Strategic Marketing Management (5th edition) offers a comprehensive framework for strategic planning and outlines a structured approach to identifying, understanding, and solving marketing problems. For business students, the theory advanced in this book is an essential tool for understanding the logic and the key aspects of the marketing process. For managers and consultants, this book presents a conceptual framework that will help develop an overarching strategy for day-to-day decisions involving product and service design, branding, pricing, promotions, and distribution. For senior executives, the book provides a big-picture approach for developing new marketing campaigns and evaluating the success of ongoing marketing programs. Culture pervades consumption and marketing activity in ways that potentially benefit marketing managers. This book provides a comprehensive account of cultural knowledge and skills useful in strategic marketing management. In making these cultural concepts and frameworks accessible and in discussing how to use them, this edited textbook goes beyond the identification of historical, socio-cultural and political factors impinging upon consumer cultures and their effects on market outcomes. This fully updated and restructured new edition provides two new introductory chapters on culture and marketing practice and improved pedagogy, to give a deeper understanding of how culture pervades consumption and marketing phenomena; the way market meanings are made, circulated, and negotiated; and the environmental, ethical, experiential, social and symbolic implications of consumption and marketing. The authors highlight the benefits that managers can reap from applying interpretive cultural approaches across the realm of strategic marketing activities including: market segmentation, product and brand positioning, market research, pricing, product development, advertising, and retail distribution. Global contributions are grounded in the authors' primary research with a range of companies including

Cadbury's Flake, Dior, Dove, General Motors, H&M, Hummer, Kjaer Group, Le Bon Coin, Mama Shelter, Mecca Cola, Prada, SignBank, and the Twilight community. This edited volume, which compiles the work of 58 scholars from 14 countries, delivers a truly innovative, multinationally focused marketing management textbook. Marketing Management: A Cultural Perspective is a timely and relevant learning resource for marketing students, lecturers, and managers across the world.

Services Marketing and Management provides an in-depth consideration of how services are conceptualized, designed and managed, creating the basis for a clear understanding of the multi-dimensional aspects of services. Unlike many textbooks on services marketing this book puts services management and delivery in context. Firstly, it explores the effect of organizational structures, management styles, internal marketing and management competencies on service management decision making and implementation. Secondly, Services Marketing and Management considers detailed examples of not-for-profit and for-profit service organizations and service delivery. Finally, this text addresses contemporary issues for services managers and speculates on some of the challenges for the future of services marketing. This textbook is designed for postgraduate and MBA students of services management and services marketing courses as well as undergraduates.

A Preface to Marketing Management Addison-Wesley

"No doubt about it, marketing is really changing. Marketing today is: Very strategic-customer-centricity is now a core organizational value. Practiced virtually, digitally, and socially to a greater degree than ever before imagined. Enabled and informed by analytics and new technologies. Accountable to top management through diligent attention to metrics and measurement. Oriented toward service as driver of product. "Owned" by everybody in the firm to one degree or another"--

Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships - except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

The overall success of an organization is dependent on how marketing is able to inform strategy and maintain an operational focus on market needs. With an array of examples and case studies from around the world, Lancaster and Massingham's vital study offers an alternative to the traditional American focused teaching materials currently available. This second edition has been fully revised and updated, including a new chapter on digital marketing written by Dr Wilson Ouzem. Topics covered include: consumer and organizational buyer behaviour product and innovation strategies direct marketing Social media marketing Designed and written for undergraduate, MBA and masters students in marketing management classes, Essentials of Marketing Management builds on the successful earlier edition to provide a solid foundation to

understanding this core topic.

This textbook provides students with an essential introduction to the theoretical underpinnings and practicalities of managing the marketing of events. In order to market events effectively, it is vital to consider marketing of events from the organiser's perspective and to link it to that of the consumers attending events. As such, this is the first book on the topic which reflects the unique characteristics of marketing in the Events industry by exploring both sides of the marketing coin - the supply and the demand - in the specific context of events. The book takes the reader from core marketing mix principles to exploring the event marketing landscape to consumer experience and involvement with event marketing and finally strategies and tactics employed to manage the marketing activities related to events. The use of technology, importance of sponsorship and PR are also considered. International case studies are integrated throughout to show practical realities of marketing and managing events and a range of useful learning aids are incorporated to aid navigation throughout the book, spur critical thinking and further students' knowledge. This accessible and comprehensive account of Events Marketing and Management is essential reading for all students and future managers.

Marketing Management in Africa Pearson Higher Ed

This book focuses on strategies for developing consumer markets in Africa using concepts and techniques from marketing, entrepreneurship, and project management. The authors argue that entrepreneurial activity in Africa is rapid, but limited, and requires a structured approach to drive success. Beginning with an introductory chapter that frames the socio-economic and technological developments in Africa, readers are introduced to the conceptual model that provides this structured approach in four logical parts: The creative stage Entrepreneurial and enterprise activities Understanding consumer behavior and market segments A project management-based framework. This multidisciplinary approach is supplemented with many examples and cases from a variety of sectors including health care, wind and solar power, and mobile technology. Through these, readers are able to understand how the model is implemented in reality to drive innovative economic and social development. Marketing Management in Africa will prove a valuable companion to any student of marketing or entrepreneurship with a particular interest in Africa.
