on prices and  
commodities, predicting  
market fluctuations and  
supply and demand. Part  
3 discusses the  
interpretation of eclipses  
and comets. Part 4 is an  
extensive look at  
chorography (assigning  
signs and planets to  
regions of the earth),  
including a complete  
discussion of climes and a  
guide to obscure place-

This book is written with the objective of understanding fundamentals of Mundane Astrology which are used to make predictions about nation, politics, whether, crops and natural calamities. Mundane Astrology is a branch of astrology where good-bad results and events of villages, cities, provinces, countries, health of people, financial, social and political situations, things, weather, earthquakes, winds-storms, natural calamities, contagious diseases, relationships of nations, crops etc are analysed. The financial, social and political situation of a country or province is sometimes very stable and sometimes it is totally fluid. The growth of a plant is not always the same although the land, seeds, fertilizer, water etc are same. During one year the production is sufficient while in another year it is poor in spite of good inputs. On one part of earth there are natural

calamities, agonies, turmoils. At the same time at another part there is peace and progress. These phenomena indicate that there is definitely some reason behind this mystery that at one place there is prosperity at one time but all of a sudden it is engulfed by strife. During one year the rains are heavy causing floods but in next year there is drought. Occasionally a commodity becomes expensive all of a sudden and sometimes its prices remain low for a long time. The knowledge of all these matters is obtained from Mundane Astrology. As there are elections on earth for selection of prime minister etc for establishment of a democratic government and qualifications abilities of elected persons influence the areas ruled by them, in the same manner every year a celestial council is formed by planets to run the world. In celestial council apart from king and minister there are 10 lords of 4 months crop, winter crops, weather and rains, juices, trades, metals, treasure, security and fruits-flowers. This book has been written after going through books compiled by great

scholars who were capable of knowing the happenings of 3 worlds such as Garg Samhita, Vrihatsamhita, Varahisamhita, Narpatirjayach, Savatsari Paddhati, Varshprabodh, Ardhmartand, Ardhprakash etc.

This book is Course 13 in the 21 Brotherhood of Light Course series by C. C. Zain on the Hermetic Sciences, Astrology, Alchemy, Tarot, Kabbalah and the Occult. Mundane astrology is the study of how astrological influences affect nations, cities, states, communities,

corporations and groups. Local and world trends can be studied through the use of mundane cycle charts of the major planets. This book is one of the rare technical manuals covering the astrology of world affairs. It teaches the student how to construct and interpret mundane cycle charts. It shows how to determine the timing of the birth of a corporation or nation-state. The book covers the cycles of Mars, Jupiter, Saturn, Uranus, Neptune and Pluto, giving many real-world examples of how aspects in the charts are linked to world events. The book provides examples of planets transiting through a sign and Major (secondary) progressed aspects in the birth charts of nations and cities. It also discusses Sun cycle charts, major conjunctions of the planets, moon cycles and eclipses. Abundant real-world examples of these cycle charts, their aspects and the associated events taken directly from the World Almanac, show how knowledge of astrological trends enable organizations and nation-states to take precautionary actions. MUNDANE Astrology has been much neglected by students. It is hoped that this little publication will draw their attention to this important branch of the science, for, after all, Nations, Countries and Cities are more important than Individuals. Up to the present very little has been written on the subject since Ramsey published his "Astrology Restored" in the seventeenth century. Mundane Astrology is a difficult subject, seeing that every District town or City is under a different Zodiacal influence, If this particular influence were known, it would be an easy matter to forecast the fate of any place. Our lack of knowledge of the exact place or locality governed by each degree of the Zodiac is the cause of the many failures in the Predictions relating to Mundane Events. [Mundane Astrology](#) K B Gopalakrishnan Will there be peace? Will there be war? Find out with Mundane Astrology. Here, in one volume, are three classic books on the astrology of nations and states, by H.S. Green, Raphael, and C.E.O. Carter: H.S. Green organizes his book planet-by- planet. He tells what each planet will do in the

12 houses. Raphael organizes the topic by house. He tells how mundane houses work when planets are in them. In addition, both authors deal with solar and lunar eclipses, and earthquakes. Green shows the effects of eclipses in the houses, while Raphael describes them by decanate (100 sections of the zodiac). Both mention the effects of comets, although little about these mysterious bodies is known astrologically. Charles Carter, writing after WWII, discusses why astrologers failed to predict the war and what that means for mundane astrology. His plea for better data has largely been met, but the need for more study remains. All three authors give astrological rulerships for countries and cities. These are centuries old and are weighted to England and Europe. Carter's rulers are the most up-to-date. These are the essential texts for serious study of mundane astrology. About the Authors H.S. Green was an astrologer associated with Alan Leo's astrological revival back in the first decade of the 20th century. His various books are highly regarded (all but this one out of

print, sadly), but biographical details are sketchy. Raphael was the pen-name of one Robert Cross, 1850-1923. He was the sixth in a series of astrological writers who used the name "Raphael" & remains the best known of them all. He wrote books on virtually all astrological topics. His book on mundane astrology dates from 1910. Charles E.O. Carter, 1887-1968, was one of the outstanding British astrologers of the 20th century. He succeeded Alan Leo as head of the Astrological Lodge of the Theosophical Society, a post he held from 1920 to 1952. He was editor of *Astrology, The Astrologer's Quarterly*, from 1926 to 1959. Carter's persistent genius reestablished astrology as a serious discipline in England, after two centuries of decline. He wrote his book on *Mundane Astrology* in reaction to the failure of astrologers to forecast WWII. In 1939, astrologers in London knew there was a full-scale war on in China, they knew the situation with Germany was tense, but they had studied the charts for the year, they knew the fuss would blow over. And they were wrong. Carter set

