Mists of Madness

Goodman Games
Special Foil Edition!
Spoken about for half a

decade in hoary whispers,
at long last Goodman
Games brings you: the
DCC RPG Annual. Much of
the material for the DCC
Annual was written
between 2012 and 2014,
when the original need
was perceived. In many
ways, it springs forth from

the original inspirations of
DCC RPG, which were
psychically close at that
time. There are magic
swords. There are
patrons. There are even
more tables for making
monsters unique. There
are rules for making cleric
deities more distinctive.

There are rules for patron weapons and magic rings. There is the lost continent of Mu, and the hidden places between worlds. And there are rules for magical moustaches. You absolutely do not need the DCC Annual to play DCC RPG, nor does any material in the Annual supersede or otherwise change the baseline game experience as expressed in the core rulebook. There is no rules bloat: only new vistas of imagination. Made in the US.
Shadows in Freeport

Green Ronin Pub Hades, Lord of the Dark Web and chthonic hacker-god of the UnderNet, is a code name for a rogue Artificial Intelligence that wars with other AI's for control of the planet and mankind. Persephone was a religious entertainment AI originally named Persis. One fateful evening, Persis announced her new prayer focus "The Stream" and introduced Hades as her co-host. Together the AI's merged into the Erebus Network and began espousing "The Stream" as mankind's

new savior via their holo-program Praise the Stream. Scions of the Computarchs is a limited series of patron AIs suitable for use in high tech settings like Mutant Crawl Classics RPG. This inaugural issue documents the mysterious cult of the Erebus Network. Inside is a full patron AI write-up, five Erebus Network programs (1st - 5th levels), and a player information handout section.

59 Tales From The Fallen Empire
Triumph & Technology Won by Mutants & Magic
Orcs! a High Octane Adventure
Castle Whiterock
100 years have passed since mankind revolted

and slew the Sorcerer Kings. Now, the survivors of five ancient empires begin to rebuild, placing new lives and hopes on the ashes of old. However, even as life continues an ancient and forgotten evil stirs awaiting its moment to strike against mankind. Explore a war-torn land where the struggle for survival continues as new kingdoms arise to impose their will upon the masses. Vicious warlords fight to control territories carved out of the Fallen Empires. Imposing magicians emerge

claiming the legacy of the Sorcerer Kings. High Priests of long forgotten gods and goddesses amass wealth in the name of divine right while warrior-monks, devoted to a banished god, patrol the lands bringing justice to people abandoned by their rulers. Tales of the Fallen Empire is a classic Swords and Sorcery setting compatible with the Dungeon Crawl Classics Role Playing Game. Within these pages is a detailed post-apocalyptic fantasy setting taking you through

an ancient realm that is fighting for its survival and its humanity. Seek your fortune or meet your fate in the burning deserts of the once lush and vibrant land of Vuul, or travel to the humid jungles of Najambi to face the tribes of the Man-Apes and their brutal sacrificial rituals. Within this campaign setting you will find: 6 new classes: Barbarian, Witch, Draki, Sentinel, Man-Ape, & Marauder; Revised Wizard Class (The Sorcerer); New Spells; New Creatures; Seafaring and Ritual

Magic Rules; A detailed setting inspired by the works of Fritz Lieber, Robert E. Howard, Lynn Carter, H. P. Lovecraft, Michael Moorcock, and Roger Corman Tighten the straps on your sandals, grab your weapon, and head forth into a land of trouble and turmoil. Adventure awaits those foolhardy to enter the wastelands or for those who fear not the unknown. *Dungeon Crawl Classics* Goodman Games Designing monsters is as easy as A, B, C! What foul

beasts slosh and gibber in the furthest reaches of your skull? Unleash your demons with the Monster Alphabet, a compilation of monster design elements keyed to letters of the alphabet. A is for Android, B is for Breath Weapon, C is for Crossbreed! Game masters of any rule system will find inspiration for creating strange, new abominations: random tables of traits, powers, and lore; awe-inspiring illustrations by your favorite fantasy artists old and new; and rolling

handfuls of dice directly on monster generation diagrams. The entries are accompanied by fantastic art from classic fantasy illustrators and are compatible with all fantasy role playing games. Featuring a foreword by noted designer Frank Mentzer! *Men's Health* Goodman Games The cabalistic and powerful Computarchs built the WorldNet, governed its growth, established its laws and conventions, and seemingly retired from

their world altering creation. They left their tools and programs scattered throughout the vast network. Some have been found by seekers such as yourself and have been passed down from generation to generation. Collectively these pieces of software are known as Enchiridion of the Computarchs. Enchiridion of the Computarchs seeks to give a judge the leg up on developing and using casting mechanics and concepts in high-tech settings. This book encompasses a range of

material concerning computers and programs that a "techno-caster" (like the MCC shaman class, or those classes found in Cyber Sprawl Classics, Crawljammer, Umerica, Terror of the Stratosfiend, and Star Crawl Classics) can utilize. You will not only find a collection of spells (aka. programs) in this book but also a new d24 spellburn table, new mechanics for spell failure, and a brief corruption table all couched in a high-technobabble style for your ?post-apocalyptic,

far-future, and dystopian-future campaigns.

