### MALONE ASHLEY

Ultrasound in Obstetrics and Gynaecology JP Medical Ltd

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

Self-assessment in Obstetrics and Gynaecology: Prepare for the MRCOG CRC Press

The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology.

There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.

Obstetrics and Gynaecology Revision CRC Press

This new e-book presents a selection of over 200 self-assessment questions in EMQ, MCQ and SBA

format from the trainee journal Obstetrics, Gynaecology and Reproductive Medicine, mapped by module to the MRCOG Part 2 exam. These questions are designed to test and apply the knowledge essential for candidates to pass MRCOG Part 2. They are also ideal for life-long learning, CPD and, indeed, preparation for all post-graduate exams in obstetrics (not just MRCOG), including especially the new EBCOG exam in Europe and local college exams in India, the Middle East and Africa.

**Clinical Obstetrics and Gynaecology** CRC Press

European Practice in Gynaecology and Obstetrics is a series of books conceived and endorsed by the European Board and College of Obstetrics and Gynaecology (EBCOG). The topics chosen for each volume are those of significant clinical interest where treatment is changing in response to research findings and developments in practice. The volume editor and contributing authors are European specialists invited to contribute because of their expertise in their field. The books concentrate on various types of management used in European practice as well as published results. The authors present treatments for which a consensus exists and - when there is no consensus - they discuss the key elements of the controversy. Each book provides a review of the

basic science, recent concepts in pathophysiology, clinical aspects, treatment and unresolved problems or controversies, as well as the major recent references. A final section provides multiple-choice questions for each chapter. Series concentrates on important and changing areas of clinical practice Each volume editor is a leading European expert in the field Contributors are drawn from a wide range of European countries All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems Current references are included for each chapter Multiple choice questions are provided at the end of each chapter This volume comes with a CD containing all the colour images in the book plus 106 extra images MCQs John Wiley & Sons

Fourth edition of the book covers the topics in Obstetrics and Gynecology with a holistic yet focused approach to cater to the needs of PG aspirants. After a high-yield synopsis of the topics in each chapter, there is detailed explanation of the MCQs to enhance the utility of the book for students appearing in different PG entrance exams Quick review of the entire subject Contains lucid presentation of text with recent advances Handbook for PG students Includes exhaustive and comprehensive theory and MCQs from major PG entrance exams (including AIIMS Nov 2015 and All

India 2015) with detailed explanations and references from standard textbooks like Williams and Novak

**800 True/False Multiple Choice Questions in Obstetrics and Gynaecology** CRC Press

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

*MCQs Tutor* CRC Press

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

*EMQs in Obstetrics and Gynaecology* CBS Publishers & Distributors Pvt Limited, India

"... the only book needed to pass finals in obs and gynae." Student BMJ "...the best obstetrics and gynaecology textbook..." Barts and The London Chronicle Impey's Obstetrics and Gynaecology is the key textbook in the field. The book provides: Management sections - invaluable for OSCE's Ethics and legal aspects Integrated approach to basic science and clinical practice History and examination, Investigations and diagnosis Common disorders and diseases Abnormalities and complications The second edition presents: Features & Benefits Illustrations including new scans and accompanying new line diagrams - Aids understanding in real life clinical context Key Points boxes - Highlights core information At a Glances - Rapid summary of chapter contents New Cochrane References - Access to the clinical evidence base Further reading section - Points to sources of deeper knowledge and understanding All in all, Obstetrics and Gynaecology is the only book you need to complete your course and pass your exams!

*Clinical Obstetrics and Gynaecology E-Book* CRC Press

IT CONTAINS MORE THAN 2000 MCQS OF OBSTETRICS & GYNAECOLOGY IT WILL HELP YOU GUYS TO CRACK FOLLOWING EXAMS - FMGE - NEET PG - UNIVERSITY EXAM - NEXT EXAM

*Short Essays, OSCEs, MCQs, Exam Tips* Elsevier Health Sciences

A new edition which brings the reader right up to date with the advances in the field since the

publication of the previous edition ten years ago. In that time MCQs have continued to play a major role in the testing of factual knowledge, and with the extensive changes in undergraduate examinations MCQs have remained the most effective and objective means of assessing straightforward factual knowledge.

