syrian and the European Populations - Murat Yüceşahin and Ibrahim Sirkeci Chapter 26.  
 Turkish Migration in Europe and Desire to Migrate to and from Turkey - Ibrahim Sirkeci

and Neli Esipova PART 8: Contemporary Issues Chapter 27.  
 International Mobility, Erotic Plasticity and Eastern European Migrations - Martina Cvajner Chapter 28.  
 Coronavirus and Migration: Analysis of Human Mobility and the Spread of COVID-19 - Ibrahim Sirkeci and M. Murat Yüceşahin

**The Origins of Our Discontents** Good Press  
 J.R.R. Tolkien's novels of

Middle-earth – The Hobbit, The Lord of the Rings trilogy, and The Silmarillion – have become some of the most famous, and most beloved, literary works of the twentieth century. And the Lord of the Rings films by director Peter Jackson have re-ignited interest in Tolkien and his works, as well as introduced his stories to a new generation of fans. Even if you've never read the novels and have only seen the films, you know that the world of Middle-earth is a complicated

one. Tolkien took great care in representing this world, from creating new languages to including very particular cultural details that add to the richness of the world's fabric. Many other books have been written about Tolkien and his works, but none have come close to providing the kind of reference needed to comprehend the world of Middle-earth. That's what veteran Dummies author and unabashed Tolkien fan Greg Harvey attempts to do in *The Origins of Tolkien's Middle-earth For*

Dummies. As the author says in his introduction to the book, this is not an encyclopedia or quick guide to all the diverse beings, languages, and history that make up Tolkien's Middle-earth. Nor is it a set of plot outlines for the novels. Rather, what you'll find in *The Origins of Tolkien's Middle-earth For Dummies* is a basic guide to some of the possible linguistic and mythological origins of Middle-earth, plus a rudimentary analysis of its many themes and lessons for our world. This book

can help enrich your reading (or re-reading) of Tolkien's novels, and it will challenge you to think about the themes inherent in Tolkien's Middle-earth and their implications in your own life. Here's just a sampling of the topics you'll find covered in *The Origins of Tolkien's Middle-earth For Dummies: Exploring the main themes in Tolkien's works, including* immortality and death; the heroic quest; love; fate and free will; and faith and redemption. Investigating the diverse

lands of Middle-earth – including the Shire, Gondor, and Mordor – and their significance. Examining the different cultures of Middle-earth, such as Hobbits, Elves, Men, and those wily Wizards. Touring the history of Middle-earth. Understanding Tolkien's creation of new languages to enrich the story of Middle-earth. Top Ten lists on the battles in the War of the Ring, online resources, and the ways the films differ from the novels. So, whether you're reading Tolkien's novels

or watching the films for the first time, or you've been a fan for many years and are looking for a new take on Tolkien's works, *The Origins of Tolkien's Middle-earth For Dummies* can help you enhance your reading or viewing experience for years to come.

*Peace Operations* Oxford University Press  
Conklin's thesis is that the tradition of modern legal positivism, beginning with Thomas Hobbes, postulated different senses of the invisible as the authorising origin of

humanly posited laws. Conklin re-reads the tradition by privileging how the canons share a particular understanding of legal language as written. Leading philosophers who have espoused the tenets of the tradition have assumed that legal language is written and that the authorising origin of humanly posited rules/norms is inaccessible to the written legal language. Conklin's re-reading of the tradition teases out how each of these leading

philosophers has postulated that the authorising origin of humanly posited laws is an unanalysable externality to the written language of the legal structure. As such, the authorising origin of posited rules/norms is inaccessible or invisible to their written language. What is this authorising origin? Different forms include an originary author, an a priori concept, and an immediacy of bonding between person and laws. In each case the origin is

unwritten in the sense of being inaccessible to the authoritative texts written by the officials of civil institutions of the sovereign state. Conklin sets his thesis in the context of the legal theory of the polis and the pre-polis of Greek tribes. The author claims that the problem is that the tradition of legal positivism of a modern sovereign state excises the experiential, or bodily, meanings from the written language of the posited rules/norms, thereby forgetting the

very pre-legal authorising origin of the posited norms that each philosopher admits as offering the finality that legal reasoning demands if it is to be authoritative. Island of the Blue Dolphins Springer Science & Business Media "The Origin of Man and of His Superstitions" by Carveth Read. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to

forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Life Science (Teacher Guide) BRILL

