Brunelleschi's Dome How A Renaissance  
Brunelleschi's Dome is the story of how a Renaissance genius bent men, materials, and the very forces of nature to build an architectural wonder we continue to marvel at today. Award-winning, bestselling author Ross King weaves this drama amid a background of the plagues, wars, political feuds, and the intellectual ferments of Renaissance Florence to bring the dome's creation to life in a fifteenth-century chronicle with twenty-first-century resonance.  
Brunelleschi's Dome: How a Renaissance Genius Reinvented ...  
Brunelleschi's Dome: How a Renaissance Genius Reinvented Architecture was a fascinating look at the personal struggles and brilliance of Brunelleschi in his engineering, design and erection of the dome over the beautiful new cathedral Santa Maria del Fiore in the heart of Florence. However, it had already been under construction for a century when, in 1418, a contest was announced for designs to be submitted for the construction of a dome that would vault over the cathedral.

By Stas Margaronis. On August 19, 1418, Filippo Brunelleschi was awarded the contract to build the dome that would enclose the Florence cathedral Santa Maria de Fiore. Brunelleschi would dedicate the next 28 years to solving the puzzles of the dome's construction. In the process, he did nothing less than reinvent the field of architecture according to King.
