An Introduction Pharmaceutical Press

This book examines the question of what makes one design environmentally preferable to another. Graedel discusses data and analyzes the streamlined life-cycle assessment process in the context of the goals of a particular process or product. FEATURES Discusses environmental objectives as the basis of life-cycle assessment. Focuses on streamlined LCAs, a technique common in industry today. Includes unique coverage of the assessment of societal infrastructures (Ch. 12). Ends with a hypothetical discussion of what an environmentally perfect product might look like. Includes useful checklists for performing SLCA.

Hello, Garden Bugs Atria Books

Ladybugs, snails, and butterflies! Oh my! This charming introduction to ten garden bugs, paired with friendly text and bold, basic patterns, provides a great high-contrast experience for young developing eyes. Newborns cannot fully recognize colors, so the sharp contrast between black and white patterns and illustrations allows babies to follow along and make connections to the real world, an important building block for communication skills. Using simple greetings like "Hello, bumblebee" and "Good to see you, dragonfly" alongside black-and-white art by Julissa Mora, *Hello, Garden Bugs* is the perfect board book for babies just beginning to look around and learn about their world. Featured in *Omnivoracious*. Also available: *Hello, Baby Animals* and *Hello, Ocean Friends*. Coming soon: *Hello, My World*.

Analyzes construction of experiments, focusing on variables, models, matrices, and reproducibility. This timely reference systematically examines the basic concepts and theoretical issues, methodologies for experiment and measurement, and practical health applications of emulsions and dispersions—describing formulation problems and identifying potential carriers for the delivery or targeting of new drugs. Evaluates anionic, cationic, and nonionic surfactants as dispersing, emulsifying, foaming, penetrating, and wetting agents. Written by more than 20 international researchers, *Pharmaceutical Emulsions and Suspensions* discusses uses of macroemulsions and (submicron) microemulsions illuminates delivery devices such as microparticles, nanospheres, liposomes, and mixed micelles investigates the application of self-emulsifying drug delivery systems (SEDDS) introduces techniques for increasing drug solubility with nanosuspensions addresses stabilization,

flocculation, and coagulation problems in pharmaceutical and cosmetic suspensions surveys drug delivery by way of dermatological, follicular, and ocular routes explains the pharmacodynamics, bioavailability, and pharmacokinetics in the drug formulation development process compares and contrasts monomeric and micellar adsorption at oil-water interfaces and more! Containing over 1800 references, tables, equations, drawings, and micrographs, *Pharmaceutical Emulsions and Suspensions* is an ideal resource for pharmacists; physical, surface, colloid, cosmetic, food, and agricultural chemists; and upper-level undergraduate and graduate students in these disciplines.

Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Moana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

The World Is No Longer Flat Culo is an art, fashion, and pop-culture movement that defies all national, cultural, and linguistic boundaries. No matter if you were raised to call it derriere, tush, rear end, or booty, culo is the new epicenter of female sexuality, desire, and empowerment. Over the past decade, some of the world's most celebrated women have subtly shifted our long-held ideals of physical perfection toward a shape that is more authentic and bold. While culo has long been venerated in certain cultures, it is now becoming the object of worldwide mainstream admiration. This emerging global love affair with culo is as much about the blending of African, Latin, European, and Asian beauty as it is about celebrating the female form's most coveted asset. Culo by Mazucco pays tribute to this phenomenon through a singular artistic vision. In more than 200 photographs and artworks created on location around the world, a diverse group of women—some already legendary, some about to become so—embody the spirit of culo and the start of a new era of beauty. *An annual survey covering the literature dated December 1992 to November 1993* S. In Tom Kundig: *Works*, the celebrated Seattle-based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles, door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making Tom Kundig: *Works* as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmologist" Phil Turner and contractor Jim Dow (Schuchart/ Dow)—and clients (Bigwood Residence and Studhorse).

Effective Academic Writing Physicochemical Principles of Pharmacy In Manufacture, Formulation and Clinical Use Students and faculty alike have attested to the extraordinary success rate of the Lippincott's Illustrated Reviews -- the unparalleled review texts that clarify the essentials students need to know for the Boards through an easy-to-use outline format. Now, this review series offers this updated Millennium Edition of Lippincott's Illustrated Review: Pharmacology, Second Edition that includes an updated and comprehensive insert containing information on important new drugs introduced since 1996. The index has been fully revised to reflect the additional information

found within the text. Designed and edited by top educators, the book helps the student tie together the visual and cognitive elements of learning for superior recognition and recall. Many updated figures and tables, carefully crafted to complement and amplify the text, are completely integrated with the text. Infolink cross-references between the Pharmacology and Biochemistry volumes of the series, enabling students to interrelate the two disciplines.
