 Magnetism flows through your brain and body, as well as throughout time and space. Your mind can be magnetized with ideas that cause it to attract whatever you want. Just as your mind sends out magnetic wavelengths to cause you to desire food when you are hungry, so too, your mind can be magnetized with wavelengths of desire to attract money, possessions, friends, love, happiness, gifts, talents and everything you need to give you a perfect life here and now. This book gives you a proven step-by-step system for supercharging the powerful, money-pulling poles of your mind with money magnetism-the same power that geniuses

of the past have used, and our modern millionaires employ every day But here's the good part. You don't have to be a genius to put these secrets to work. Once you discover the simple methods and practices in this book, you too can magnetize your brain centers with ideas that irresistibly attract-almost as if by magic-money, lands, possessions, jewels, houses, friends-all the rich, fine and glittering things in life. This book is filled with real-life accounts of ordinary people-just like yourself-who've used these secrets to bring a floodtide of riches into their lives. You, too, have only to stir up the "mental filings" in your mind. The magnetic force is already there. You have only to use this book and, by so doing, turn on the switch that releases an unending stream of abundant riches-beginning right now. But don't take my

word for it. Let me prove this to you. **Think yourself Rich** David De Angelis Discover the secrets of written persuasion! "The principles of hypnosis, when applied to copywriting, add a new spin to selling. Joe Vitale has taken hypnotic words to set the perfect sales environment and then shows us how to use those words to motivate a prospect to take the action you want. This is truly a new and effective approach to copywriting, which I strongly recommend you learn. It's pure genius." - Joseph Sugarman, author of Triggers "I've read countless book on persuasion, but none come close to this one in showing you exactly how to put your readers into a buying trance that makes whatever you are offering them irresistible." -David Garfinkel, author of Advertising Headlines That Make You Rich "I am a huge fan of Vitale and his books, and Hypnotic Writing

(first published more than twenty years ago), is my absolute favorite. Updated with additional text and fresh examples, especially from e-mail writing, Joe's specialty, Hypnotic Writing is the most important book on copywriting (yes, that's really what it is about) to be published in this century. Read it. It will make you a better copywriter, period." -Bob Bly, copywriter and author of *The Copywriter's Handbook* "I couldn't put this book down. It's eye opening and filled with genuinely new stuff about writing and persuading better. And it communicates it brilliantly and teaches it brilliantly-exemplifying the techniques by the writing of the book itself as you go along." -David Deutsch, author of *Think Inside the Box*, www.thinkinginside.com "Hypnotic Writing is packed with so much great information it's hard to know where to start. The insights, strategies, and tactics in the book are easy to apply yet deliver one heck of a punch. And in case there's any question how to apply them, the before-and-after case studies drive the points home like nothing else can. Hypnotic Writing is not just about hypnotic writing. It is hypnotic writing. On the count of three, you're going to love it. Just watch and see." -Blair Warren, author of *The Forbidden Keys to Persuasion*

How to Become a Money Magnet Vintage
Originally published in 1983, this book presents both the technical and political information necessary to evaluate the emerging threat to world security posed by recent advances in uranium enrichment technology. Uranium enrichment has played a relatively quiet but important role in the history of efforts by a number of nations to acquire nuclear weapons and by a number of others to prevent the proliferation of nuclear weapons. For many years the uranium enrichment industry was dominated by a single method, gaseous diffusion, which was technically complex, extremely capital-intensive, and highly inefficient in its use of energy. As long as this remained true, only the richest and most technically advanced nations could afford to pursue the enrichment route to weapon acquisition. But during the 1970s this situation changed dramatically. Several new and far more accessible enrichment techniques were developed, stimulated largely by the anticipation of a rapidly growing demand for enrichment services by the world-wide nuclear power industry. This proliferation of new techniques, coupled with the subsequent contraction of the commercial market for enriched uranium, has created a situation in which uranium enrichment technology might well become the most

important contributor to further nuclear weapon proliferation. Some of the issues addressed in this book are: A technical analysis of the most important enrichment techniques in a form that is relevant to analysis of proliferation risks; A detailed projection of the world demand for uranium enrichment services; A summary and critique of present institutional non-proliferation arrangements in the world enrichment industry, and An identification of the states most likely to pursue the enrichment route to acquisition of nuclear weapons.

One of the most famous science books of our time, the phenomenal national bestseller that "buzzes with energy, anecdote and life. It almost makes you want to become a physicist" (*Science Digest*). Richard P. Feynman, winner of the Nobel Prize in physics, thrived on outrageous adventures. In this lively work

that "can shatter the stereotype of the stuffy scientist" (Detroit Free Press), Feynman recounts his experiences trading ideas on atomic physics with Einstein and cracking the uncrackable safes guarding the most deeply held nuclear secrets—and much more of an eyebrow-raising nature. I Am a Self-Made Millionaire Routledge
From the book: "There is only one thing you need to know when it comes to making money. Money is energy. The amount of money you have in your life is a direct reflection of the energy you hold within yourself. This is why there is no point trying to force things outside of yourself to happen so that you make more

money. It's true that the actions you take in your world are what's going to be the bridge for money to enter your bank account, but you must realize the actions you take are just bridges. In order to make the money you desire, you must energetically become a magnet to the energy of abundance. If you are in alignment and magnetized to that energy you will attract more than you could ever ask for once you build those bridges. What you need to know is how to bring in and manifest that energy inside of yourself. Building bridges is easy, unique to each individual, and will be something you're able to do intuitively. Too many of my children have the opposite approach. They see really successful people that have built nice bridges to bring in wealth and they try and build a similar bridge with no success. Don't get distracted by bridges. Just because it's something tangible the eyes can see doesn't mean it's your source. Focus instead on getting yourself to an energetic state where you become a magnet to abundance."
