Examines the Ozidi Saga -- one of Africa's best-known epics -- as an example of oral literature and as a reflection of the specific social and political concerns of the Nigerian Delta.

Literature Between Critique and Utopia New Africa Books "... book which explores the journey of celebrating the link between people and nature, the book reveals how plants, animals and landscapes are profoundly reflected in Xhosa language, stories, poetry, religious rituals, healing practices and everyday customs that define Xhosa culture. Over the years cultural and spiritual meaning of nature in South Africa has been poorly recorded and often misunderstood. The current trade of medicinal plants is often destructive and unsustainable with an estimated 27 million South Africans making use of indigenous medicines. This is a serious detriment as natural resources have been a reliant for underprivileged people who gain food, fuel, medicines, and building materials from wild plants. Therefore the addition of information on edible and medicinal plants is of extreme importance ... Voices from the Forest gives a fresh positive approach to biodiversity conservation in SA by showing that people's values for natural resources can be considered positively as a way forward to continued sustainable use. The book explores the role that nature plays in the cultural and spiritual landscapes of the Xhosa people in the Eastern Cape of South Africa and serves as a pointer to sustainable practices in the future. The underlying aim is ultimately sustaining cultural heritage and conserving biodiversity because in our modernising world cultural diversity is threatened by the loss of natural diversity and finding ways of protecting the region's biodiversity and cultural diversity is of vital importance"--Publisher's website. **The Ozidi Saga and Oral Epic Narratology** FaithWords Assembles for the first time the many different texts imagining the future after the end of apartheid Explores the history of how

the future in South Africa after the end of apartheid was imagined Provides the first literary-cultural history of South African speculative fiction Studies the literary-political cultures of the five major traditions of South African anti-colonial/ anti-segregationist/ anti-apartheid thought Focusing on well-known and obscure literary texts from the 1880s to the 1970s, as well as the many manifestos and programmes setting out visions of the future, this book charts the dreams of freedom of five major traditions of anti-colonial and anti-apartheid resistance: the African National Congress, the Industrial and Commercial Workers Union, the Communist Party of South Africa, the Non-European Unity Movement and the Pan-Africanist Congress. More than an exercise in historical excavation, *Dreaming of Freedom in South Africa* raises challenging questions for the post-apartheid present.

Moved by the desire for adventure and a yearning to help the Ute Indians, twenty-year-old Shiloh Wainright impulsively accepts a teaching position at the White River Indian Agency in northwestern Colorado. The new job, however, isn't what she imagined it would be, and Shiloh soon finds herself caught in the cross fire between the Utes, their unyielding Indian Agent, and the unrealistic demands of the US government. Her unexpected encounter with Jesse Blackwater, an embittered half-breed Ute and childhood friend, only complicates matters as they battle their growing feelings for each other amidst the spiraling tensions threatening to explode into a catastrophic Indian uprising. Set amongst the wilds of the Colorado Rockies in 1879, this is a tale of a forbidden love and a faith tested in the cauldron of intolerance and the harsh realities of life on the untamed frontier. Bestselling author Kathleen Morgan deftly explores themes of mercy, fidelity to one's beliefs despite what others think or do, and compassion for those different from oneself as she plumbs the depths of the human heart and the healing power of God's love.

The authors give a glimpse of the rich variety of oral traditions encountered in the southern African region and touch on a number of disciplines that investigate these traditions. The book reminds us that there are millions of people who do not have direct access to the media. These people are reliant on - and highly proficient in - their own oral traditions, through which they and their forefathers provided education and entertainment, long before the advent of the written word.

Celebrating Nature and Culture in Xhosaland Prentice Hall

With a new foreword by Bruce Kapferer, Professor of Anthropology, James Cook University- A reprint of the seminal anthropological work of the 1960s. Originally published by Manchester University Press. Victor Turner will be remembered as the anthropologist who developed the concept of the 'social drama', a method used extensively by anthropologists to describe and analyse the social life of a community. In essence, this technique involves analysing social crises within a community over a period of time in order to gain a better understanding of the key principles that govern the social life of the community. This book -- Turner's first 'social drama' study -- focuses on the village life of the Ndembu of Zambia who were then under British rule. The social constraints, such as the matrilineally-inherited headmanship system, and the various releases from these constraints, provoked periodic crises which caused great disruption and pain. These crises made visible the contradictions between the principles governing social life and the conflicts experienced between individuals and groups when enforcing these principles. Seven social dramas are discussed - all from one family over a period of twenty years -- each substantiated by sociological and demographic research.

This book is a part of the Ritual Studies Monograph Series. The consumption of indigenous beer is a widespread and long-standing feature of many African societies, a practice of both historical and contemporary significance. Among the rural, Xhosa-speaking people of South Africa's Eastern Cape province, maize beer became increasingly important in the context of early twentieth century colonialism, and a range of new beer drinking rituals developed. This coincided with state neglect of black rural areas and with economic and demographic changes that led to the emergence of co-operative relations within neighbourhood groups as a vital element of homestead production. With the entrenchment of the apartheid regime from the late 1940s onward, the maintenance of a rural homestead, agricultural practices, and an agrarian lifestyle became one way to resist the injustices of apartheid and fuller incorporation into the wider society. In this respect, beer rituals became a crucial mechanism through which to develop and maintain rural social and economic relations, to inculcate the values that supported these, and to provide a viable though fragile view of the world that afforded an alternative to the disillusionment and suffering associated with black urban areas. Using an anthropological analysis based on a combination of Bourdieu's practice theory with the anthropology of performance, this book demonstrates the way beer drinking

rituals worked towards these aims, the various types of rituals that developed, and how they sought to instill a rural Xhosa habitus in the face of almost overwhelming odds.

A Xhosa prince reluctantly leaves the University College of Fort Hare and goes back to the land of his ancestors to take his place as king of the Mpondomise. The clash of his modern ideas and the traditional beliefs of his people mirrors the dash of the western way of life with African custom and tradition -- church-people versus traditionalists, school people versus 'red-ochre people', boarding school activities versus the inkundla or assembly at the royal place. The conclusion, that disaster can be averted only by

the willingness of opposing forces to work together for mutual comprehension of the legitimate claims of tradition and modernity, gives a foretaste of the spirit that governed modern South Africa's political transformation. Ingqumbo Yeminyanya -- The Wrath of the Ancestors -- is a classic of Xhosa literature. A C Jordan has a keen eye for detail, a delightful sense of humour and a dramatic style. Literal translations of Xhosa images, idioms and proverbs transport readers to the Tsolo district and conjure up the memorable speeches of the Mpondomise counsellors.
