### LYNN DEANDRE

**Discipline Specific Elective (DSE) Courses 'Accountancy and Financial Management - II' F.Y.B.Com.: Semester - II** Lulu.com  
 This volume includes contributions based on selected full papers presented at the 11th Pan-Hellenic and International Conference "ICT in Education", held in Greece in 2018. The volume includes papers covering technical, pedagogical, organizational, instructional, as well as policy aspects of ICT in Education and e-Learning. Special emphasis is given to applied research relevant to the educational practice guided by the educational realities in schools, colleges, universities and informal learning organizations. This volume encompasses current trends, perspectives, and approaches determining e-Learning and ICT integration in practice, including learning and teaching, curriculum and instructional design, learning media and environments, teacher education and professional development. It is based on research work originally presented at the conference, but the call for chapters was open and disseminated to the international community attracting also international contributions.  
**Technological, Pedagogical and Instructional Perspectives** GRIN Verlag  
 Eric Bittle may be a former junior figure skating champion, vlogger extraordinaire, and very talented amateur pâtissier, but being a freshman on the Samwell University hockey team is a whole new challenge. It is nothing like co-ed club hockey back in Georgia! First of all? There's checking. And then, there is Jack—his very attractive but moody captain. A collection of the first half of the megapopular webcomic series of the same name, Check,

Please!: #Hockey is the first book of a hilarious and stirring two-volume coming-of-age story about hockey, bros, and trying to find yourself during the best four years of your life.

 This book explores ways to prepare teachers to teach English as an International Language (EIL) and provides theoretically-grounded models for EIL-informed teacher education. The volume includes two chapters that present a theoretical approach and principles in EIL teacher education, followed by a collection of descriptions of field-tested teacher education programs, courses, units in a course, and activities from diverse geographical and institutional contexts, which together demonstrate a variety of possible approaches to preparing teachers to teach EIL. The book helps create a space for the exploration of EIL teacher education that cuts across English as a Lingua Franca, World Englishes and other relevant scholarly communities.  
[Helping Students Develop Important Life Skills](#) Routledge

The world's linguistic map has changed in recent years due to the vast disappearance of indigenous languages. Many factors affect the alteration of languages in various areas of the world including governmental policies, education, and colonization. As indigenous languages continue to be affected by modern influences, there is a need for research on the current state of native linguistics that remain across the globe. Indigenous Language Acquisition, Maintenance, and Loss and Current Language Policies is a collection of innovative research on the diverse policies, influences, and frameworks of indigenous languages in various regions of the world. It discusses the maintenance, attrition, or loss of the indigenous languages; language status in the society; language policies; and the grammatical characteristics of the indigenous language that people maintained and spoke.

This book is ideally designed for anthropologists, language professionals, linguists, cultural researchers, geographers, educators, government officials, policymakers, academicians, and students.

#### **The Power of Project-Based Learning** Academic Conferences Limited

This work presents and discusses the latest approaches and strategies for implementing Sustainability and Green IT into higher education and business environments. Following the global financial crisis in 2007/2008, businesses began to struggle coping with the increased IT/IS cost and their environmental footprint. As a consequence, action by universities to incorporate sustainability and 'Green IT' as parts of their teaching and learning materials, acknowledging their importance for global and local businesses, is being increasingly implemented. The book addresses the cooperation and coordination between academics and practitioners needed in order to achieve the changes required to obtain sustainability. Intended for researchers, lecturers and post-graduate students, as well as professionals in the Information Society and ICT and education sectors, and policy makers.

Communication, Management and Information Technology contains the contributions presented at the International Conference on Communication, Management and Information Technology (ICCMIT 2016, Cosenza, Italy, 26-29 April 2016, organized by the Universal Society of Applied Research (USAR). The book aims at researchers, scientists, engineers, and scholar students interested or involved in Computer Science and Systems, Communication, and Management.

