Contemporary Reflections on Business Ethics

This book gives a unique perspective on the interwar history of the Middle East. By telling the life story of one man, it illuminates the political and cultural struggles of an era. Shakib Arslan (1869–1946) was a leading member of the generation of Ottoman Arabs who came to professional maturity just before the final defeat of the Ottoman Empire. Born to a powerful Lebanese Druze family, Arslan grew up perfectly suited to his time and place in history. He was one of the leading writers of his day and a dexterous, ambitious politician. But, by the end of World War I, Arslan and others of his generation found themselves adrift in a world no longer of their choosing, as the once great Ottoman

state lay broken before the West. Rather than retreating from public life in those dark days, however, Arslan emerged militant in his opposition to Western encroachment on Islamic lands and tireless in his crusade to bring the organizing principles of a universalist Islam to the age of emerging nation-states. Organizer, pamphleteer, diplomat, spokesman, and symbol, Arslan became one of the dominant, and most controversial, Muslim political figures in the two decades between the wars. His involvements were so varied and intense that to study his life is to bring into focus all the major political issues and intellectual currents of the era. By the end of his career he was both praised and vilified, but he was arguably the most widely read Arab author of his day. Curiously, Arslan has received relatively little attention in English-language research. This may well be due less to his contemporary importance than to the perspective from which Western scholarship has viewed Middle Eastern intellectual history. Arslan was not one of the winners. For many his evocation of the old imperial ideal and his insistence on the strategic importance of Islamic ideals seemed to be simply archaic protest in a secular age. But this impeccably researched and beautifully written

biography demonstrates the power and importance of Arslan's activist heritage, reinterpreting it for its own time and showing its importance for ours.

Over 30 years Ronald F. Duska has established himself as one of the leading scholars in business ethics. This book presents Duska's articles the years on ethics, business ethics, teaching ethics, agency theory, postmodernism, employee rights, and ethics in accounting and the financial services industry. These reflect his underlying philosophical concerns and their application to real-world challenges — a method that might be called an Aristotelian common-sense approach to ethical decision making. *Containing Sketches of Service in the South, and the Experience, Incidents and Observations Connected with Almost Two Years' Imprisonment at Johnson's Island, Ohio, where 3,000 Confederate Officers Were Confined* *Contemporary Reflections on Business Ethics* *Islam Against the West*