out to discover why, his book was the result. *Mundane Or National Astrology* light.org This is the thirteenth book in the 21 Brotherhood of Light Course series by C. C. Nadi astrology is the very first book of Astrologer Gopalakrishnan is an eye opener in the world of Nadi astrology. Many people has not understood the usage of transit in Nadi astrology. this was the first book which explains clearly on the usage of the major transit like Saturn , Jupiter Rahu and Ketu. the lagna was used as the important starting point of the transit. Earlier most of the astrologers were using the Chandra lagna as the important point of the transit. Also the lordship of the transit of the of the planet where used rather than the Rashi is in which the planets were translating. This has brought a lot of appreciation. There are various kinds of nadi which uses variety of techniques to predict. Of course the result can vary from nadi to nadi. For instance in Bhirugu Nandi Nadi the karakas are used for predictions like venus for marriage, jupiter for self. Meena nadi uses the nashaktra paddathi which was popularized by the K.P people. Also people do not use Nadi amsa. so this book covers everything. This book is an eye opener for many people who have been exposed to nadi astrology. Many

people think that some ancient rishis have written in old leaves about every one lives and there is lot of mystery shrouded in the nadi astrology. This book reveals the secret techniques used by the nadi readers in their day to day reading. These techniques are not available to the normal public or to the well known professional astrologer. USP of The Book First time a book in India explains the techniques of nadi astrology clearly. Any one who has basic knowledge of astrology can use it very well. one can give stunning prediction using these techniques. The rules of transit are different from what is given in other normal books The principles of the dasa bhukthi reading is simply stunning superb simple. One can read the horoscope with out time of birth. Many examples are given for each of the chapters.

The Text-Book of Astrology, written by noted English astrologer Alfred John Pearce, was first published as a combined edition in London in 1911. It includes the author's individual books on:

Genethliacal Astrology  
Mundane Astrology Astro-  
Meteorology Medical  
Astrology Elections This classic work is filled with numerous examples and its original publication was praised in the the Spiritualist: "Even for those who desire only to obtain a general knowledge of the subject, or at most be able to cast and read an astrological figure, Mr. Pearce's book may be recommended as easily intelligible, and containing much interesting matter, besides the process that will be chiefly useful to the student whose aims are more ambitious. To the latter it is invaluable. It is enriched with many interesting notices of nativities illustrating the different rules and doctrines of the science. "

*Mundane Astrology*

Deals with astrology of places, interprets historical trends and incidents in terms of the transits of the heavens.

*Revolutions & History*

The techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events, as in reality they only capture the last links in the chain of celestial causes that underlie them. In fact, the

primary causes of all events always and only reside in the Eighth Sphere, that is, in the sky of the constellations and fixed stars. In this book, the Stellar Astrology techniques are developed and applied to the real prediction of world events, but also to natal charts. Heaven and the stars that populate it are living beings. The various parts of the starry sky - constellations, parts of constellations (asterisms) and single stars - are not isolated, but communicate with each other, and therefore must be conceived as parts of a community, similarly to the relations between men who live on this earth. Indeed, our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds. And, just as happens between men and between specific groups of men, between some of these parts of the sky there are privileged relationships. This book explains which are the astronomical and astrological factors that highlight these ties of "kinship", thus also indicating the existence of similar relations existing between the things of the world linked to those

stars. It is a real science, based on rigorous criteria, and in this book it is illustrated by providing the student with a general method that he can then apply to any person, thing or event he intends to study in depth. It will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart. Only in this way astrology becomes what it should always be, that is, the sapiential matter par excellence, as the only one capable of explaining and demonstrating the true nature and origin of earthly reality.

Astrology of the World II: Revolutions & History is the second in a trilogy of translations in traditional mundane astrology, from Latin and Arabic astrologers. This volume focuses on astrological views of history, Saturn-Jupiter conjunctions, and interpreting mundane

ingresses. After an extensive Introduction with numerous charts and tables to help the modern reader, Part 1 provides short summaries and principles from medieval authors. Part 2 includes three works by Masha'allah (one from Arabic) on ingresses and conjunctive theory, as well as a lengthy work attributed to Abu Ma'shar which includes chart examples from Sahl. Part 3 contains a new translation of Abu Ma'shar's Flowers, with some corrections to the medieval text based on Arabic manuscripts. Finally, Part 4 contains a complete translation, from Arabic, of the mundane book of al-Rijal's (Haly Abenragel's) Book of the Skilled in the Judgments of the Stars. In Appendices, Dr. Benjamin Dykes provides modern tables of mean Saturn-Jupiter conjunctions as well as Saturn-Mars conjunctions in Cancer, and translations (from Arabic) of several mundane chart examples from Sahl b. Bishr, with historical commentary. Throughout, Dr. Dykes provides helpful introductory comments and analysis to aid the modern reader in this complex subject. It is a

must-have for traditional astrologers and historians of astrology.