#### Concepts, Methodologies, Tools, and Applications Microsoft Outlook 2013: Complete

A thoughtfully constructed syllabus can be transformative for your students' learning, communicating the path they can take to succeed. This book demonstrates how, rather than being a mundane document to convey policies, you can construct your syllabus to be a motivating resource that conveys a clear sense of your course's learning goals, how students can achieve those goals, and makes evident your teaching philosophy and why you have adopted the teaching strategies you will use, such as discussion or group activities. Developing or revising a syllabus also presents you with a perfect opportunity to review the learning possibilities for the semester. Well-designed, it can help you stay focused on achieving the learning outcomes, as well as determine if the class is on track and whether adjustments to the schedule are needed. The authors show how, by adopting a welcoming tone and clearly stating learning outcomes, your syllabus can engage students by explaining the relevance of your course to their studies, create an all-important positive first impression of you as an instructor, and guide students through the resources you will be using, the assignments ahead, as well as clear guidance on how they will be assessed. Referred to frequently as the course progresses, an effective syllabus will keep students engaged and on task. Christine Harrington and Melissa Thomas lead you through all the elements of a syllabus to help you identify how to present key messages and information about your course, think through the impressions you want to create, and, equally importantly, suggest how you can use layout and elements such as images and charts to make your syllabus visually appealing and easy to navigate.

#### ECGBL2015 Springer

These proceedings summarize the best papers in each research field represented at the 2016 Annual Meeting of the Human Factors and Ergonomics Society (GfA) in the German-speaking area, held at Institute of Industrial Engineering and Ergonomics of RWTH Aachen University from March 2-4. The meeting featured more than 200 presentations and 36 posters reflecting the diversity of subject matter in the field of human and industrial engineering. This volume addresses human factors and safety specialists, industrial engineers, work and organizational psychologists, occupational medicines as well as production planners and design engineers.

International Conference on Architectural Research - ICAR 2015 RESEARCH THROUGH ARCHITECTURE ISSN 2393 - 4433 ISSN-L 2393 - 4433

Descrierea CIP a Bibliotecii Naționale a României Re[search] through architecture / ed.: conferențiar dr. arh. Andra Panait. - București : Editura Universitară "Ion Mincu", 2015. - (International Conference on Architectural Research - ICAR 2015, ISSN 2393-4433, ISSN L-2393-4433) ISBN 978-606-638-112-3 I. Panait, Andra (ed.) 72 Graphic design: Andra Panait We acknowledge the help in preparing this volume to the following peoples: assoc.prof. Daniel Comșa, Arch.PhD; assoc.prof. Elena-Codina Dușoiu, arch.PhD; assoc.prof. Françoise Pamfil, arch.PhD; lecturer Marina Mihăilă, Arch.PhD; assist. Daniel ARMENCIU, Arch.PhD, assist. Oana DIACONESCU, Arch.PhD; assist. Mihaela ZAMFIR, Arch.PhD; assist. Raluca BOROȘ, Arch.PhD student. © "Ion Mincu" Publishing House Bucharest Introduction Under the title theme Re[Search] through Architecture, ICAR 2015 proposes a debate of the subject defining some new principles of nowadays architectural design. In the XXI-st century, in searching of a "style", after Postmodernism, it is considered that new architecture based on algorithms and parameters may offer new senses of space continuity and legibility. In opposite, the contextualist and phenomenologist movements consider this approach as a formal and fragile tendency, culturally un-sustained and which won't prove its consistence in time as utopist and futurist did. Topics like new avant-garde movement, stylistic searching, anachronistically architecture, space continuities and correspondences, lived architecture or experimental manifesto projects, the evolving of geometries, urban continuities or classical defragmentation, functional zoning, social impact scenarios, space formalization, aesthetic and symbolic design values, authentically or new built archaeology, sustainable design etc. will be presented and debated under three main sections: Traditional versus Computational, Innovation and Experiment, Archive - Utopia - Events. Built / Unbuilt. Prepare for the Next-Generation NCLEX-RN® Exam (NGN) and gain the clinical judgment skills you need to manage patient care safely and effectively! Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX-RN® Examination, 5th Edition is the first and the most popular NCLEX-RN Exam review book focused exclusively on building management-of-care clinical judgment skills. What's more, this bestselling review is now enhanced for the NGN with new NGN-style questions! Beginning with concepts relating to prioritization, delegation, and assignment decisions, the workbook guides you through patient care scenarios and exercises progressing from simple to complex. All of the book's questions are provided in an interactive online format on the Evolve website in tests that simulate the latest NCLEX-RN Exam. Written by a team of noted educators led by Linda A. LaCharity, this review prepares you for success on the NGN and in clinical practice like no other! Management-of-care focus addresses the emphasis on prioritization, delegation, and patient assignment in the NCLEX-RN® Examination. Three-part organization first establishes foundational knowledge and then provides exercises with scenarios of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. Part One: Introduction provides a concise foundation and practical guidelines for making prioritization, delegation, and patient assignment decisions. Part Two: Prioritization, Delegation, and Assignment in Common Health Scenarios provides practice in applying the principles you've learned to relatively straightforward health scenarios involving single patients or simple patient assignments. Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios includes unfolding cases involving patients with progressively more complicated health problems or challenging assignment issues, demonstrating the progression of typical health scenarios and helping you learn to "think like a nurse." Answer keys follow each chapter and provide the correct answer plus a detailed rationale. Practice quizzes on the Evolve website include all of the book's questions in an interactive format that allows you to create a virtually unlimited number of practice sessions or tests in Study Mode or Exam Mode. NEW and UNIQUE! Updated question formats prepare you to succeed on the Next-Generation NCLEX-RN® Examination (NGN) by including the latest item types and highlighting each with a distinctive icon. NEW and UNIQUE! Next-Generation NCLEX Questions chapter includes only NGN-style questions to help you focus your study time on these new question formats and optimize your chances for success on the NGN. NEW! Dozens of additional questions and answers provide more review and practice for the increasingly challenging NCLEX-RN Exam. NEW! Updated content throughout matches the latest evidence-based guidelines and treatment protocols.