*100 Cases in Obstetrics and Gynaecology* PasTest Ltd

Essential MCQs in Obstetrics and Gynaecology for Medical Students PasTest Ltd

**MCQs in Undergraduate Obstetrics and Gynaecology** Paras Medical Publisher

This book presents medical students and those preparing for postgraduate examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement the latest editions of the best-selling volumes *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers*. Key features: Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested Clear and accessible— with concise explanations of answers and directions to the Ten Teachers textbooks for those seeking further advice and guidance With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for for DRCOG and MRCOG examinations will find *Self Assessment in Obstetrics and Gynaecology by Ten Teachers* provides invaluable practice and guidelines during the critical revision period.

*A Survival Guide* CRC Press

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

*With Explanatory Answers & High-yield Info* Chandresh Agrawal

What is an OSCE? How do you prepare for it? What is the structure of the DRCOG exam? Can I time and score myself ahead of the exam? How are OSCE and MCQ questions set and what marking schemes are used? Answer to all of these questions - and more - are provided in this new text. The quality of the text and supporting illustrations - many in full colour - will make it useful to a wide audience, including candidates preparing for the DRCOG and the MRCOG; undergraduate medical students who need to revise their understanding of O&G; midwives, as an aid to practice; and overseas doctors studying for the PLAB.

*MCQs for MRCOG Part 1* NISHANT BHUSHAN

"MCQs in Gynaecology and Obstetrics will help medical students prepare for exams during clinical attachments and medical finals. This comprehensive self-assessment text accompanies the well-known volumes, *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers*. Questions and answers are referenced to appropriate chapters in these texts."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

*Gastrointestinal and hepatobiliary radiology : (question bank for FRCR)* Elsevier Health Sciences Reflecting the new exam format, MRCOG PART 1: 550 SBAs AND MCQs offers the most up-to-date and comprehensive coverage of practice questions, for trainees preparing for the MRCOG Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 550

questions, reflecting the breadth of topics encountered in the actual exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Includes two complete mock papers to practice and improve exam technique Visually-enhanced answers to improve understanding of key concepts

*OSCEs and MCQs in Obstetrics and Gynaecology* Elsevier Health Sciences

Modelled on the current MRCOG syllabus, *Get Through MRCOG Part 2: EMQs* is designed to test candidates' theoretical and practical knowledge of obstetrics and gynaecology. The book opens with an introductory section explaining the format of the examination, providing advice on how to prepare for it and how EMQs should be approached in order to obtain the highest marks. 320 EMQs are presented in the form of eight practice papers, reflecting the level of difficulty and style of the actual examination, and each answer is supplemented with a detailed explanation to help candidates assess and improve their own level of knowledge. Providing an invaluable bank of revision questions, *Get Through MRCOG Part 2: EMQs* is the essential revision guide for all specialist trainees preparing for this examination. The book is comprehensive and authoritative: Justin Konje was closely involved in pioneering the introduction of EMQs into the MRCOG examination and runs a highly regarded MRCOG Part 2 course in the UK.

*Pt. 1, MCQs and Key Concepts* Bailliere Tindall Limited

A collection of over 450 tried and tested multiple choice questions comes complete with reasoned answers. Published in association with the Royal College of Obstetricians and Gynaecologists, the pattern of questions follows that of the MRCOG Part 1 providing essential revision material and MCQ practice for this examination.

*An aid to revision and self-assessment* CRC Press

*Get Through MRCOG Part 2: MCQs* covers the breadth and depth of the MRCOG Part 2 examination syllabus and is an essential revision tool for candidates preparing for this examination. The comprehensive and wide collection of practice questions is designed to help the candidate test and assess their knowledge of the subject, aiding them in thorough preparation for the exam. The text contains 750 multiple choice stems, each with around four associated questions, providing the reader with a total of 3000 individual questions with which to test themselves. The material is divided up by subject area, allowing candidates to test their knowledge on a particular topic. The 13 'modules' are followed by two mock papers, each containing a selection of questions on different subject areas, which the reader can attempt under timed conditions. Answers are provided, with useful explanatory information for all questions to help the reader understand why their answer is right or wrong. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide.

**Obstetrics & Gynaecology Module 1** Cambridge University Press

Multiple Choice Questions are the most common method of assessing knowledge in radiology. This book has more than 1000 questions, covering all the essential topics in Gastrointestinal Radiology. The questions have been divided into separate topics, which will enable revising the subjects on a topic basis, with due emphasis on anatomy, techniques and pathology. The questions have been designed on the format used by the Royal College of Radiologists UK, Ireland, Hong Kong, Australia and New Zealand. There is a single question with five stems, which require a true or false response. The answers and detailed explanations are provided at the end of each chapter. This book will be a valuable resource for review and practice prior to the Fellowship exams. Bibliographies have been provided for further reading.
