that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the*

*World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of

mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward. *Between Worlds* Longman

A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not

in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting

assignment. What happens to the FIA and to the success of the worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind. Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful,

gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Euripides and his

unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change our lives. The underlying prerequisite of being happy is to avoid stress and the unknown.

Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new

questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields? A Reader, Rhetoric and Handbook Random

It was the past. But history was dropped in my lap the day two dusty, dirty boxes were discovered in

the old farmhouse where my mother was born. As I opened the lids, I was immediately thrown back in time. I was now in the 1940's and caught in the realms of WWII. From the air over the Pacific to the cold harsh winter of the Ardennes in Europe, this is a daughter's story as told to her by her fathers.

 No doubt the 21st century will continue to surprise us, but the battle for the soul of humanity appears to be quickening. Do we have what it takes to save ourselves from ourselves?  
 The internet has fundamentally

changed our experience of shared life, for good and bad. The spiritual and ecological exhaustion of modernity is watched and discussed in a public realm mostly controlled by private interests, where our attention is easily hijacked and vulnerable to manipulation. There is joy and hope in life as always, but our species faces a capricious future. This anthology is an attempt to perceive our contexts and

opportunities more clearly with an exploration of the metamodern sensibility: a structure of feeling, cultural ethos, epistemic orientation and imaginative outlook that is coalescing into an important body of theory and practice. Leading metamodern writers, including Zachary Stein, Bonnitta Roy, Lene Rachel Andersen, Hanzi Freinacht, Minna Salami and John

Vervaeke, reflect upon the conjunction of premodern, modern and postmodern influences on the present to help contend with our plight in the 2020s and beyond. Fourteen chapters traverse a range of disciplines and domains to help the reader move beyond critique into vision and method. The aim is to create and inspire viable and desirable futures in this time between worlds, where

one pattern of collective life is dying and another needs our help to be born.

Harris makes the move from the mean streets of Chicago to the sleepy roads of Marietta, Montana, it's not just his career that's changing... it's his entire life. Going from police officer to forest ranger isn't too much of a stretch, but getting used to how things work in a small town is. As he settles in, Todd realizes he loves the slower pace of the countryside, but then... an Olympic gold medalist

comes to town and shatters his hard fought peace. But the town's new forest ranger doesn't like attention and he sure as hell isn't looking for any kind of relationship with someone who does. When Molly gets lost in the woods though and Todd is the one who saves her, the spark he's been trying to ignore smolders and ignites. It's then that he realizes there's a lot more to Molly than ambition

and public adulation. When Todd signs up for the Men of Marietta calendar shoot to raise money for Harry's House, a place for children to commemorate a fallen firefighter, Molly realizes the kind of man he is. With the shoot wrapping up, she faces a painful decision—return to her old life, or give her new life with Todd a fighting chance.

I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world	of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive.