The design and study of materials is a pivotal component to new discoveries in the various fields of science and technology. By better understanding the components and structures of materials, researchers can increase its applications across different industries. Materials Science and Engineering: Concepts, Methodologies, Tools, and Applications is a compendium of the latest academic material on investigations, technologies, and techniques pertaining to analyzing the synthesis and design of new materials. Through its broad and extensive coverage on a variety of crucial topics, such as nanomaterials, biomaterials, and relevant computational methods, this multi-volume work is an essential reference source for engineers, academics, researchers, students, professionals, and practitioners seeking innovative perspectives in the field of materials science and engineering.

#### *Handbook of Research on Academic Misconduct in Higher Education* ABC-CLIO

In the current educational environment, there has been a shift towards online learning as a replacement for the traditional in-person classroom experience. With this new environment comes new technologies, benefits, and challenges for providing courses to students through an entirely digital environment. With this shift comes the necessary research on how to utilize these online courses and how to develop effective online educational materials that fit student needs and encourage student learning, motivation, and success. The optimization of these online tools requires a deeper look into curriculum, instructional design, teaching techniques, and new models for student assessment and evaluation. Information on how to create valuable online course content, engaging lesson plans for the digital space, and meaningful student activities online are only a few of many current topics of interest for promoting student achievement through online learning. The Research Anthology on Developing Effective Online Learning Courses provides multiple perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization of education. This book includes topics focused on online learners, online course content, effective online instruction strategies, and instructional design for the online environment. This reference work is ideal for curriculum developers, instructional designers, IT consultants, deans, chairs, teachers, administrators, academicians, researchers, and students interested in the latest research on how to create online learning courses that promote student success.

**Blended Learning: Concepts, Methodologies, Tools, and Applications** John Wiley & Sons

Client-Centered Software Development: The CO-FOSS Approach introduces a method to creating a customized software product for a single client, either from scratch or by reusing open source components. The clients are typically non-profit humanitarian, educational, or public service organizations. This approach has been used in undergraduate courses where students learn the principles of software development while implementing a real-world software product. This book provides instructors, students, clients, and professional software developers with detailed guidance for developing a new CO-FOSS product from conceptualization to completion. Features Provides instructors, students, clients, and professional software developers with a roadmap for the development of a new CO-FOSS product from conceptualization to completion Motivates students with real-world projects and community service experiences Teaches all elements of the software process, including requirements gathering, design, collaboration, coding, testing, client communication, refactoring, and writing developer and user documentation Uses source code that can be reused and refitted to suit the needs of future projects, since each CO-FOSS product is free and open source software Provides links to a rich variety of resources for instructors and students to freely use in their own courses that develop new CO-FOSS products for other non-profits.

