In this critically acclaimed Maine classic, first published in 1945, Helen Hamlin writes of her adventures teaching school at a remote Maine lumber camp and then of living deep in the Maine wilderness with her game warden husband. Her experiences are a must-read for anyone who loves the untamed nature and wondrous beauty of Maine's north woods and the unique spirit of those who lived there. In the 1930s, in spite of being warned that remote Churchill Depot was "no place for a woman," the remarkable Helen Hamlin set off at age twenty to teach school at the isolated lumber camp at the headwaters of the Allagash River. She eventually married a game warden and moved deeper into the wilderness. In her book, Hamlin captures that time in her life, complete with the trappers, foresters, lumbermen, woods folk, wild animals, and natural splendor that she found at Umsaskis Lake and then at Nine Mile Bridge on the St. John River.

Hidden away in the local library, a sorcerer's book casts an evil spell in a novel by the author of *The House with a Clock in Its Walls* Johnny Dixon and his best friend Fergie are whiling away a rainy day at the Duston Heights library when Johnny asks a screwy question: "What's the last book in the library?" After Johnny goes home, Fergie decides to find out. There, under number 999.99, he finds a very peculiar tome, *The Book of True Wishes*, which is all about Fergie's favorite subject: himself. The

book knows Fergie's name, and it promises him everything he ever wanted, which means he is about to forget a very important rule: Be careful what you wish for. When the book puts Fergie under the spell of a mad old wizard, Johnny and his friend Professor Childermass will do whatever it takes to break the book's hold and save their friend. Johnny Dixon and his eccentric professor friend are two of the most delightful characters in literature as well as "an endearing detective team," and their adventures continue to hold readers of all ages spellbound (The New York Times).

 Using minimal tools and a simple technique of bending, interweaving, and fastening together sticks, artist Patrick Dougherty creates works of art inseparable with nature and the landscape. With a dazzling variety of forms seamlessly intertwined with their context, his sculptures evoke fantastical images of nests, cocoons, cones, castles, and beehives. Over the last twenty-five years, Dougherty has built more than two hundred works throughout the United States, Europe, and Asia that range from stand-alone structures to a kind of modern primitive architecture--every piece mesmerizing in its ability to fly through trees, overtake buildings, and virtually defy gravity. *Stickwork*, Dougherty's first monograph, features thirty-eight of his organic, dynamic works that twist the line between architecture, landscape, and art. Constructed on-site using locally sourced materials and local volunteer labor, Dougherty's sculptures are tangles of twigs and branches that have been transformed into something unexpected and wild, elegant and artful, and often humorous. Sometimes freestanding, and other times wrapping around trees, buildings, railings, and rooms, they are constructed indoors and in nature. As organic matter, the stick sculptures eventually disintegrate and fade back into the landscape. Featuring a wealth of photographs and drawings documenting the construction process of each remarkable structure, *Stickwork* preserves the legend of the man who weaves the simplest of materials into a singular artistic triumph.

"*Nono's Kisses for Sephardic Children*" is Flori Senor Rosenthal's first of the Legacy and Literacy Scholastics Series. The book contains beautiful illustrations representing Ladino phrases. It was written to teach and encourage the usage of the Ladino language to children between the ages of 4 and 9. However, all ages will enjoy it and find it useful. Ladino or Judeo-Spanish is the language of Sephardic Jews. According to the United Nations, it is an endangered language. With each Ladino phrase found in the book, there is a question relating to its picture. This question, engages the parent and child into conversation. Ladino vocabulary words, pronunciations and English translations are provided to be used in these and other conversations and games

between parents and their children. To make the learning experience even more fun, there is a hidden butterfly, in every illustration, to be found by the child. Ms. Senor Rosenthal's father inspired her to write "*Nono's Kisses for Sephardic Children*". She wrote it to honor a tradition known specifically to Sephardic Jews. The book is an extraordinary teaching and learning tool for Ladino, and the Sephardic culture. However, those interested in the Spanish language and its history will also find this book interesting. Ms. Senor Rosenthal believes that her series will spark renewed interest in the Ladino language with the goal of having it removed from the endangered language list.