"In this engagingly written and broadly interdisciplinary book, Jim

Hurford integrates findings from ethology and neuroscience with concepts from philosophy and linguistics to make an explicit and convincing case that animals have rich concepts, and thus that meaning predated language. This is a work of broad scope and significance." W. Tecumesh Fitch, Lecturer in Psychology, University of St. Andrews, from the bookjacket.  
Transition to Technocracy  
Oxford University Press  
In these reflections on the mercurial qualities of style

in Ovid's Meta-morphoses, Garth Tissol contends that stylistic features of the ever-shifting narrative surface, such as wordplay, narrative disruption, and the self-conscious reworking of the poetic tradition, are thematically significant. It is the style that makes the process of reading the work a changing, transformative experience, as it both embodies and reflects the poem's presentation of the world as defined by instability and flux. Tissol deftly illustrates that far from being merely

ornamental, style is as much a site for interpretation as any other element of Ovid's art. In the first chapter, Tissol argues that verbal wit and wordplay are closely linked to Ovidian metamorphoses. Wit challenges the ordinary conceptual categories of Ovid's readers, disturbing and extending the meanings and references of words. Thereby it contributes on the stylistic level to the readers' apprehension of flux. On a larger scale, parallel disturbances occur in the

progress of narratives. In the second and third chapters, the author examines surprise and abrupt alteration of perspective as important features of narrative style. We experience reading as a transformative process not only in the characteristic indirection and unpredictability of Ovid's narrative but also in the memory of his predecessors. In the fourth chapter, Tissol shows how Ovid subsumes Vergil's Aeneid into the Metamorphoses in an especially rich

allusive exploitation, one which contrasts Vergil's aetiological themes with those of his own work. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton

Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *Salem Possessed*

A study of the Puritan village and the people involved in the witch trials of 1692 provides insight into the causes and implications of this notorious episode in American history  
*Study Guide to Accompany Advanced Pediatric Assessment,*

*Third Edition Vintage*

The only certification study guide to focus on advanced infant and child health assessment This is the only study guide available focusing specifically on the specialized knowledge and skills required to conduct the pediatric health assessment. Designed to accompany the text *Advanced Pediatric Assessment*, it reinforces essential content through case studies and multiple choice Q&As that mirror the Pediatric Nurse

Practitioner Certification Exam format. The third edition includes new critical thinking exercises, case studies, and certification-style Q&As. It delivers a completely new chapter that covers clinical decision-making, formulating differential diagnoses, and evidence-based practice. It also provides SOAP notes for the well and abnormal exams. The third edition continues to deliver essential practice items for all aspects of the exam, along with sample documentation and a

space where students can practice their own subjective and objective findings. In addition, Anatomic Labeling Exercises reinforce knowledge essential to the APN role. Each chapter is formatted systematically for ease of use and includes chapter overview, learning objectives, essential terminology, case studies, the well child, the ill child/child with problem, multiple choice questions mirroring the exam format, SOAP notes for well and abnormal exams,

and answers. New to the Third Edition: Includes new critical thinking exercises, case studies, and certification-style exam questions Delivers completely new chapter addressing clinical decision making, formulating differential diagnoses, and evidence-based practice Provides SOAP notes for well and abnormal exams Key Features: Reinforces content for Advanced Pediatric Assessment with case studies and multiple choice Q&As that mirror certification exam format