Introduce your students to the latest that Microsoft Office has to offer with the new generation of Shelly Cashman Series books! For the past three decades, the Shelly Cashman Series has effectively introduced computer skills to millions of students. With MICROSOFT OUTLOOK 2013, we're continuing our history of innovation by enhancing our proven pedagogy to reflect the learning styles of today's students. In this text you'll find features that are specifically designed to engage students, improve retention, and prepare them for future success. Our trademark step-by-step, screen-by-screen approach now encourages students to expand their understanding of MICROSOFT OUTLOOK 2013 through experimentation, critical thought, and personalization. With these enhancements and more, the Shelly Cashman Series continues to deliver the most effective educational materials for you and your students. Translingualism perceives the boundaries between languages as unstable and permeable; this creates a complex challenge for writing pedagogy. Writers shift actively among rhetorical strategies from multiple languages, sometimes importing lexical or discorsal tropes from one language into another to introduce an effect, solve a problem, or construct an identity. How to accommodate this reality while answering the charge to teach the conventions of one language can be a vexing problem for teachers. Crossing Divides offers diverse perspectives from leading scholars on the design and implementation of translingual writing pedagogies and programs. The volume is divided into four parts. Part 1 outlines methods of theorizing translinguality in writing and teaching. Part 2 offers three accounts of translingual approaches to the teaching of writing in private and public colleges and universities in China, Korea, and the United States. In Part 3, contributors from four US institutions describe the challenges and strategies

involved in designing and implementing a writing curriculum with a translingual approach. Finally, in Part 4, three scholars respond to the case studies and arguments of the preceding chapters and suggest ways in which writing teachers, scholars, and program administrators can develop translingual approaches within their own pedagogical settings. Illustrated with concrete examples of teachers' and program directors' efforts in a variety of settings, as well as nuanced responses to these initiatives from eminent scholars of language difference in writing, Crossing Divides offers groundbreaking insight into translingual writing theory, practice, and reflection. Contributors: Sara Alvarez, Patricia Bizzell, Suresh Canagarajah, Dylan Dryer, Chris Gallagher, Juan Guerra, Asao B. Inoue, William Lalicker, Thomas Lavelle, Eunjeong Lee, Jerry Lee, Katie Malcolm, Kate Mangelsdorf, Paige Mitchell, Matt Noonan, Shakil Rabbi, Ann Shivers-McNair, Christine M. Tardy

**Language Teacher Education and Technology** IGI Global

Quickly master English writing skills with THE LEAST YOU SHOULD KNOW ABOUT ENGLISH: WRITING SKILLS, Twelfth Edition. Brief and uncomplicated, this text has helped students learn the basics of English writing for more than 30 years with its clear, concise concept explanations and useful, relevant corresponding exercises. Topics include spelling, word choice, sentence structure, punctuation, paragraph, and essay writing-as well as more advanced skills such as argumentation and quotation. Check your work easily with exercise answers located in the back of the book, making it an excellent writing resource even after the course has ended. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Designing a Motivational Syllabus** Sang Surya Media

Language teachers' competencies in computer-assisted language learning (CALL) are a crucial factor affecting their own implementation of CALL. However, there is still a concern that many language teachers are not adequately prepared to make effective use of CALL or to identify and evaluate potential CALL solutions. This can be the result of many different factors and raises the question of how to train teachers to develop their CALL knowledge and skills to a greater degree. The discussion of approaches to training language teachers in the use of technology adopted in areas of Australia, the UK and the US provides valuable insights for those already involved in this area, and inspiration for those who have some interest in carrying out this kind of training, but as yet have little or no experience. This book explores the current status of CALL teacher education and discusses issues and challenges CALL teacher educators face in their own contexts. Specifically, it looks at postgraduate CALL courses offered at different universities to find ways of improving CALL teacher training. It represents the first overview of a topic that is relevant to most postgraduate courses in Applied Linguistics or TESOL across the globe. The use of technology for language learning and teaching is increasingly common but, as is so often the case, training for teachers in how to use that technology remains limited, to a large extent by lack of expertise among trainers.

**How to Become a Straight-A Student** Editura Universitara Ion Mincu, Bucuresti / Ion Mincu University Publishing House, Bucharest

This volume presents a comprehensive overview of multimodal approaches to curriculum and programmatic implementation across a diverse range of teaching environments and across geographic and cultural boundaries. Featuring contributions from scholars within and across both disciplines, the book examines the ways in which new technologies link to expanding definitions of literacy and, building on this, how multimodal approaches might most effectively address the unique opportunities and challenges instructors face in contemporary classrooms and professional development programs. Chapters draw on case studies from both existing scholarship and findings from the authors' own experiences in practice, including examples from writing, rhetoric, and composition courses, open online learning courses, and interdisciplinary faculty training programs. The final section of the book showcases how the conversation might be further extended to address increasingly multilingual classrooms by exploring how multimodality has been implemented in transnational settings. Engaging with key questions at the intersection of programmatic and curricular development and multimodal studies, this book is a fundamental resource for graduate students and scholars in multimodality, rhetoric studies, language education, applied linguistics, and communication studies.
