David Fincher: Mind Games is the definitive critical and visual survey of the Academy Award- and Golden Globe-nominated works of director David Fincher. From feature films *Alien 3*, *Se7en*, *The Game*, *Fight Club*, *Panic Room*, *Zodiac*, *The Curious Case of Benjamin Button*, *The Social Network*, *The Girl With the Dragon Tattoo*, *Gone Girl*, and *Mank* through his MTV clips for Madonna and the Rolling Stones and the Netflix series *House of Cards* and *Mindhunter*, each chapter weaves production history with original critical analysis, as well as with behind the scenes photography, still-frames, and original illustrations from Little White Lies' international team of artists and graphic designers. Mind Games also features interviews with Fincher's frequent collaborators, including Jeff Cronenweth, Angus Wall, Laray Mayfield, Holt McCallany, Howard Shore and Erik Messerschmidt. Grouping Fincher's work around themes of procedure, imprisonment, paranoia, prestige and relationship dynamics, Mind Games is styled as an investigation into a filmmaker obsessed with investigation, and the design will shift to echo case files within a larger psychological profile.

The Instant-Series Presents "Instant Genius" How to Think Like a Genius to Be One Instantly! When you hear the word "genius" - what immediately pops into your mind? Perhaps, people like Albert Einstein, Isaac Newton, Leonardo da Vinci, and Thomas Edison just to name a few. What did all these folks have? What was the common factor that made them a genius? And is possible for you to also be like them? Now what is a genius? Geniuses are, first and foremost, extraordinary individuals... They are always somewhat ahead of their time, and their contributions to the world have shaped society into what we know it as of today with all the remarkable fleets of advanced achievements unheard of in the past - just look at how far we have come with modern medicine, science, technologies, etc. And geniuses have helped mankind evolved into more intelligent beings - pushing us to all strive for even greater possibilities. So how to become a genius? The widely-accepted notion is...you're either born with a genius IQ or not; however, being a genius has less to do with your level of intelligence. Everybody has their own form of genius. The key is how to unlock that inner genius of yours. Within "Instant Genius": \* How to easily create a custom "genius trigger button" step-by-step, so you can activate it to turn on your full-intellectual mental capacity at will, at anywhere, and at anytime. \* How to channel your inner genius through the power of your subconscious mind, by doing the "subconscious self-session" technique to open doors to new ways of thinking. \* How to use personalized "visual mental imprints" as your sources of inspirations and motivations to spark your creative genius to generate unlimited innovative ideas. \* How to develop genius reflexes to handle any complex problem and come up with

ingenious solution to have people look up to you, always wanting to hear what you have to say. \* How to optimize your mind to work in relentless genius mode with full concentration and inexhaustible energy where obstacles no longer exist, through an in-depth "4-stages process" you can implement whenever you want. \* Plus, custom practical "how-to" strategies, techniques, applications and exercises on how to think like a genius. ...and much more. All of us has the potential to be our own geniuses. You just only need to be guided on how to unleash that genius brain power within you - to finally realize what you're truly capable of.