Provides essential practice items for the exam Includes Anatomic Labeling Exercises to reinforce required knowledge Delivers essential terminology Offers sample documentation and space for students to practice their own documentation [The Origins of National Diversity in Industrial Relations](#) Springer Science & Business Media Embrace Yoga's Roots: Courageous Ways to Deepen Your Yoga Practice explores the yogic traditions of the

past, bringing them alive today, and preserving them for the future by examining what separates us, reflecting on our part, taking action for equity, and moving toward liberation together. The teaching format of this book offers tools, resources, and a framework for deep personal inquiry as readers explore: Separation: How colonization, cultural appropriation, and oppression results in trauma for yogis and separation from yoga

traditions. Reflection: Understanding the causes of separation and our individual roles either supporting separation (knowingly or not) versus creating unity and equity in yoga. Reconnection: Exploring specific and concrete skills and solutions for living and practicing yoga as unity. Liberation: Integrate a more honorable and ethical practice in your life supporting personal growth by following the ancient teachings. *Global Political Economy* New Leaf Publishing

Group  
Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention

paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). *The Origins of Meaning* Cambridge University Press  
Jaak Panksepp's life work has revealed that all mammalian brains are made up of 7 common

emotional systems - seeking, lust, rage, fear, care, grief, and play. This book provides an easy-to-understand explanation of the way in which these common systems guide emotional life in all mammals, including humans, and ties this information into clinical work by showing its relevance for understandings of human behavior and psychotherapeutic treatment. The book includes clinical material to show Panksepp's theories at work. Chapters

address animal affect, conditioned learning, the social emotional brain, self-preservation, fear and rage systems, and biological sources of values.

The Origin of Wealth

Courier Dover Publications  
With a new preface by the author Controversial in nature, this book demonstrates that the United States did not need to use the atomic bomb against Japan. Alperovitz criticizes one of the most hotly debated precursory events to the Cold War, an event that

was largely responsible for the evolution of post-World War II American politics and culture.

Fundamentals of International Migration

John Wiley & Sons

Marx's Capital was a book that revolutionised political economy and for the first time opened our eyes to the real workings of capitalism. It was, however, met with a wall of silence from the mainstream economists and the establishment. Despite this, Capital became regarded in the workers' movement as

the Bible of the working class... The aim of this book, written by authors from the International Marxist Tendency, is to help guide readers through the pages of volume one of Capital; to bring out the main themes and ideas contained within it; and to discuss the relevance of this great Marxist classic in terms of understanding the crisis-ridden world around us today - and, most importantly, how we can radically transform it. [Embrace Yoga's Roots](#)  
Princeton University Press

The new and fully-revised volume of hematologic molecular biology for practicing and trainee hematologists Molecular Hematology is a comprehensive resource for hematologists to increase their understanding of the molecular basis of various blood diseases, their pathogeneses, and current and emerging molecular research and therapies. The impact of molecular research on the field of hematology is significant—molecular techniques are continuing

to play a central role in the diagnosis and treatment of blood diseases. Molecular characterization of genes and proteins has increased our comprehension of the causes of hematological diseases and led to the development of new drug therapies and recombinant proteins. Now in its fourth edition, Molecular Hematology has been thoroughly revised and updated to reflect current advances in molecular research. Chapters introduce and

summarize specific disorders, such as hemophilia, anemia, and multiple myeloma, and illustrate the impact of molecular research on their diagnoses and treatments. Contributions written by respected clinicians and researchers offer accessible coverage of topics including lymphoma genetics, molecular coagulation and thrombophilia, platelet disorders, pharmacogenomics, and many others. Demonstrates the clinical relevance of molecular

biology in hematology Provides overviews of recent advances in cancer-cell biology, with an emphasis on leukemia and lymphoma Offers new and updated chapters written by an international team of experts in the field Presents new full-color charts, graphs, and illustrations Includes access to a Wiley Companion Digital Edition providing search across the book, downloadable illustrations and notation tools Molecular Hematology is an essential volume for both

trainee and practicing hematologists and oncologists, molecular biologists, and research scientists working in the field of hematology.

**A Record of Prehistoric Life** Harvard Business Press

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now,

world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal

engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.
