Caterpillar Forum - 3126 Starting Problems (3186) on 2008 ... 3126 Cat Engine Oil Pressure when we start the engine and the RPM is 800, cooling temp. is around 30C and the oil pressure is 50 psi. when the engine is in the operation temp. 80-100 C and the oil pressure in this time is 25-20 psi and the warning low oil pressure light is on with RPM 800 and the engine still running after that we increase the engine speed to full throttle and back to normal RPM the engine is shutdown and can not

started immediately but after 2-3 minutes the engine starts normal. I have a 3126 Cat engine with low oil pressure in normal ... With the engine at operating temperature (using SAE 10W30 oil), at 750 to 850 rpm low idle, minimum oil pressure is 100 kPa (15 psi). With the engine at operating temperature (using SAE 10W30 oil), under full load condition, maximum oil pressure is 600 kPa (88 psi). 3116 and 3126 Truck Engines Measuring Engine Oil Pressure ... For accurate engine oil pressure readings, try Dorman's replacement Caterpillar 3126 engine oil pressure sensor. Replacement of the sensor will help protect your vehicle from being

driven at a low oil pressure. Avoid costly engine repairs and maintain performance with this semi truck part or any of our other truck sensors. Free Shipping. Engine Oil Pressure Sensor | Caterpillar 3126 | 904-7012CAT 3126 WITH LOW OIL PREASURE. It has 107000 miles on it. i just got it. Preasure is about 3/16 in up on the guage above thje red line when cranked. Gets righty to the line when it is warmed up. It has an oil leak. Not sure exact cause but suspect from the rear Main seal. SN is1WM06538. Runs fine and strong. No coolent loose. Doesn't run hot.CAT 3126 WITH LOW OIL PREASURE - JustAnswerAuthor Topic: 3126B oil pressure low (Read 4153 times) Our older 3126 behaves the same way. The oil pressure apparently is higher at start-

up because the oil is at ambient temperature and is thicker. As the oil heats up, the pressure drops. When idling after a long haul, the pressure may go way down. On our 1996 Beaver Monterey,...3126B oil pressure low - Diesel RV Club, an FMCA ChapterCat 3126 They replaced fuel filters, batteries, changed eng. Oil, heui pump before finding problem. Got someone with Real laptop not a hand held code reader. Bad high pressure oil sensor, sending 300 pressure to ECM . Plugged off oil line from heui pump with gage pump developing 6000 pressure, replaced sensor working fine.Caterpillar Forum - 3126 Starting Problems (3186) on 2008 ...ok, 66,000 miles. last oil change 1000 miles previous.
