Written by an international team of acknowledged experts, this excellent book studies a wide range of contributions and showcases new research on the archaeology, ritual and history of Greek mystery cults. With a lack of written evidence that exists for the mysteries, archaeology has proved central to explaining their significance and this volume is key to understanding a

phenomenon central to Greek religion and society.

Its mysterious symbols and rituals had been used in secret for centuries before Freemasonry revealed itself in 1717. But where had this powerful organization come from and why had Freemasonry been attacked by the Roman Catholic Church? Robinson answers those questions and more.

*Conflicted Antiquities* is a rich cultural history of European and Egyptian interest in ancient Egypt and its material culture, from the early nineteenth century until the mid-twentieth. Consulting the relevant Arabic archives, Elliott Colla demonstrates

that the emergence of Egyptology—the study of ancient Egypt and its material legacy—was as consequential for modern Egyptians as it was for Europeans. The values and practices introduced by the new science of archaeology played a key role in the formation of a new colonial regime in Egypt. This fact was not lost on Egyptian nationalists, who challenged colonial archaeologists with the claim that they were the direct heirs of the Pharaohs, and therefore the rightful owners and administrators of ancient Egypt's historical sites and artifacts. As this dispute developed, nationalists invented the political and expressive culture of "Pharaonism"—Egypt's response to Europe's Egyptomania. In the process, a significant body of modern, Pharaonist poetry, sculpture, architecture, and film

was created by artists and authors who looked to the ancient past for inspiration. Colla draws on medieval and modern Arabic poetry, novels, and travel accounts; British and French travel writing; the history of archaeology; and the history of European and Egyptian museums and exhibits. The struggle over the ownership of Pharaonic Egypt did not simply pit Egyptian nationalists against European colonial administrators. Egyptian elites found arguments about the appreciation and preservation of ancient objects useful for exerting new forms of control over rural populations and for mobilizing new political parties. Finally, just as the political and expressive culture of Pharaonism proved critical to the formation of new concepts of nationalist identity, it also fueled Islamist opposition to the Egyptian state.

A new edition of the bestselling comprehensive history of the world from the perspective of struggling peoples throughout the ages—with a foreword by Howard Zinn From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress. “I have had many people ask me if there is a book which does for world history what my book *A People’s History of the United States* does for this country. I always responded that I know of only one book that accomplishes this extremely difficult task, and that is Chris Harman’s *A People’s History of the World*.” —Howard Zinn

One of The New Yorker's favorite nonfiction book of 2019 | A New York Times Book Review Editors' Choice Named one of Vogue's "17 Books We Can't Wait to Read This Fall" "Compulsively readable . . . ravenously consuming . . . manna from heaven . . . If ever someone knew how to put a genuinely irresistible book together, it's Jacobs in *Still Here*." —Jeff Simon, The Buffalo News *Still Here* is the first full telling of Elaine Stritch's life. Rollicking but intimate, it tracks one of Broadway's great personalities from her upbringing in Detroit during the Great Depression to her fateful move to New York City, where she studied alongside Marlon Brando, Bea Arthur, and Harry Belafonte. We accompany Elaine through her jagged rise to fame, to Hollywood and London, and across her later years, when she enjoyed a stunning renaissance, punctuated by a turn on the popular television show *30 Rock*. We explore the influential—and often fraught—collaborations she developed with Noël Coward, Tennessee Williams, and above all Stephen Sondheim, as well as her courageous yet flawed attempts to control a serious drinking problem. And we see the entertainer triumphing over personal turmoil with the development of her Tony Award-winning one-woman show, *Elaine Stritch at Liberty*, which established her as an emblem of spiky independence and Manhattan life for an entirely new generation of admirers. In *Still Here*, Alexandra Jacobs conveys the full force of Stritch's sardonic wit and brassy charm while acknowledging her many dark complexities. Following years of meticulous research and interviews, this is a portrait of a powerful, vulnerable, honest, and humorous figure who continues to reverberate in the public consciousness.

"Secret society historian Craig

Heimbichner follows the Middle Path to wisdom. He works the graveyard shift in the secret lodge."—Joan d'Arc, *Paranoia* magazine Secret societies—now a staple of bestseller novels—are pictured as sinister cults that use hooded albinos to menace truth-seekers. Some conspiracy books claim that fraternal orders are the work of serpentine aliens and interbred humans who wish to supplant earth of its energy, and later, its very existence. On the other side of the aisle, books by high-ranked Freemasons—skeptical in tone but no less partisan in approach—protect their organization's public image by denying the existence of its most contentious ideas. *Ritual America* reveals the biggest secret of them all: that the influence of fraternal brotherhoods on this country is vast,

fundamental, and hidden in plain view. In the early twentieth century, as many as one-third of America belonged to a secret society. And though fezzes and tiny car parades are almost a thing of the past, the Gnostic beliefs of Masonic orders are now so much a part of the American mind that the surrounding pomp and circumstance has become faintly unnecessary. The authors of *Ritual America* contextualize hundreds of rare and many never-before printed images with entertaining and far-reaching commentary, making an esoteric subject provocative, exciting, and approachable. Adam Parfrey is the author of *Cult Rapture: Revelations of the Apocalyptic Mind* and *It's a Man's World: Men's Adventure Magazines, the Postwar Pulps*. He is editor of the influential *Apocalypse Culture* series *Love, Sex, Fear Death: The Inside Story of the Process Church of the Final Judgment*. Craig Heimbichner has recently appeared on a National Geographic documentary about the Bohemian Grove, contributed to the Feral House compilation *Secret and Suppressed II*, and wrote about the famous occult order the O.T.O. in *Blood and Altar*.

This book comprehensively examines religious faith in China from the perspective of cultural philosophy and cultural history. It explores the social, political, cultural and spiritual meanings of religions, tracing their historical development and related paradigm shifts. It also analyzes the characteristics of the country's local religions and the process of indigenization of world religions, and describes the peaceful co-existence and harmonious confluence of multiple religions in Chinese spiritual life, revealing the vibrant and diverse colors of its religious culture. Examining these religions' social and cultural functions in contemporary Chinese society, the book demonstrates the rich and complex intertwinement of religious faith, cultural spirit and national disposition among the Chinese people.

 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that

today puts old spirits into new contexts.

Robert R. Taylor and Tuskegee interweaves the life of the first academically trained African American architect with his life's work at the campus of Booker T. Washington's Tuskegee Normal and Industrial Institute. In this richly illustrated architectural history, the author shows how a black youth born in North Carolina shortly after the Civil War earned a professional architecture degree at MIT, and how he then used his design and administrative skills to further Booker T. Washington's agenda of community solidarity and in defiance of the then-expanding Jim Crow policies; the public expression of racial pride and progress. The book also considers such issues as architectural education for African Americans at the turn of the twentieth century, the white donors who funded Tuskegee's buildings, other Tuskegee architects, and Taylor's buildings elsewhere. Individual narratives of Taylor's Tuskegee buildings conclude the volume.
