 "A thrilling story of seduction, betrayal, and loss, Freud's Mistress

will titillate fans of *Memoirs of a Geisha* and *The Other Boleyn Girl*.”—Booklist In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century’s greatest thinkers, Freud’s *Mistress* is a novel rich with passion and historical detail and “a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy?”* *Publishers Weekly

- Learn from examples, problem solutions, and tips and tricks for daily practice

ABAP developers require special programming skills for workflow-related ABAP development, as well as very specific process knowledge. With this book, you will acquire both! You'll learn the aspects of the tools that are directly related to the developer's tasks, understanding when it is necessary to use custom code and how to write this code. In the many activities and tutorials this book provides, you'll discover how your work differs from the workflow engine of classic application development, as well as how to influence the behavior of a workflow with its own ABAP programs. Additionally, you'll learn how to customize the workflow environment beyond standard programming.
