She finds shelter with an old friend, Anna Zenner, but it is not the haven of security she needs when she discovers that Anna has been sub-poenaed to appear before a Grand Jury which is investigating Scarpetta for murder. Kay knows she is being framed and she also knows she can trust no-one. Meanwhile it appears that Chandonne killed a woman in New York before his murderous spree in Virginia, but when Scarpetta looks more closely into that case with the NY prosecutor Jaime Berger, proof of his guilt is far from certain - in fact she begins to believe that he may not be the perpetrator of any of the crimes he is accused of. As she follows the forensic trail to the real killer she gradually

realises that someone has been spinning a web for years with the aim of entrapping her. Who is it, and why are they so desperate to be rid of her? Then she receives news that chills her to the core: Jean-Baptiste Chandonne—the vicious and unrepentant Wolfman who pursued her to her very doorstep—has asked to see her. From his cell on death row, he demands an audience with the legendary Dr. Scarpetta. With her friends and family by her side, Scarpetta tries to guess what sort of endgame this madman has in mind—how, if at all, it's related to the Louisiana case—and then confronts the shock of her life: a blow that will force her to question the loyalty and trust of all she holds dear...

The First Scarpetta Collection Penguin

With high-tension suspense and cutting-edge technology, Patricia Cornwell—the world's #1 bestselling crime writer—once again proves her exceptional ability to entertain and enthrall in this remarkable novel featuring chief medical examiner Dr. Kay Scarpetta. On her quest to find out

exactly what happened to her former deputy chief, Jack Fielding, murdered six months before, Scarpetta drives to the Georgia Prison for Women to meet a convicted sex offender and the mother of a vicious and diabolically brilliant killer. Against the advice of her FBI criminal intelligence agent husband, Benton Wesley, Scarpetta is determined to hear this woman out. Scarpetta has both personal and professional reasons to learn more about a string of grisly killings: the murder of a Savannah family years earlier, a young woman on death row, and then other inexplicable deaths that begin to occur at a breathtaking pace. Driven by inner forces, Scarpetta discovers connections that compel her to conclude that what she thought ended with Fielding's death and an attempt on her own life is only the beginning of something far more destructive: a terrifying terrain of conspiracy and potential terrorism on an international scale. And she is the only one who can stop it.

The Bone Bed Penguin

Postmortem introduces Dr. Scarpetta, who knows the smell of bone dust from a skullcap saw and how to read a body for clues via lasers, DNA, and computers. As Scarpetta slowly closes in on a killer known as Mr. Nobody, she gets the creepy, well-informed feeling that the killer is closing in on her. Cornwell's debut swept the mystery-writing awards and made her somebody. In *Body of Evidence*, Scarpetta investigates the murder of a Southern writer who mysteriously opened the door for her killer. In *All That Remains*, she hunts a serial killer of young lovers—including the daughter of the president's drug czar, which complicates the forensic chase with political intrigue. Besides suspenseful cat-and-mouse games between sleuth and killer (and writer and reader), Cornwell creates a rich cast of screwed-up characters, chiefly Scarpetta's scruffy confrere, Detective Pete Marino. Scarpetta's character is a magnetic combination of pride, drive, brains, extreme skill at cooking, and a pervasive sadness expressed with tightly wound eloquence.