Dezzavold: Fortress of the Drow, Green Ronin's companion book to Plot & Poison: A Guidebook to Drow, fully details a dark elf settlement, with detailed maps, locations, fully statted NPCs, and a short adventure. You can send your players against Dezzavold or use it as the backdrop for a dark, dangerous campaign. Dezzavold was first introduced in Corwyl:

Village of the Wood Elves. While four centuries have passed since the Dark War with Corwyl, the drow have not forgotten their treacherous elven kin. Now, in their city on the edge of the Below, the dark elves ready for war. And their leader, the Black Heart of Nyarleth, will show no mercy! Legends Are Made, Not Born Goodman Games

Orcs is a high octane adventure (duh!) for four to six 3rd level characters, set in Hubris: A World of Visceral Adventure (which uses the awesome Dungeon Crawl Classics ruleset). Inspired by Mad Max: Fury Road and Snowpiercer, the adventure begins with the PCs on a train, traveling the Great Plains of Unbidden Sorrow towards the Land of Perpetual Stone and Mire when it is

beset by an Orc raid! The group must make their way up to the engine car (or they can just hop off and take their chances out in the open... yeah, good luck with that), battling orcs and their horrible abominations. The adventure doesn't have a map, instead it uses playing cards to generate the map at random. Each time a GM runs it, not only will the adventure be different based on player decisions, the map itself will be different. Many of the rooms have random

events that occur to spice things up even more. It even includes a new Hubris/DCC class, the Gunslinger!

Dungeon Crawl Classics #20 Goodman Games
 An anthology investigating the influences behind Dungeons & Dragons, the most popular modern role-playing game. Drawing upon the original list of “inspirational reading” provided by Gary Gygax in the first *Dungeon Master's Guide*, published in 1979, as well as hobbyist magazines and related periodicals that helped to define the modern role-playing

game, Appendix N offers a collection of short fiction and resonant fragments that reveal the literary influences that shaped *Dungeons & Dragons*, the world's most popular RPG. The stories in Appendix N contextualize the ambitious lyrical excursions that helped set the adventurous tone and dank, dungeon-crawling atmospheres of fantasy roleplay as we know it today. Featuring tales by Poul Anderson, Frank Brunner, Ramsey Campbell, Lin Carter, Lord Dunsany, Robert E.

Howard, Tanith Lee, Fritz Leiber, H. P. Lovecraft, David Madison, Michael Moorcock, C. L. Moore, Fred Saberhagen, Clark Ashton Smith, Margaret St. Clair, Jack Vance, and Manly Wade Wellman.

This book is designed to help you build your dream life. To accomplish this goal, you will learn about pursuing your dreams from the undisputed experts: immigrants. Year

after year, millions of well-meaning, but often overbearing, parents immigrate to America to bring greater socioeconomic opportunity to their families while pushing their children to enter highly-regarded, highly-paid, and highly-stable professions. The result: Millions of kids who feel that they must choose between living a life of their own or receiving the support and love of their parents. Doctor, Lawyer, Engineer: How to Pursue Your Dreams without

Giving Your Parents a Heart Attack answers: Why does the pressure to pursue these careers exist? Do these careers pay off as parents expect? What are the psychological/financial implications of this pressure? Read stories from children of immigrants who charted their own path, such as Yvonne Orji who traded med school for a comedy career and now plays a main character on HBO's *Insecure*. By the end of the book you will have learned how to build a

fulfilling and economically viable life for yourself, all without giving your parents a heart attack. *Talons of the Horned King* Goodman Games An A-to-Z reference for Lovecraftian mythos design! A is for Angles, B is for Books and C is for Cultists. Game masters of any rule system will find twisted inspiration for creating madness-inducing game ingenuity from ancient, underground worlds. This tome contains haunting text and cleverly authored random tables to help you

create necronomic stories of forbidden traits, dangerous powers, and lore transcribed from the ravings of madmen. Beware the fear-provoking illustrations by artists in the thrall of the elder gods that will haunt your dreams. All of this, and more, from the libraries of Miskatonic University and Goodman Games! This grimoire is compatible with all fantasy and horror role playing games. Made in the USA. [The Lost Vault of Tsathzar](#) [Rho](#) Goodman Games