Peter Krasnow (1886-1979) is the great California modernist you don't know. Although revered during his lifetime by a coterie that included Edward Weston, Richard Neutra, Rudolph Schindler, Galka Scheyer, among others, Krasnow remained largely out of the public eye, cantankerously resisting publicity or self-promotion while dedicating himself to an artistic ideal. He demonstrated extraordinary skills in each of his three major phases: the early representational paintings and wood carvings (1910-1930), the abstract wood sculptures (1936-1943), and the hard-edged geometric and patterned paintings (1940-1979). The Bell, the Book, and the Spellbinder Penguin Group USA Designed as a practical desktop reference, this official publication of the American Society of Clinical Hypnosis is the largest collection of hypnotic suggestions and metaphors ever compiled. It provides a look at what experienced clinicians actually say to their patients during hypnotic work. A book to be savored and referred to time and again, this handbook will become a dog-eared resource for the clinician using hypnosis.

What would you do if you could smell, taste, hear, see and touch, but not know? What would you do if the only thing you could prove was how you felt? What would you do if the facts were in front of you, but nobody else could see them? What if you were innocent, but behind your back, people were plotting something bigger than high school drama? What would you have done differently to prevent it? Would you have told them the truth, or would you have tried harder to hide it? Not all of this is true, but the struggles are entirely real and based on an incredible true story. Not all of it happened exactly like this. But you get the idea, don't you? And just to let you know, when you think this is over, you'll be wrong. In reality, when two hearts stop beating, two souls will be together again. Or at least that possibility can exist because this is fiction isn't it? Author of "Soul"

Written by Tad James and Wyatt Woodsmall, Time Line Therapy and the Basis of Personality is a compelling study of the important elements that make up a person's core personality, and a detailed exploration of and introduction to how Time Line therapy works in practice. Utilizing discoveries made by Richard Bandler, Time Line

Therapy and the Basis of Personality expands and updates our knowledge of how people actually store their memories, and sheds light on the effect that the system used for memory storage has on the individual. The authors contend that the concept of Time Line, or the notion of time that you have stored in your mind, shapes and structures your experience of the world, and consequently shapes your personality. Time Line therapy is therefore based on the premise that the client goes back to the first time they remember a particular problem, does change work utilizing Neuro Linguistic Programming (NLP) to eliminate irritating behaviors or issues and, if necessary, goes to subsequent times when their behavior or response was a problem, and undertakes further change work to resolve it. Written in an informative and engaging manner, Time Line Therapy and the Basis of Personality offers readers the opportunity to see how Time Line therapy works providing a clear description of how to elicit the Time Line, and sharing step-by-step methods to subsequently help the client to release a limiting decision or trauma, remove anxiety, or set a future goal. All of these key aspects are explained using clear language and easy-to-follow steps, and the authors' expert commentary is further complemented by examples, exercises and transcripts in order to help the reader transfer the theory into effective practice. In Section I, the authors explain the NLP Communication Model and share their in-depth analysis of the filters values, beliefs, attitudes, decisions, memories and meta programs which we subconsciously use as we process the world around us and which form the basis of our personalities. Section II provides a comprehensive description of the Time Line and how it works: laying down a theoretical basis for the technique before offering insight into its practice and application with a demonstrative transcript of Time Line elicitation and change work in order to illustrate the concepts explored. In Section III the authors move on to carefully survey simple and complex meta programs (and how they can be changed) before exploring the formation, evolution and changing of values in Section IV, which includes a helpful exercise that gives guidance on how to elicit values from the client. Exploring many interesting contexts and how personality can be positively changed to help people live happier lives, Time Line Therapy and the Basis of Personality is a worthy addition to any therapist's or NLP practitioner's library and is suitable reading for anyone interested in behavioral change. Sections include: Section I Introduction; Section II Time Line Therapy; Section III Meta Programs; Section IV Values. Time Line Therapy and the Basis of Personality was originally published in 1988 by Meta Publications.
