The second installment in acclaimed Black-Ops thriller author Leo J. Maloney's spin-off series featuring Alex Morgan, daughter of Zeta operative Dan Morgan. **STORM FRONT** Ares, an insidious challenger to the Zeta group, is sowing conflict around the world, orchestrating an explosive endgame. Identifying the next target as a cruise ship on the Coral Sea, Zeta sends undercover operatives Alex Morgan and Alicia Schmitt to avert catastrophe. Infiltrating the crew and passengers is easy for the skilled agents—but also for the fortified and highly trained extremists, who topple security and gain control of the ship. The attackers' demands: inconceivable. Their

threats: immediate. As a massive storm bears down off the Australian coast, Alex and Alicia are outnumbered, outgunned, and out to sea. In full chaos mode, Alex shores up her last defenses, unaware that someone close to her could shift the odds in her favor—or against her. Ares has every advantage in this operation, but they have overlooked one key thing. Never underestimate a Zeta agent . . . especially one whose last name is Morgan. Praise for Leo J. Maloney and His Novels "Utterly compelling." —Jeffery Deaver "Fine writing and real insider knowledge." —Lee Child "Rings with authenticity." —John Gilstrap "A ripping story!" —Meg Gardiner "The new master of the modern spy game." —Mark Sullivan

Mi María: Surviving the Storm DSP Publications

One of Bloomberg's Best Books of the Year The master geopolitical forecaster and New York Times bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year "institutional cycle" that has defined us (there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year "socio-economic cycle" that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability,

and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.

Now, with resources stretched to their breaking point, Sheridan police officer Mike Stuart must try to keep the town safe. But there something is lurking in Sheridan.
